

**Location**                      **124 Friern Park London N12 9LN**

**Reference:**                      **15/06884/FUL**                      Received: 10th November 2015  
Accepted: 11th November 2015

Ward:                              Woodhouse                              Expiry 6th January 2016

Applicant:                      Mr Y. Shahar

Proposal:                      Demolition of existing dwelling and construction of a new three storey property with 8no self-contained flats with balconies and terraces and patio. Associated parking and cycle storage, landscaping, refuse storage and amenity space

**Recommendation:** Approve subject to conditions

- 1 The development hereby permitted shall be carried out in accordance with the following approved plans:

Site Location Plan; 124FP-PP1-01 Rev B Existing Section and Site Plan Proposed Site Plan; 124FP-PP1-02 Rev D; Proposed Floor Plans; 124FP-PP1-03 Rev C Proposed Floor Plans; 124FP-PP1-04 Rev A Proposed Elevations; 124FP-PP1-05 Rev D; Proposed Sections; Design and Access Statement

Reason: For the avoidance of doubt and in the interests of proper planning and so as to ensure that the development is carried out fully in accordance with the plans as assessed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy DPD (adopted September 2012) and Policy DM01 of the Local Plan Development Management Policies DPD (adopted September 2012).

- 2 This development must be begun within three years from the date of this permission.

Reason: To comply with Section 51 of the Planning and Compulsory Purchase Act 2004.

- 3 a) No development shall take place until details of the levels of the building(s), road(s) and footpath(s) in relation to the adjoining land and highway(s) and any other changes proposed in the levels of the site have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall thereafter be implemented in accordance with the details as approved under this condition and retained as such thereafter.

Reason: To ensure that the development is carried out at suitable levels in relation to the highway and adjoining land having regard to drainage, gradient of access, the safety and amenities of users of the site, the amenities of the area and the health of any trees or vegetation in accordance with policies CS NPPF, CS1, CS5 and CS7 of the Local Plan Core Strategy (adopted September 2012), Policies DM01, DM04 and DM17 of the Development Management Policies DPD (adopted September 2012), and Policies 7.4, 7.5, 7.6 and 7.21 of the London Plan 2015.

- 4 a) No development other than demolition works shall take place until details of the materials to be used for the external surfaces of the building(s) and hard surfaced areas, as well as boundary treatments hereby approved have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall thereafter be implemented in accordance with the materials as approved under this condition.

Reason: To safeguard the character and visual amenities of the site and wider area and to ensure that the building is constructed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy (adopted September 2012), Policy DM01 of the Development Management Policies DPD (adopted September 2012) and Policies 1.1, 7.4, 7.5 and 7.6 of the London Plan 2015.

- 5 a) No development or site works shall take place on site until a 'Demolition & Construction Method Statement' has been submitted to and approved in writing by, the Local Planning Authority.

The Statement shall provide for: access to the site; the parking of vehicles for site operatives and visitors; hours of construction, including deliveries, loading and unloading of plant and materials; the storage of plant and materials used in the construction of the development; the erection of any means of temporary enclosure or security hoarding and measures to prevent mud and debris being carried on to the public highway and ways to minimise pollution.

b) The development shall thereafter be implemented in accordance with the measures detailed within the statement.

Reason: In the interests of highway safety and good air quality in accordance with Policies DM04 and DM17 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted April 2013) and Policy 5.21 of the London Plan (2015).

- 6 a) Before the development hereby permitted is first occupied, details of enclosures and screened facilities for the storage of recycling containers and wheeled refuse bins or other refuse storage containers where applicable, together with a satisfactory point of collection shall be submitted to and approved in writing by the Local Planning Authority.

b) The development shall be implemented in full accordance with the details as approved under this condition prior to the first occupation and retained as such thereafter.

Reason: To ensure a satisfactory appearance for the development and satisfactory accessibility; and to protect the amenities of the area in accordance with policies

DM01 of the Adopted Barnet Development Management Policies DPD (2012) and CS14 of the Adopted Barnet Core Strategy DPD (2012).

- 7
- a) A scheme of hard and soft landscaping, including details of existing trees to be retained and size, species, planting heights, densities and positions of any soft landscaping, shall be submitted to and agreed in writing by the Local Planning Authority before the development hereby permitted is commenced.
  - b) All work comprised in the approved scheme of landscaping shall be carried out before the end of the first planting and seeding season following occupation of any part of the buildings or completion of the development, whichever is sooner, or commencement of the use.
  - c) Any existing tree shown to be retained or trees or shrubs to be planted as part of the approved landscaping scheme which are removed, die, become severely damaged or diseased within five years of the completion of development shall be replaced with trees or shrubs of appropriate size and species in the next planting season.

