

**Location**                                **9 Leaside Crescent London NW11 0DA**

**Reference:**                            **14/08086/FUL**                                Received: 19th December 2014  
Accepted: 19th December 2014

Ward:                                        Golders Green                                        Expiry 13th February 2015

Applicant:                                 Mr Soul Benjamin

Proposal:                                  Rear and side dormer and 7 no. rooflights to facilitate loft extension and conversion into a self contained flat

**Recommendation:** Approve subject to conditions

- 1     The development hereby permitted shall be carried out in accordance with the following approved plans: Site plan; HD821/1000; HD821/1001; HD821/1002; HD821/1003.

Reason: For the avoidance of doubt and in the interests of proper planning and so as to ensure that the development is carried out fully in accordance with the plans as assessed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy DPD (adopted September 2012) and Policy DM01 of the Local Plan Development Management Policies DPD (adopted September 2012).

- 2     This development must be begun within three years from the date of this permission.

Reason: To comply with Section 51 of the Planning and Compulsory Purchase Act 2004.

- 3     The materials to be used in the external surfaces of the building(s) shall match those used in the existing building(s).

Reason: To safeguard the visual amenities of the building and surrounding area in accordance with Policy DM01 of the Development Management Policies DPD (adopted September 2012) and Policies CS NPPF and CS1 of the Local Plan Core Strategy (adopted September 2012).

- 4     Before the building hereby permitted is first occupied the proposed window(s) in the side elevation facing 7 Leaside Crescent shall be glazed with obscure glass only and shall be permanently retained as such thereafter and shall be permanently fixed shut with only a fanlight opening.

Reason: To safeguard the privacy and amenities of occupiers of adjoining residential properties in accordance with Policy DM01 of the Development Management Policies DPD (adopted September 2012) and the Residential Design Guidance SPD (adopted April 2013).

- 5 Prior to the first occupation of the units, copies of Pre-completion Sound Insulation Test Certificates shall be submitted to the Local Planning Authority, confirming compliance with Requirement E of the Building Regulations 2010 (or any subsequent amendment in force at the time of implementation of the permission).

Reason: To protect the amenities of future and neighbouring residential occupiers in accordance with Policies DM02 and DM04 of the Development Management Policies DPD (adopted September 2012) and the Sustainable Design and Construction SPD (adopted April 2013).

### **Informative(s):**

- 1 In accordance with paragraphs 186 and 187 of the NPPF, the Local Planning Authority (LPA) takes a positive and proactive approach to development proposals, focused on solutions. The LPA has produced planning policies and written guidance to assist applicants when submitting applications. These are all available on the Council's website. A pre-application advice service is also offered. The LPA has negotiated with the applicant/agent where necessary during the application process to ensure that the proposed development is in accordance with the Development Plan.
- 2 The Community Infrastructure Levy (CIL) applies to all 'chargeable development'. This is defined as development of one or more additional units, and / or an increase to existing floor space of more than 100 sq m. Details of how the calculations work are provided in guidance documents on the Planning Portal at [www.planningportal.gov.uk/cil](http://www.planningportal.gov.uk/cil).

The Mayor of London adopted a CIL charge on 1st April 2012 setting a rate of £35 per sq m on all forms of development in Barnet except for education and health developments which are exempt from this charge. Your planning application has been assessed at this time as liable for a £5679.64 payment under Mayoral CIL.

The London Borough of Barnet adopted a CIL charge on 1st May 2013 setting a rate of £135 per sq m on residential and retail development in its area of authority. All other uses and ancillary car parking are exempt from this charge. Your planning application has therefore been assessed at this time as liable for a £1472.50 payment under Barnet CIL.

Please note that Indexation will be added in line with Regulation 40 of Community Infrastructure Levy.

Liability for CIL will be recorded to the register of Local Land Charges as a legal charge upon your site payable should you commence development. Receipts of the Mayoral CIL charge are collected by the London Borough of Barnet on behalf of the Mayor of London; receipts are passed across to Transport for London to support Crossrail, London's highest infrastructure priority.

You will be sent a 'Liability Notice' that provides full details of the charge and to whom it has been apportioned for payment. If you wish to identify named parties other than the applicant for this permission as the liable party for paying this levy, please submit to the Council an 'Assumption of Liability' notice, which is also available from the Planning Portal website.

The CIL becomes payable upon commencement of development. You are required to submit a 'Notice of Commencement' to the Council's CIL Team prior to commencing on site, and failure to provide such information at the due date will incur both surcharges and penalty interest. There are various other charges and surcharges that may apply if you fail to meet other statutory requirements relating to CIL, such requirements will all be set out in the Liability Notice you will receive. You may wish to seek professional planning advice to ensure that you comply fully with the requirements of CIL Regulations.

