The representative of the Interim Director of Environment & Operations submitted a proposal (accompanied by a tabled plan) for parking restrictions to address the car parking problems in Wayside highlighted by Cllr Monroe Palmer in his item. At the request of the Chairman, these had been developed in consultation with Cllr Palmer, and (as modified slightly from those shown on the plan) comprised double yellow lines at junctions and along both sides of Wayside placed to allow passing spaces (of 2 cars in length) between the areas where parking would be permitted. The remaining space available for parking would be set out to accommodate a fixed number of cars.

The Sub Committee

RESOLVED – That the proposed parking restrictions be implemented as soon as possible subject to any statutory requirements.