Reason: To ensure a satisfactory appearance to the development in accordance with Policies CS5 and CS7 of the Local Plan Core Strategy DPD (adopted September 2012), Policy DM01 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted April 2013) and 7.21 of the London Plan 2015.

- 8
- Before the building hereby permitted is first occupied the proposed window(s) in the side elevations facing 122 and 126 Friern Park shall be glazed with obscure glass only and shall be permanently retained as such thereafter and shall be permanently fixed shut with only a fanlight opening.

Reason: To safeguard the privacy and amenities of occupiers of adjoining residential properties in accordance with Policy DM01 of the Development Management Policies DPD (adopted September 2012) and the Residential Design Guidance SPD (adopted April 2013).

- 9
- Prior to the first occupation of the units, copies of Pre-completion Sound Insulation Test Certificates shall be submitted to the Local Planning Authority, confirming compliance with Requirement E of the Building Regulations 2010 (or any subsequent amendment in force at the time of implementation of the permission).

Reason: To protect the amenities of future and neighbouring residential occupiers in accordance with Policies DM02 and DM04 of the Development Management Policies DPD (adopted September 2012) and the Sustainable Design and Construction SPD (adopted April 2013).

- 10
- a) Before the development hereby permitted is first occupied, details of privacy screens to be installed shall be submitted to and approved in writing by the Local Planning Authority.
  - b) The screens shall be installed in accordance with the details approved under this condition before first occupation or the use is commenced and retained as such thereafter.

Reason: To ensure that the development does not prejudice the amenity of future occupiers or the character of the area in accordance with policies DM01 and DM02 of the Development Management Policies DPD (adopted September 2012), the Residential Design Guidance SPD (adopted April 2013) and the Sustainable Design and Construction SPD (adopted April 2013).

- 11 The property shall be used as self-contained units as shown in the hereby approved drawings under Class C3(a) and no other purpose (including any other purpose in Class C3 or C4 of the Schedule to the Town and Country Planning (Use Classes) Order 1987, or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order, with or without modification).

Reason: To enable the Local Planning Authority to exercise control of the type of use within the category in order to safeguard the amenities of the area.

- 12 No construction work resulting from the planning permission shall be carried out on the premises at any time on Sundays, Bank or Public Holidays, before 8.00 am or after 1.00 pm on Saturdays, or before 8.00 am or after 6.00pm pm on other days.

Reason: To ensure that the proposed development does not prejudice the amenities of occupiers of adjoining residential properties in accordance with policy DM04 of the Development Management Policies DPD (adopted September 2012).

- 13 Notwithstanding the details shown in the drawings submitted and otherwise hereby approved, prior to the first occupation of the new dwellinghouse(s) (Use Class C3) permitted under this consent they shall all have been constructed to meet and achieve all the relevant criteria of Part M4(2) of Schedule 1 to the Building Regulations 2010 (or the equivalent standard in such measure of accessibility and adaptability for house design which may replace that scheme in future). The development shall be maintained as such in perpetuity thereafter.

Reason:

To ensure the development meets the needs of its future occupiers and to comply with the requirements of policies 3.8, 7.2 and 7.6 of the London Plan (2015) and policies DM02 and DM03 of the Barnet Development Management Policies document (2012).

- 14 Prior to the first occupation of the new dwellinghouses (Use Class C3) hereby approved they shall all have been constructed to have 100% of the water supplied to them by the mains water infrastructure provided through a water meter or water meters and each new dwelling shall be constructed to include water saving and efficiency measures so that mains water consumption would meet a standard of 105 per head per day or less. The development shall be maintained as such in perpetuity thereafter.

Reason:

To encourage the efficient use of water in accordance with policy CS13 of the Barnet Core Strategy (2012) and policy 5.15 of the London Plan (2015).

- 15 Prior to the first occupation of the development hereby approved it shall be constructed incorporating carbon dioxide emission reduction measures which achieve an improvement of not less than 6% in carbon dioxide emissions when compared to a building constructed to comply with the minimum Target Emission

Rate requirements of the 2010 Building Regulations. The development shall be maintained as such in perpetuity thereafter.

Reason:

To ensure that the development is sustainable and minimises carbon dioxide emissions and to comply with the requirements of policies DM01 and DM02 of the Barnet Development Management Policies document (2012) and policies 5.2 and 5.3 of the London Plan (2015).

