

HENDON AREA ENVIROMENT SUB-COMMITTEE
23 February 2011

Agenda Item 5: Members' Item - Parking in Colindale Ward NW9

Addendum

Subsequent to the publication of the Agenda for this meeting, Councillor Geoffrey Johnson has requested that the following representation be circulated and considered by the Hendon Area Environment Sub-Committee:

“As a result of a residents meeting held on 16th February their preferred option is that parking is allowed as follows:

Two wheels on the highway and two wheels on the tarmac verge. Signage to be attached to lampposts stating that this is a parking area at all times with an appropriate image of a parked car.

There is precedent for this method of parking as other areas in the Borough have this system.

Residents are concerned that the painted parking boxes would result in a CPZ which they against for these roads. This preferred method does ensure the free flow of traffic particularly for large and emergency vehicles”.
