

Council, Tuesday 14 July

Amendment to Member's Motion 3.2

Moved by Cllr Matthew Offord

Alcohol Free Zones

Delete all and insert:

Council believes a Borough-wide ban on consuming alcohol would be an illiberal measure.

Council believes that resources should be focussed on areas with the greatest need, rather than enforcing a blanket ban.

Council notes that the police currently do not support a blanket ban.

Council believes that to make the entire Borough a 'no street drinking alcohol zone' would unfairly prohibit law-abiding residents from enjoying events such as street parties and picnics.

Council requests that Cabinet continues to take guidance from the police regarding the designation of alcohol free zones.
