Location	60 Uphill Road London NW7 4PU	
Reference:	15/04704/FUL	Received: 27th July 2015 Accepted: 28th July 2015
Ward:	Mill Hill	Expiry 22nd September 2015
Applicant:	Mr S NOVAK	
Proposal:	Demolition of existing dwelling a	and erection of 2 no. three storey dwellings

Recommendation: Approve subject to conditions

1 The development hereby permitted shall be carried out in accordance with the following approved plans: Drawing No. 421514-8, 9, 10, 11 and 12.

Reason: For the avoidance of doubt and in the interests of proper planning and so as to ensure that the development is carried out fully in accordance with the plans as assessed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy DPD (adopted September 2012) and Policy DM01 of the Local Plan Development Management Policies DPD (adopted September 2012).

2 This development must be begun within three years from the date of this permission.

Reason: To comply with Section 51 of the Planning and Compulsory Purchase Act 2004.

a) No development other than demolition works shall take place until details of the materials to be used for the external surfaces of the building(s) and hard surfaced areas hereby approved have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall thereafter be implemented in accordance with the materials as approved under this condition.

Reason: To safeguard the character and visual amenities of the site and wider area and to ensure that the building is constructed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy (adopted September 2012), Policy DM01 of the Development Management Policies DPD (adopted September 2012) and Policies 1.1, 7.4, 7.5 and 7.6 of the London Plan 2011.

4 a) No development shall take place until details of the levels of the building(s), road(s) and footpath(s) in relation to the adjoining land and highway(s) and any

other changes proposed in the levels of the site have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall thereafter be implemented in accordance with the details as approved under this condition and retained as such thereafter.

Reason: To ensure that the development is carried out at suitable levels in relation to the highway and adjoining land having regard to drainage, gradient of access, the safety and amenities of users of the site, the amenities of the area and the health of any trees or vegetation in accordance with policies CS NPPF, CS1, CS5 and CS7 of the Local Plan Core Strategy (adopted September 2012), Policies DM01, DM04 and DM17 of the Development Management Policies DPD (adopted September 2012), and Policies 7.4, 7.5, 7.6 and 7.21 of the London Plan 2011.

5 a) No development or site works shall take place on site until a 'Demolition & Construction Method Statement' has been submitted to and approved in writing by, the Local Planning Authority.

The Statement shall provide for: access to the site; the parking of vehicles for site operatives and visitors; hours of construction, including deliveries, loading and unloading of plant and materials; the storage of plant and materials used in the construction of the development; the erection of any means of temporary enclosure or security hoarding and measures to prevent mud and debris being carried on to the public highway and ways to minimise pollution.

b) The development shall thereafter be implemented in accordance with the measures detailed within the statement.

Reason: In the interests of highway safety and good air quality in accordance with Policies DM04 and DM17 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted April 2013) and Policy 5.21 of the London Plan (2011).

6 a) A scheme of hard and soft landscaping, including details of existing trees to be retained and size, species, planting heights, densities and positions of any soft landscaping, shall be submitted to and agreed in writing by the Local Planning Authority before the development hereby permitted is commenced.

b) All work comprised in the approved scheme of landscaping shall be carried out before the end of the first planting and seeding season following occupation of any part of the buildings or completion of the development, whichever is sooner, or commencement of the use.

c) Any existing tree shown to be retained or trees or shrubs to be planted as part of the approved landscaping scheme which are removed, die, become severely damaged or diseased within five years of the completion of development shall be replaced with trees or shrubs of appropriate size and species in the next planting season.

Reason: To ensure a satisfactory appearance to the development in accordance with Policies CS5 and CS7 of the Local Plan Core Strategy DPD (adopted September 2012), Policy DM01 of the Development Management Policies DPD

(adopted September 2012), the Sustainable Design and Construction SPD (adopted April 2013) and 7.21 of the London Plan 2011.

a) No development shall take place until details of the location, extent and depth of all excavations for services (including but not limited to electricity, gas, water, drainage and telecommunications) in relation to trees on and adjacent to the site have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall thereafter be implemented in accordance with details approved under this condition.

Reason: To safeguard the health of existing tree(s) which represent an important amenity feature in accordance with CS5 and CS7 of the Local Plan Core Strategy (adopted September 2012), Policy DM01 of the Development Management Policies DPD (adopted September 2012) and Policy 7.21 of the London Plan 2011).

8 a) No site works or development (including any temporary enabling works, site clearance and demolition) shall take place until a dimensioned tree protection plan in accordance with Section 5.5 and a method statement detailing precautions to minimise damage to trees in accordance with Section 6.1 of British Standard BS5837: 2012 (Trees in relation to design, demolition and construction - Recommendations) have been submitted to and approved in writing by the Local Planning Authority.

b) No site works (including any temporary enabling works, site clearance and demolition) or development shall take place until the temporary tree protection shown on the tree protection plan approved under this condition has been erected around existing trees on site. This protection shall remain in position until after the development works are completed and no material or soil shall be stored within these fenced areas at any time. The development shall be implemented in accordance with the protection plan and method statement as approved under this condition.