If you have a specific question or matter you need to discuss with the CIL team, or you fail to receive a 'Liability Notice' from the Council within 1 month of this grant of planning permission, please email us at: [cil@barnet.gov.uk](mailto:cil@barnet.gov.uk).

#### Relief or Exemption from CIL:

If social housing or charitable relief applies to your development or your development falls within one of the following categories then this may reduce the final amount you are required to pay; such relief must be applied for prior to commencement of development using the 'Claiming Exemption or Relief' form available from the Planning Portal website: [www.planningportal.gov.uk/cil](http://www.planningportal.gov.uk/cil).

You can apply for relief or exemption under the following categories:

1. Charity: If you are a charity, intend to use the development for social housing or feel that there are exception circumstances affecting your development, you may be eligible for a reduction (partial or entire) in this CIL Liability. Please see the documentation published by the Department for Communities and Local Government at [https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/6314/19021101.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/6314/19021101.pdf)

2. Residential Annexes or Extensions: You can apply for exemption or relief to the collecting authority in accordance with Regulation 42(B) of Community Infrastructure Levy Regulations (2010), as amended before commencement of the chargeable development.

3. Self Build: Application can be made to the collecting authority provided you comply with the regulation as detailed in the [legislation.gov.uk](http://legislation.gov.uk)

Please visit <http://www.planningportal.gov.uk/planning/applications/howtoapply/whattosubmit/cil> for further details on exemption and relief.

- 3 Thames Water will aim to provide customers with a minimum pressure of 10m head (approx 1 bar) and a flow rate of 9 litres/minute at the point where it leaves Thames Waters pipes. The developer should take account of this minimum pressure in the design of the proposed development.

## **Officer's Assessment**

### **1. Site Description**

The application property is a semi detached property located in the Golders Green ward. The property has previously been converted into self contained flats.

### **2. Site History**

C09110 - Continued use as two self contained flats. 1 vehicular space and access. Approved subject to conditions 30/07/1986.

### **3. Proposal**

The application relates to the construction of a rear dormer window and side dormer window to facilitate the use of the loft space as a self contained residential unit.

### **4. Public Consultation**

Consultation letters were sent to 115 neighbouring properties.

3 responses have been received, comprising 3 letters of objection, 0 letters of support and 0 letters of comment.

Two letters were signed by two people and as such the total number of objections is counted as five.

The objections received can be summarised as follows:

- Loss of sunlight and daylight.
- Combined impact of conversion of 9 and 13-19 Leaside Crescent on surrounding area.
- Lack of parking.
- Particularly difficult to park considering local shoppers and shopkeepers park in the area.
- Overlooking and loss of privacy.
- Increased noise and disturbance.
- Scale, appearance and flats out of character.
- Inappropriate use for the area.
- Refuse will look unsightly.

### **5. Planning Considerations**

#### **5.1 Policy Context**

##### National Planning Policy Framework and National Planning Practice Guidance

The determination of planning applications is made mindful of Central Government advice and the Local Plan for the area. It is recognised that Local Planning Authorities must determine applications in accordance with the statutory Development Plan, unless material considerations indicate otherwise, and that the planning system does not exist to protect the private interests of one person against another.

The National Planning Policy Framework (NPPF) was published on 27 March 2012. This is a key part of the Governments reforms to make the planning system less complex and more accessible, and to promote sustainable growth.

The NPPF states that 'good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people'. The NPPF retains a presumption in favour of sustainable development. This applies unless any adverse impacts of a development would 'significantly and demonstrably' outweigh the benefits.

#### The Mayor's London Plan July 2011

The London Development Plan is the overall strategic plan for London, and it sets out a fully integrated economic, environmental, transport and social framework for the development of the capital to 2031. It forms part of the development plan for Greater London and is recognised in the NPPF as part of the development plan.

The London Plan provides a unified framework for strategies that are designed to ensure that all Londoners benefit from sustainable improvements to their quality of life.

#### Barnet's Local Plan (2012)

Barnet's Local Plan is made up of a suite of documents including the Core Strategy and Development Management Policies Development Plan Documents. Both were adopted in September 2012.

- Relevant Core Strategy Policies: CS NPPF, CS1, CS5.
- Relevant Development Management Policies: DM01, DM02.

The Council's approach to development as set out in Policy DM01 is to minimise the impact on the local environment and to ensure that occupiers of new developments as well as neighbouring occupiers enjoy a high standard of amenity. Policy DM01 states that all development should represent high quality design and should be designed to allow for adequate daylight, sunlight, privacy and outlook for adjoining occupiers. Policy DM02 states that where appropriate, development will be expected to demonstrate compliance to minimum amenity standards and make a positive contribution to the Borough. The development standards set out in Policy DM02 are regarded as key for Barnet to deliver the highest standards of urban design.

