#### 1 RECOMMENDATIONS

- 1.1 That the Committee note the contents of the report and the actions being carried out by the Internal Audit team to address deficiencies.
- 1.2 That the Committee consider whether there are any areas on which they require additional action.

#### 2 RELEVANT PREVIOUS DECISIONS

- 2.1 The Audit Committee on 4th April 2006 included in the work programme for 2006-7, the Internal Audit Annual Report for 2005-6.
- 2.2 The Audit Committee on 15 February 2006, having noted the Internal Audit 2004-5 Annual Report Update, instructed the Chief Internal Auditor, in future, to provide progress reports to the Committee on any areas where, in his professional opinion, no significant progress has been made by management in addressing audit findings, and that, in such circumstances, the Chief Internal Auditor be required to bring forward recommendations to the Committee (which it might accept or reject) on possible courses of action to achieve the required progress, which could include in exceptional circumstances calling the relevant Head of Service and, or Cabinet Member to attend and explain the situation to the Committee.

#### 3 CORPORATE PRIORITIES AND POLICY CONSIDERATIONS

3.1 The Council is committed to Best Value and to show that services represent value for money and that there is a continuous drive to improve quality, efficiency and effectiveness of the service (Corporate Plan).

#### 4 RISK MANAGEMENT ISSUES

- 4.1 The purpose of the Internal Audit Annual Report 2005-6 is to highlight to the Chief Executive, Audit Committee, lead member, Corporate Management Team and External Audit, the findings of Internal Audit work conducted in 2005-6 (for work that has not previously been reported in the 2005-6 Interim Annual Report).
- 4.2 The report identifies those areas which are of significant risk in the work undertaken by Internal Audit during this period.

## 5 FINANCIAL, STAFFING, ICT AND PROPERTY IMPLICATIONS

5.1 None directly as a result of this report but it is for management to determine whether addressing any of the risks identified by internal audit reports will require additional resources.

#### 6 LEGAL ISSUES

6.1 None

### 7. CONSTITUTIONAL POWERS

7.1 Constitution Part 3 Paragraph 2 details the functions of the Audit Committee including "To consider the Head of Internal Audit's annual report and opinion, and a summary of internal audit activity (actual and proposed) and the level of assurance it can give over the Council's corporate governance arrangements".

#### 8. BACKGROUND INFORMATION

#### Introduction

8.1 The report provides summary details of all Internal Audit reports which have been agreed and finalised with clients as at 16 May 2006. The report also identifies and gives more detail on those areas which are of significant risk. This is a planned report within the 2006/07 work programme for this Committee.

#### **Executive Summary**

- 8.2 Although it is impractical to give an overall opinion on the control environment, generic control weaknesses are identified in the analysis document at Appendix B. 2005-6 was the first full year where Internal Audit reports highlighted risks and sought mitigating actions from management rather than making recommendations. As can be seen, the most recurring areas of weakness are:
  - Either no or inadequate policies and procedures (28 instances out of a total 182 reported risks made).

Findings in this area do not necessarily mean that policies and/or procedures do not exist but that improvements or additions to existing policies and/or procedures may be required.

The generic risks that result from these omissions include potentially: lack of consistency; standards not being set, understood or complied with; loss of knowledge due to staff changes; increased training time for new staff.

Inadequate monitoring controls over resources (23/182)

The generic risks that result from these omissions include potentially: failure to achieve optimum benefit from resources; management unaware of misuse of resources or potential adverse budget circumstances;

Inadequate data entry arrangements (22/182)

The generic risks that result from these omissions include potentially: ineffective decision making based on inadequate information; adverse external inspection finding on data integrity.

Lack of monitoring, budgeting and administrative controls (20/182)

The generic risks that result from these omissions include potentially: service objectives not being met efficiently and effectively due to an inadequate control environment.

