Summary

This report for the Health Overview and Scrutiny Committee summarises the progress that has been made by local partners to improve the health and well-being of Barnet's population in the past 12 months, in line with the objectives and targets set out in the Health and Well-Being Strategy (2012-15).

Recommendations

1. That the Health Overview and Scrutiny Committee notes the second annual Health and Well-being Strategy performance report, the progress that has been made so far to meet the Strategy's objectives and the priorities agreed by Health and Wellbeing Partners for the year ahead.
2. That the Health Overview and Scrutiny Committee identify areas covered in the report that it wishes to discuss further with a view to developing an action plan in respect of those matters as it considers appropriate.

1. WHY THIS REPORT IS NEEDED

- 1.1 Barnet's Health and Well-Being Strategy was launched in October 2012. The Strategy sets out how Barnet's services will work together to address the most

pressing health and well-being needs within the Borough. It was published following thorough consultation with local stakeholders about the health and well-being issues that need to be addressed in order to support Barnet's residents to keep well and keep independent.

- 1.2 The four chapters of the Strategy- Preparing for a Healthy Life, Well-Being in the Community, How we Live, and Care when Needed- set out the provision that needs to be in place to make sure people can keep well and independent, and explains what difference this should make to people's health. Each chapter contains a series of commitments and targets that will help the Health and Well-Being Board know how these plans are progressing, and how much impact these changes are having on people's lives. The performance targets set a clear direction of travel for all agencies in the Borough focused on delivering health and well-being objectives.
- 1.3 Progress that has been made by local partners to improve the health and well-being of Barnet's population over the past 12 months was reported to the Health and Wellbeing Board on 13th November 2014 along with proposed priorities for the year ahead..
- 1.4 The priority areas for Year 3 are:

Preparing for a Healthy Life

1. That the Health and Well-Being Board will continue to work with NHS England to address the pre-school immunisations data issues they have identified so that the local area can be assured that immunisation rates are being increased.
2. The Health and Well-Being Board will continue to provide on-going strategic multiagency leadership and ensures a robust safeguarding arrangements to the two forthcoming transformation programmes in response to legislative changes that affect children and young people- namely the development of a new model for health visiting and school nursing services for 2015-16; and the development of a single, simpler 0-25 assessment process and Education, Health and Care Plans for children with special educational needs and disabilities from 2014.

Well Being in the Community

3. The Health and Well-Being Board will continue to work collectively and promote early intervention and prevention of mental health problems for children, working aged adults and older people and ensure robust local service provision.
4. The Health and Well-Being Board will continues to promote models that limit social isolation, in partnership with Older Adult's Partnership Board and Barnet Older Adults Assembly.

5. The Health and Well-Being Board will provide a specific focus to the solutions that will most effectively reduce level of excess cold hazards in elderly peoples' homes.

How we live

6. The Health and Well-Being Board will ensure for an everyday prevention approach, which is essential in all services, making use of Making Every Contact Count. This is an approach that considers lifestyles and wider determinants of health e.g. education, housing, the environment. All partner organisations should ensure that their contracts require providers to use every opportunity to deliver brief advice to improve health and wellbeing whether in health, social care or wider services. Priorities for brief advice are smoking, alcohol, diet and physical activity although advice should be tailored to the needs of the individual.
7. The Health and Well-Being Board will ensure coordination of activities across partners to tackle increasing and higher risk drinking in the Borough, considering the various local levers it has at its disposal to affect change.
8. The Health and Well-Being Board will continue to work with NHS England to address screening uptake in the Borough, to ensure that national targets are not only met.

Care when needed

9. The Health and Well-Being Board will ensure implementation of the integrated care proposals, that will support Barnet's frail elderly residents and those with long-term conditions to maintain independence in their own homes for as long as possible.
10. The Health and Well-Being Board will ensure oversight and endorsement of the work taking place locally to develop self-care initiatives that will help residents maintain their independence (including telecare) and to support the Borough's many carers to maintain their own health and well-being as well as that of the people they care for.
