It will be necessary to constantly review this charge rate due to the volatility of the energy prices at present. There is currently some headroom in the highest rate to allow for some upward adjustment in year. It is important to maintain an appropriate margin between energy costs incurred and our charge rate as the margin is utilised to cover the cost of operational maintenance and finance fees, however this needs to be balanced against the cost of making the changes to on-street signage each time the rate changes.	s115B, s115E Highways Act 1980; Local Government Act 2003; Localism Act 2011	Statutory Discretionary / Discretionary

Statutory prescribed – legislation provides that the local authority charge for providing a service and either (a) the charge is prescribed (i.e. set eg. £100) or (b) the range is prescribed.

Statutory discretionary (or statutory costs recovery) - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation – the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary – here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge in Local Government Act 2003/Localism Act 2011

Statutory prescribed – legislation provides that the local authority charge for providing a service and either (a) the charge is prescribed (i.e. set eg. £100) or (b) the range is prescribed.

Statutory discretionary (or statutory costs recovery) - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation – the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary – here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge in Local Government Act 2003/Localism Act 2011

Statutory/prescribed - legislation provides that the local authority charging for providing a service are what/who (or the charge or amount fee) is set by CPIH or in the charge is prescribed.

Statutory/discretionary/at statutorily/statutorily recovering - legislation provides that you may charge for providing a service but the amount of the charge is discretionary, within the remit of the legislation - the charge may be limited to cost recovery, reasonable cost or based on consideration of prescribed matters eg. consideration of rental value of land for allotments.

Discretionary - here the authority is not obliged to provide the service but if it does so then the charges must be based on costs recovery, based on the statutory power to charge (s.3 Local Government Act 2003/Localism Act 2011