Reason: To safeguard the health of existing trees which represent an important amenity feature in accordance with Policy DM01 of the Development Management Policies DPD (adopted September 2012), Policies CS5 and CS7 of the Local Plan Core Strategy DPD (adopted September 2012) and Policy 7.21 of the London Plan 2011.

9 Before the buildings hereby permitted are first occupied the proposed window(s) in the flank elevations shall be glazed with obscure glass only and shall be permanently retained as such thereafter and shall be permanently fixed shut with only a fanlight opening.

Reason: To safeguard the privacy and amenities of occupiers of adjoining residential properties in accordance with Policy DM01 of the Development Management Policies DPD (adopted September 2012) and the Residential Design Guidance SPD (adopted April 2013).

10 a) The site shall not be brought into use or first occupied until details of the means of enclosure, including boundary treatments, have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall be implemented in accordance with the details approved as part of this condition before first occupation or the use is commenced and retained as such thereafter.

Reason: To ensure that the proposed development does not prejudice the appearance of the locality and/or the amenities of occupiers of adjoining residential properties and to confine access to the permitted points in the interest of the flow of traffic and conditions of general safety on the adjoining highway in accordance with Policies DM01, DM03, DM17 of the Development Management Policies DPD (adopted September 2012), and Policies CS NPPF and CS1 of the Local Plan Core Strategy (adopted September 2012).

11 Prior to the first occupation of the new dwellinghouses (Use Class C3) hereby approved they shall all have been constructed to meet and achieve all the relevant criteria of 'The Lifetime Homes' standard (or the equivalent standard in such measure of accessibility and adaptability for house design which may replace that scheme in future). The development shall be maintained as such in perpetuity thereafter.

#### Reason:

To ensure the development meets the needs of its future occupiers and to comply with the requirements of policies 3.8 and 7.2 of the London Plan (2015) and policy DM02 of the Barnet Development Management Polices document (2012).

12 Prior to the first occupation of the new dwellinghouses (Use Class C3) hereby approved they shall all have been constructed to have 100% of the water supplied to them by the mains water infrastructure provided through a water meter or water meters and each new dwelling shall be constructed to include water saving and efficiency measures so that mains water consumption would meet a standard of 105 per head per day or less. The development shall be maintained as such in perpetuity thereafter.

## Reason:

To encourage the efficient use of water in accordance with policy CS13 of the Barnet Core Strategy (2012) and policy 5.15 of the London Plan (2015).

13 Prior to the first occupation, the development hereby approved shall be constructed incorporating carbon dioxide emission reduction measures which achieve an improvement of not less than 25% in carbon dioxide emissions when compared to a building constructed to comply with the minimum Target Emission Rate requirements of the 2010 Building Regulations. The development shall be maintained as such in perpetuity thereafter.

#### Reason:

To ensure that the development is sustainable and minimises carbon dioxide emissions and to comply with the requirements of policies DM01 and DM02 of the Barnet Development Management Polices document (2012) and policies 5.2 and 5.3 of the London Plan (2015).

14 A vehicular sight line of 4.5 metres by 43 metres shall be provided to the either side of the site access with the Public highway, prior to the commencement of any other works on site, and thereafter be maintained free of all obstructions over a height of 0.6 metre above the level of the adjoining highway. Reason: In the interests of highway and pedestrian safety in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (Adopted) September 2012 and Policy DM17 of Development Management Policies (Adopted) September 2012.

#### Informative(s):

- 1 In accordance with paragraphs 186 and 187 of the NPPF, the Local Planning Authority (LPA) takes a positive and proactive approach to development proposals, focused on solutions. The LPA has produced planning policies and written guidance to assist applicants when submitting applications. These are all available on the Council's website. A pre-application advice service is also offered and the Applicant engaged with this prior to the submissions of this application. The LPA has negotiated with the applicant/agent where necessary during the application process to ensure that the proposed development is in accordance with the Development Plan.
- 2 The Community Infrastructure Levy (CIL) applies to all 'chargeable development'. This is defined as development of one or more additional units, and / or an increase to existing floor space of more than 100 sq m. Details of how the calculations work are provided in guidance documents on the Planning Portal at www.planningportal.gov.uk/cil.

The Mayor of London adopted a CIL charge on 1st April 2012 setting a rate of £35 per sq m on all forms of development in Barnet except for education and health developments which are exempt from this charge. Your planning application has been assessed at this time as liable for a  $\pounds$  payment under Mayoral CIL.

