

## APPENDIX

### 10.7 APPOINTMENT OF REPRESENTATIVES OF THE COUNCIL TO OUTSIDE BODIES

#### (i) LONDON BOROUGH OF BARNET REPRESENTATION ON THE NORTH LONDON WASTE PLAN, PLANNING MEMBERS GROUP

Barnet together with Camden, Enfield, Hackney, Haringey, Islington and Waltham Forest are producing the North London Waste Plan. The Waste Plan will set out suitable sites for management of all North London's waste for the next 15 years along with a set of waste policies. Upon adoption it will form part of Barnet's Local Plan.

The Council, as a waste planning authority, is required to produce a plan that identifies adequate land for waste use.

Conformity with the European Union Waste Framework Directive is a key driver for producing this Plan and avoiding financial penalties passed down via the Government.

The Waste Plan is separate from the North London Waste Strategy. The Strategy focuses on commercial and operational issues as well as procurement. The Waste Plan must complement the NLWA Waste Strategy in order to plan for appropriate waste and recycling sites for future provision.

The Council is bound by the North London Waste Plan Memorandum of Understanding. This was agreed by Council on 7 November 2006 (agenda item 13.2). The Memorandum included a commitment for each North London borough to be represented at the Planning Members Group.

Planning Members Group oversees the plan preparation process, meeting at key decision points to ensure that the Waste Plan has the support of Boroughs.

**RECOMMEND - That the Council make an appointment to fill the vacancy listed in the schedule attached.**

#### (ii) NORTH LONDON WASTE AUTHORITY

A vacancy has arisen on the North London Waste Authority following the resignation of Councillor Brian Salinger.

**RECOMMEND - That the Council make an appointment to fill the vacancy listed in the schedule attached.**