- 8.3 We have agreed management action to address weaknesses recorded in the respective reports, which, if implemented, will improve the overall control environment.
- 8.4 31% of risks were assessed by internal audit as 'Priority 1', signifying that there was a 'significant risk that either objectives will not be met efficiently and effectively or that fraud or irregularity is unlikely to be prevented or detected'.
- 8.5 68% of risks were 'Priority 2', signifying 'only limited assurance that objectives will be met efficiently and effectively and that fraud or irregularity will be prevented or detected'.

## Follow-ups

8.6 All Internal Audit work is followed up as a matter of course. The annual report provides summaries of the findings at follow-up audits. Follow-ups indicate how the level of audit assurance has changed as a result of management implementation of agreed actions. Details of the assurance revisions on the 28 follow-ups conducted in the report period are detailed below. Whilst it is encouraging that 19 of the areas are now at a 'satisfactory' level of assurance, it needs to be noted that 9 remain at 'limited' indicating that further management action is required to fully implement agreed actions or mitigate identified risks.

Analysis of Assurance Levels on Follow-up	No.
No assurance still no assurance	0
Limited assurance still limited assurance	8
Satisfactory assurance to limited assurance	1
No assurance to limited assurance	0
No or limited assurance to satisfactory	11
Satisfactory assurance still satisfactory assurance	8
Total	28

# Corporate Governance and Risk Management

# Corporate Governance

8.7 We conducted a corporate governance review in 2002-3. The follow-up review was completed in 2003-4 and concluded that significant improvements have been made but identified that further improvements are required regarding performance management, risk management and financial systems. We will be conducting a full review of corporate governance arrangements again in 2006-7.

#### Risk Management

8.8 We undertook a formal audit of the processes and arrangements in place to deliver an embedded risk management structure in 2003-4. The overall conclusion was limited assurance that objectives would be achieved as implementation was at an early stage. The Council's external auditors, Robson Rhodes, conducted a further full audit of Risk Management in 2005-6 which included following up the recommendations made in the Internal Audit report. We have relied on the work of external audit in this area. External Audit's final report came to the conclusion that:

'The current arrangements and processes form a good foundation for further developing risk management so that the areas for improvement identified during our review can be addressed.'

The action plan from that review is being taken forward by the newly assigned Corporate Risk Manager. A further full review of the revised arrangements will be undertaken in 2006-7. We are satisfied, however that significant progress is being made following the transfer of responsibility to Resources. In particular, the introduction of an 'Internal Control Checklist' and 'mini – Statement of Internal Control' for each service has focused attention further on embedding risk management policy and processes.

8.9 As part of our contribution to embedding risk management, Internal Audit have adopted a new approach to reporting. From 1 April 2005, we stopped making recommendations in reports, instead highlighting the risk associated with the finding from the audit. The management action required to address this risk is then discussed and agreed at the relevant exit meeting. We remain flexible, though, and when clients request recommendations from us, we provide them as 'suggested recommendations'. We will be formally reviewing this approach in 2006/7 although feedback so far has been almost entirely positive.

#### Anti-Fraud Work

8.10 The Corporate Anti Fraud Team (CAFT) was set up on 1 April 2004. Internal Audit continues to liaise closely with the team to ensure that maximum improvements are delivered to the Council's control environment.

- 8.11 The Internal Audit/CAFT protocol has been reviewed in April 2006. Internal Audit now formally review any residual risk and control issues which result from CAFT investigations.
- 8.12 CAFT report independently to the Audit Committee.

# 2005/06 Annual Audit Plan Update @ 16th May 2006

# Notes:

1. Audit work highlighted in **bold** is additional work not shown on original 2005/06 Audit Plan which includes:

Newly commissioned work 2005/06 Work carried forward from 2004/05 Work deferred from 2004/05

- 2. Under 'Original Quarter Planned' numbers in brackets indicate original start quarter for jobs which have been moved.
- 3. Under 'Title of Audit/Project' titles in italics indicate that the audit has been renamed.
- 4. Under 'Job Type' the key is as follows:

S = System

KS = Key System

KC = Key Control

F = Follow-up

P = Project

CF = Carry Forward job

ML = Management Letter