The London Borough of Barnet adopted a CIL charge on 1st May 2013 setting a rate of £135 per sq m on residential and retail development in its area of authority. All other uses and ancillary car parking are exempt from this charge. Your planning application has therefore been assessed at this time as liable for a £\_\_\_ payment under Barnet CIL.

Please note that Indexation will be added in line with Regulation 40 of Community Infrastructure Levy.

Liability for CIL will be recorded to the register of Local Land Charges as a legal charge upon your site payable should you commence development. Receipts of the Mayoral CIL charge are collected by the London Borough of Barnet on behalf of the Mayor of London; receipts are passed across to Transport for London to support Crossrail, London's highest infrastructure priority.

You will be sent a 'Liability Notice' that provides full details of the charge and to whom it has been apportioned for payment. If you wish to identify named parties other than the applicant for this permission as the liable party for paying this levy, please submit to the Council an 'Assumption of Liability' notice, which is also available from the Planning Portal website.

The CIL becomes payable upon commencement of development. You are required to submit a 'Notice of Commencement' to the Council's CIL Team prior to commencing on site, and failure to provide such information at the due date will incur both surcharges and penalty interest. There are various other charges and surcharges that may apply if you fail to meet other statutory requirements relating to CIL, such requirements will all be set out in the Liability Notice you will receive. You may wish to seek professional planning advice to ensure that you comply fully with the requirements of CIL Regulations.

If you have a specific question or matter you need to discuss with the CIL team, or you fail to receive a 'Liability Notice' from the Council within 1 month of this grant of planning permission, please email us at: cil@barnet.gov.uk.

Relief or Exemption from CIL:

If social housing or charitable relief applies to your development or your development falls within one of the following categories then this may reduce the final amount you are required to pay; such relief must be applied for prior to commencement of development using the 'Claiming Exemption or Relief' form available from the Planning Portal website: www.planningportal.gov.uk/cil.

You can apply for relief or exemption under the following categories:

1. Charity: If you are a charity, intend to use the development for social housing or feel that there are exception circumstances affecting your development, you may be eligible for a reduction (partial or entire) in this CIL Liability. Please see the documentation published by the Department for Communities and Local Government

https://www.gov.uk/government/uploads/system/uploads/attachment\_data/file/6314/ 19021101.pdf

2. Residential Annexes or Extensions: You can apply for exemption or relief to the collecting authority in accordance with Regulation 42(B) of Community Infrastructure Levy Regulations (2010), as amended before commencement of the chargeable development.

3. Self Build: Application can be made to the collecting authority provided you comply with the regulation as detailed in the legislation.gov.uk

#### Please

# **Officer's Assessment**

# 1. Site Description

The application site is on Uphill Road, opposite the junction with Green Avenue. The site contains a two storey building.

The subject site is surrounded by a mixture of two storey buildings that comprise houses and flats. The character of the street is not outstanding in itself containing a varied architectural vernacular.

## 2. Site History

Reference: 15/00023/FUL Address: 60 Uphill Road, London, NW7 4PU Decision: Refused Decision Date: 2 March 2015 Description: Construction of two detached houses following demolition of existing house

# 3. Proposal

Construction of two detached houses following demolition of existing house.

## 4. Public Consultation

Consultation letters were sent to 26 neighbouring properties. 5 responses have been received, comprising 5 letters of objection.

The objections received can be summarised as follows:

- Highway safety
- The scale and design of the buildings is not in keeping with the surrounding area.
- Drainage issues and flooding
- Loss of trees.
- The balconies will result in overlooking.
- Overdevelopment of the site.

Internal Consultation:

Highways and Traffic - No objection subject to conditions.

## 5. Planning Considerations

## 5.1 Policy Context

National Planning Policy Framework and National Planning Practice Guidance

The determination of planning applications is made mindful of Central Government advice and the Local Plan for the area. It is recognised that Local Planning Authorities must determine applications in accordance with the statutory Development Plan, unless material considerations indicate otherwise, and that the planning system does not exist to protect the private interests of one person against another. The National Planning Policy Framework (NPPF) was published on 27 March 2012. This is a key part of the Governments reforms to make the planning system less complex and more accessible, and to promote sustainable growth.

The NPPF states that 'good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people'. The NPPF retains a presumption in favour of sustainable development. This applies unless any adverse impacts of a development would 'significantly and demonstrably' outweigh the benefits.

#### The Mayor's London Plan 2015

The London Development Plan is the overall strategic plan for London, and it sets out a fully integrated economic, environmental, transport and social framework for the development of the capital to 2050. It forms part of the development plan for Greater London and is recognised in the NPPF as part of the development plan.

The London Plan provides a unified framework for strategies that are designed to ensure that all Londoners benefit from sustainable improvements to their quality of life.