### **Informative(s):**

- 1 In accordance with paragraphs 186 and 187 of the NPPF, the Local Planning Authority (LPA) takes a positive and proactive approach to development proposals, focused on solutions. The LPA has produced planning policies and written guidance to assist applicants when submitting applications. These are all available on the Council's website. A pre-application advice service is also offered and the Applicant engaged with this prior to the submissions of this application. The LPA has negotiated with the applicant/agent where necessary during the application process to ensure that the proposed development is in accordance with the Development Plan.
- 2 The applicant is advised that any development or conversion which necessitates the removal, changing, or creation of an address or addresses must be officially registered by the Council through the formal 'Street Naming and Numbering' process.

The London Borough of Barnet is the Street Naming and Numbering Authority and is the only organisation that can create or change addresses within its boundaries. Applications are the responsibility of the developer or householder who wish to have an address created or amended.

Occupiers of properties which have not been formally registered can face a multitude of issues such as problems with deliveries, rejection of banking / insurance applications, problems accessing key council services and most importantly delays in an emergency situation.

Further details and the application form can be downloaded from: <http://www.barnet.gov.uk/naming-and-numbering-applic-form.pdf> or requested from the Street Naming and Numbering Team via [street.naming@barnet.gov.uk](mailto:street.naming@barnet.gov.uk) or by telephoning 0208 359 7294.

- 3 The Community Infrastructure Levy (CIL) applies to all 'chargeable development'. This is defined as development of one or more additional units, and / or an increase to existing floor space of more than 100 sq m. Details of how the calculations work are provided in guidance documents on the Planning Portal at [www.planningportal.gov.uk/cil](http://www.planningportal.gov.uk/cil).

The Mayor of London adopted a CIL charge on 1st April 2012 on all forms of development in Barnet except for education and health developments which are exempt from this charge. Your planning application has been assessed at this time as liable for a £11305 payment under Mayoral CIL.

The London Borough of Barnet adopted a CIL charge on 1st May 2013 on residential and retail development in its area of authority. All other uses and ancillary car parking are exempt from this charge. Your planning application has therefore been assessed at this time as liable for a £43605 payment under Barnet CIL.

Please note that Indexation will be added in line with Regulation 40 of Community Infrastructure Levy.

Liability for CIL will be recorded to the register of Local Land Charges as a legal charge upon your site payable should you commence development. Receipts of the Mayoral CIL charge are collected by the London Borough of Barnet on behalf of the Mayor of London; receipts are passed across to Transport for London to support Crossrail, London's highest infrastructure priority.

You will be sent a 'Liability Notice' that provides full details of the charge and to whom it has been apportioned for payment. If you wish to identify named parties other than the applicant for this permission as the liable party for paying this levy, please submit to the Council an 'Assumption of Liability' notice, which is also available from the Planning Portal website.

The CIL becomes payable upon commencement of development. You are required to submit a 'Notice of Commencement' to the Council's CIL Team prior to commencing on site, and failure to provide such information at the due date will incur both surcharges and penalty interest. There are various other charges and surcharges that may apply if you fail to meet other statutory requirements relating to CIL, such requirements will all be set out in the Liability Notice you will receive. You may wish to seek professional planning advice to ensure that you comply fully with the requirements of CIL Regulations.

If you have a specific question or matter you need to discuss with the CIL team, or you fail to receive a 'Liability Notice' from the Council within 1 month of this grant of planning permission, please email us at: [cil@barnet.gov.uk](mailto:cil@barnet.gov.uk).

Relief or Exemption from CIL:

If social housing or charitable relief applies to your development or your development falls within one of the following categories then this may reduce the final amount you are required to pay; such relief must be applied for prior to commencement of development using the 'Claiming Exemption or Relief' form available from the Planning Portal website: [www.planningportal.gov.uk/cil](http://www.planningportal.gov.uk/cil).

You can apply for relief or exemption under the following categories:

1. Charity: If you are a charity, intend to use the development for social housing or feel that there are exception circumstances affecting your development, you may be eligible for a reduction (partial or entire) in this CIL Liability. Please see the documentation published by the Department for Communities and Local

Government at  
[https://www.gov.uk/government/uploads/system/uploads/attachment\\_data/file/6314/19021101.pdf](https://www.gov.uk/government/uploads/system/uploads/attachment_data/file/6314/19021101.pdf)

2. Residential Annexes or Extensions: You can apply for exemption or relief to the collecting authority in accordance with Regulation 42(B) of Community Infrastructure Levy Regulations (2010), as amended before commencement of the chargeable development.

