

Council: 20 December 2005

Administration Policy Item: Cllr. Brian Salinger

Budget 2006/07

Council notes the components of the budget 2006/07.

Council further notes the Budget will be set after careful consideration.

Council believes this authority continues to be under-funded by government, again receiving a Formula Grant increase lower than the London and England averages.

Council calls on Cabinet to work to produce the Budget for 2006/07 within the constraints imposed by government.