## Barnet's Local Plan (2012)

Barnet's Local Plan is made up of a suite of documents including the Core Strategy and Development Management Policies Development Plan Documents. Both were adopted in September 2012.

- Relevant Core Strategy Policies: CS NPPF, CS1, CS5.

- Relevant Development Management Policies: DM01, DM02, DM08, DM17.

The Council's approach to development as set out in Policy DM01 is to minimise the impact on the local environment and to ensure that occupiers of new developments as well as neighbouring occupiers enjoy a high standard of amenity. Policy DM01 states that all development should represent high quality design and should be designed to allow for adequate daylight, sunlight, privacy and outlook for adjoining occupiers. Policy DM02 states that where appropriate, development will be expected to demonstrate compliance to minimum amenity standards and make a positive contribution to the Borough. The development standards set out in Policy DM02 are regarded as key for Barnet to deliver the highest standards of urban design.

#### Supplementary Planning Documents

Sustainable Design and Construction SPD (adopted April 2013)

- Provides detailed guidance that supplements policies in the adopted Local Plan, and sets out how sustainable development will be delivered in Barnet.

## 5.2 Main issues for consideration

The main issues for consideration in this case are:

- Whether harm would be caused to the character and appearance of the street scene and the wider locality;

- Whether harm would be caused to the living conditions of neighbouring residents.

## 5.3 Assessment of proposals

It is noted that a previous application for the demolition of the existing dwelling and the construction of 2 no. dwellings was refused under application 15/00023/FUL, dated 02/03/2015. The reason for refusal included that 'the proposed replacement dwellings, by reason of their design, bulk, siting, mass and scale would result in a cramped, overly

prominent form of development and would constitute an overdevelopment of the site. They would not preserve or enhance the character or appearance of the area and would be detrimental to the character and appearance of the streetscene and the locality.' The changes from the previously refused application include the following:

- A reduction in width of the proposed new dwellings.
- Increase in the depth of the proposed new dwellings.
- The proposed new dwellings now include basement areas.

As part of this submission the proposed new dwellings have been reduced in width, and now each dwelling provides a gap of at least 2 metres to their respective side boundaries to No. 64 and No. 56 Uphill Road. There is also now a minimum gap of 4 metres between the two proposed new dwellings. As such, it is now considered that the proposed new dwellings would not appear as cramped within the plot and would now sit comfortably within the site. It is noted that the depth of the buildings have increased since the previous application and would project closer to the main road by approximately 0.7 metres in the case of plot 1 and 0.4 metres in the case of plot 2. However, it is considered that the reduction in the width of the two dwellings overcomes the concerns of the visual prominence the proposed new dwellings would have on the character and appearance of the streetscene. In addition, it is noted that the design of the proposed dwellings has not significantly altered since the previously refused application and would not entirely reflect the design of the surrounding dwellings. However, as stated in the previous application, the street benefits from a varied architectural vernacular, and the design of the proposed buildings is no longer considered to be a justifiable reason for refusal in itself, given that the proposed buildings are now considered to relate sympathetically in size and siting in relation to surrounding properties and sit comfortably within the site.

The basement areas would be located directly beneath the proposed footprint of the dwellings and would not be visually apparent when viewed from the street or any neighbouring property. Given that the proposed basements would be located directly under the proposed dwellings and that the area is not located within a flood risk zone, it is not considered that the proposal would result in significant drainage issues or a substantial increase in flooding within the area or to neighbouring properties.

The proposed rear balcony areas, given the orientation of the proposed new dwellings, would face away from existing neighbouring properties. As such, it is not considered that the proposal would result in overlooking and loss of privacy to existing neighbouring occupiers. The splayed orientation of the proposed balcony areas would however afford views into the rear garden areas of each opposite new dwelling. However, given the separation between the proposed dwellings, would only allow minimal views and is not considered to result in overlooking and loss of privacy over and above what would normally be considered acceptable.

The proposed units would each be dual aspect and would each have sufficient overall floor area and bedroom sizes to comply with the relevant minimum requirements. Adequate outdoor amenity space would be provided to comply with the relevant standards. As such, it is considered that the proposed units would provide a satisfactory quality of accommodation for future occupants.

No issues were raised during the previous application with regards to the loss of Trees. Although, the proposal would be increasing minimally in depth, closer to protected trees, it is not considered that, subject to tree protection conditions, that the proposal would result in the loss of trees of special amenity value.

# 5.4 Response to Public Consultation

Mainly addressed in appraisal above.

The Council's Highways department have no objection to the scheme subject to conditions relating to sight lines for the proposed new access.

## 6. Equality and Diversity Issues

The proposal does not conflict with either Barnet Council's Equalities Policy or the commitments set in the Equality Scheme and supports the Council in meeting its statutory equality responsibilities.

## 7. Conclusion

The proposal is considered to accord with the requirements of the Development Plan and is therefore recommended for approval.