3. Self Build: Application can be made to the collecting authority provided you comply with the regulation as detailed in the [legislation.gov.uk](http://legislation.gov.uk)

Please visit  
<http://www.planningportal.gov.uk/planning/applications/howtoapply/whattosubmit/cil>  
for further details on exemption and relief.

- 4 Applicants and agents are encouraged to sign up to the Considerate Contractors Scheme ([www.ccscheme.org.uk](http://www.ccscheme.org.uk)) whereby general standards of work are raised and the condition and safety of the Borough's streets and pavements are improved.

## **Officer's Assessment**

### **1. Site Description**

The application site consists of a detached dwelling house on the southern side of Friern Park. The street is characterised by a mixture of dwelling types and building types. Adjoining the site to the east is a two storey building which has been converted into flats. The adjoining building to the west is a newly constructed block of flats which has been built to replicate the adjoining dwelling to form a semi-detached pair. Within the street on both sides of the road are substantial purpose built flatted blocks. Architectural styles fluctuate in respect of traditional dwelling house types to rectangular flat roof blocks with large footprints.

The road slopes from west to east downhill and significantly downhill from the street frontage to the site's rear boundary with significant steps down from the ground floor level. There is a front forecourt laid to hardstanding with a garage to the eastern flank of the building. There is substantial mature planting and landscaping particularly to the side and rear gardens of the property.

The site is not in a conservation area. The site is not a listed building and the application property is not within the setting of a listed building. There are no Tree Preservation Orders affecting the site.

### **2. Site History**

Nil.

### **3. Proposal**

This application seeks consent for the demolition of existing dwelling and construction of a new three storey property with 8no self-contained flats with balconies and terraces and patio. Associated parking and cycle storage, landscaping, refuse storage and amenity space.

The scheme has been amended twice since the original submission. The final amended scheme shows a reduction in height of the overall development and it being set into the ground to further lessen the impact of the height.

The originally proposed basement parking has been omitted from the final scheme and is now provided at the rear of the site at ground level between the private garden to the ground floor unit and the communal garden at the very rear of the site.

### **4. Public Consultation**

94 consultation letters were sent to neighbouring properties.

13 responses have been received; comprising of 6 objections, 5 letters of support and 2 comments

The views of objectors can be summarised as follows;

- Destruction of historic family home
- Impact on traffic and parking
- Noise and disturbance
- Impact of terraces
- Boundary dispute
- Overbearing, bulky appearance
- Loss of light
- Impact on mature parking to rear of site
- Increased crime
- Insufficient parking
- Construction management plan needed for development
- Impact on neighbouring planting
- Details of boundary treatments needed
- Road cannot accommodate more flats
- Overdevelopment

An additional neighbour consultation was done on the final amended scheme which shows minor alterations to the design of the block and the removal of the basement car park to provide it at ground floor level, and the following responses were received;

- Insufficient parking for number of units
- Impact of construction traffic
- Noise disturbance

## **5. Planning Considerations**

### **5.1 Policy Context**

#### National Planning Policy Framework and National Planning Practice Guidance

The determination of planning applications is made mindful of Central Government advice and the Local Plan for the area. It is recognised that Local Planning Authorities must determine applications in accordance with the statutory Development Plan, unless material considerations indicate otherwise, and that the planning system does not exist to protect the private interests of one person against another.

The National Planning Policy Framework (NPPF) was published on 27 March 2012. This is a key part of the Governments reforms to make the planning system less complex and more accessible, and to promote sustainable growth.

The NPPF states that 'good design is a key aspect of sustainable development, is indivisible from good planning, and should contribute positively to making places better for people'. The NPPF retains a presumption in favour of sustainable development. This applies unless any adverse impacts of a development would 'significantly and demonstrably' outweigh the benefits.

#### The Mayor's London Plan 2015

The London Development Plan is the overall strategic plan for London, and it sets out a fully integrated economic, environmental, transport and social framework for the development of the capital to 2031. It forms part of the development plan for Greater London and is recognised in the NPPF as part of the development plan.

The London Plan provides a unified framework for strategies that are designed to ensure that all Londoners benefit from sustainable improvements to their quality of life.

### Barnet's Local Plan (2012)

Barnet's Local Plan is made up of a suite of documents including the Core Strategy and Development Management Policies Development Plan Documents. Both were adopted in September 2012.