#### Supplementary Planning Documents

Sustainable Design and Construction SPD (adopted April 2013)

- Provides detailed guidance that supplements policies in the adopted Local Plan, and sets out how sustainable development will be delivered in Barnet.

### **5.2 Main issues for consideration**

The main issues for consideration in this case are:

- Whether harm would be caused to the character and appearance of the existing building, the street scene and the wider locality;
- Whether harm would be caused to the living conditions of neighbouring residents.

### **5.3 Assessment of proposals**

The principle of the proposed development

The principle of flats has already been established at the property with the lower floors being occupied as self contained units. The continued use of the property as two self contained flats was approved in 1986. There is an established second entrance to the building on the side elevation of the property. This entrance will be utilised for the new second floor flat.

The 2012 National Planning Policy Framework states that 'the Government attaches great importance to the design of the built environment. Good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people'.

In addition to the NPPF, Policy CS5 of the Core Strategy states that the Council 'will ensure that development in Barnet respects local context and distinctive local character creating places and buildings of high quality design'. In addition to this, Policy DM01 of the Council's Development Management Policies 2012 states that 'development proposals should preserve or enhance local character and respect the appearance, scale, mass, height and pattern of surrounding buildings, spaces and streets' development (should) demonstrate a good understanding of the local characteristics of an area. Proposals which are out of keeping with the character of an area will be refused'.

The proposed extensions to the roofspace are considered to be acceptable. The windows in the side dormer will be conditioned to be obscure glazed to prevent any potential for overlooking or loss of privacy. The windows serve the bathroom and staircase and as such it is not considered to be detrimental to future occupiers of the flat for these to be obscure glazed.

The impact on the amenity of future and neighbouring residents

Policy DM01 of the Development Management Policies 2012 states that all development should represent high quality design and should be designed to allow for adequate daylight, sunlight, privacy and outlook for adjoining occupiers.

Section 8.4 of Barnet's Local Plan SPD: residential design guidance states: "in designing high quality amenity space, consideration should be given to privacy, outlook, sunlight, trees and planting, materials (including paving), lighting and boundary treatment. All dwellings should have access to outdoor amenity space that is not overlooked from the public realm and provides reasonable level of privacy". In addition to this, section 2.4 of the SPD for sustainable design and construction states that "the impact of development on the availability of daylight / sunlight and privacy to the occupants of existing buildings and the occupants of new development is strongly influenced by design and contributes significantly to the quality of life. The amount of daylight available in buildings enhances people's quality of life and reduces energy use. The Mayor's Housing SPG standard 5.5.2 recommends that development should preferably have direct sunlight in living areas and kitchen dining spaces and all homes should provide for direct sunlight to enter at least one habitable room for part of the day. Overheating should be considered when designing for sunlight".

The proposed flat meets the minimum space standards as set out in the London Plan and would provide sufficient outlook and access to light for habitable rooms. It is also considered that the proposed flats would have access to sufficient amenity space with access to the rear garden from the side passage of the property.

In terms of noise it is not considered that the proposal will give rise to significant comings and goings in close proximity to surrounding residential occupiers to an unacceptable degree. Given the property's location it is not sited immediately adjacent to neighbouring buildings.

By virtue of its scale, siting and design it is considered that the proposed dormers would not impact adversely on any neighbouring properties access to light or have an overbearing impact on neighbouring properties to an extent that would warrant the refusal of the application on these grounds. Furthermore, it is considered that the proposed fenestration would not result in any direct overlooking to the neighbouring properties to an extent that would warrant the refusal of the application on these grounds.

The proposal for only 1 studio flat at this location without off street parking provision is considered acceptable on highways grounds as it is not expected to result in detrimental impact on the public highway.

#### **5.4 Response to Public Consultation**

It should be noted that the property is already in use as flats and as such it is considered that the addition of a further flat would not be out of character.

Conditions will be used to ensure that there is no overlooking or loss of privacy as a result of the proposed windows in the roof level.

Details of the refuse enclosure will be secured by condition.

The traffic and development team have reviewed the proposal and consider the proposal acceptable on highways grounds.

#### **6. Equality and Diversity Issues**

The proposal does not conflict with either Barnet Council's Equalities Policy or the commitments set in the Equality Scheme and supports the Council in meeting its statutory equality responsibilities.

#### **7. Conclusion**

The proposal is considered to accord with the requirements of the Development Plan and is therefore recommended for approval.
