Controls are needed in EER and W/Rs in Windermere Ave in order to deter commuter parking/staff and visitors to the Sternberg Centre/Akiva School from parking all day

Displaced parking														
Will encourage car usage														
Would like free bays to be converted to resident bays														
Questions the reasoning behind the proposals														
Free bays and spaces always used by employees of the Sternberg Centre/commuters														
Reduction of the W/Rs to 6.30 will reduce safety/signhtlines														
Would like more stringent restrictions due to evening events held at the Sternberg Centre/Akiva Schhol														
Need enforcement during school pick up and drop off times/Dopped kerbs/W/Rs/junctions/double parkign etc

Additional Comments

Believes the proposals originate from a misunderstanding during the free bay conversion scheme. Say

s resident did not want the free bays converted to all day pay and display bays as it would result in displ:

aced parking. Coahes will park in the area if w/r's are reduced to 6.30