- Relevant Core Strategy Policies: CS NPPF, CS1, CS4, CS5, CS9, CS15.
- Relevant Development Management Policies: DM01, DM02, DM03, DM04, DM08, DM17.

The Council's approach to extensions as set out in Policy DM01 is to minimise their impact on the local environment and to ensure that occupiers of new developments as well as neighbouring occupiers enjoy a high standard of amenity. Policy DM01 states that all development should represent high quality design and should be designed to allow for adequate daylight, sunlight, privacy and outlook for adjoining occupiers. Policy DM02 states that where appropriate, development will be expected to demonstrate compliance to minimum amenity standards and make a positive contribution to the Borough. The development standards set out in Policy DM02 are regarded as key for Barnet to deliver the highest standards of urban design.

### Supplementary Planning Documents

#### Residential Design Guidance SPD (adopted April 2013)

- Sets out information for applicants to help them design an extension to their property which would receive favourable consideration by the Local Planning Authority and was the subject of separate public consultation. The SPD states that large areas of Barnet are characterised by relatively low density suburban housing with an attractive mixture of terrace, semi detached and detached houses. The Council is committed to protecting, and where possible enhancing the character of the borough's residential areas and retaining an attractive street scene.
- States that extensions should normally be subordinate to the original house, respect the original building and should not be overly dominant. Extensions should normally be consistent in regard to the form, scale and architectural style of the original building which can be achieved through respecting the proportions of the existing house and using an appropriate roof form.
- In respect of amenity, states that extensions should not be overbearing or unduly obtrusive and care should be taken to ensure that they do not result in harmful loss of outlook, appear overbearing, or cause an increased sense of enclosure to adjoining properties. They should not reduce light to neighbouring windows to habitable rooms or cause significant overshadowing, and should not look out of place, overbearing or intrusive when viewed from surrounding areas.

#### Sustainable Design and Construction SPD (adopted April 2013)

- Provides detailed guidance that supplements policies in the adopted Local Plan, and sets out how sustainable development will be delivered in Barnet

## **5.2 Main issues for consideration**

The main issues for consideration in this case are:

- The acceptability of the proposed new self-contained units
- Whether harm would be caused to the character and appearance of the street scene and the wider locality;
- Whether harm would be caused to the living conditions of neighbouring residents.

### 5.3 Assessment of proposals

#### Principle of development and Impact on character of the area

The Borough has an attractive and high quality environment that the Council wishes to protect and enhance. It is therefore considered necessary to carefully assess both the design and form of new development to ensure that it is compatible with the established character of an area that is defined by the type and size of dwellings, the layout, intensity, and relationship with one another and their surroundings. Proposals involving the redevelopment of sites in residential localities are required to reflect the particular character of the street in which the site is located and the scale and proportion of the houses.

From conducting the site visit it was clear that the character of Friern Park consists of traditional family dwellings houses, along with a range of detached flatted developments of varying ages. The proposed scheme shows a detached three storey block which is considered to respond well to the more traditional architectural forms found in the area.

The replacement building is noted as taller than the existing development, however, as the street does not benefit from an established front or rear building line, or design characteristic the proposed development is not considered to disrupt any uniformity in the street scene. Moreover the scheme has been amended to further reduce its height; the overall height have been reduced by 0.5m and the resultant building has been lowered into the ground, by approximately 1m adjacent to 122a Friern Park and approximately 0.45m adjacent to 126 Friern Park. It is therefore considered that the proposed demolition of the existing single dwelling house to provide a flatted development of 7 units would not be detrimental to the established character of the area.

The proposed dwellings would represent an increase to the density of development on the site, however, given the mixed character within the street comprising purpose built flatted blocks and converted units, it is considered that the proposed composition of the development to incorporate seven units within a detached block would not be out of keeping or out of character with any established typology in the street.

Regarding the design of the proposed dwellings themselves, it is considered that following amendments the applicant has been successful in replicating the massing, bulk and form of properties in the local area.

The proposed development is therefore considered to be acceptable in principle.

#### Impact on neighbours

The proposed development would be built to the same front building line but would have a deeper footprint than that which currently exists on the site. As a result, the rear building line would project to a line a short distance beyond both 122 and 126 Friern Park. However, it is considered that the proposed development which projects beyond 122 by 2.3m and 126 by approximately 1.2m would not be significant as to be harmful to the occupiers of these properties. The projections would not give rise to a sense of enclosure at ground floor level. Although there are flank windows facing the scheme from both sides, these would not serve habitable rooms and can be obscure glazed.

At the upper levels of 122 Friern Park, the development is set back stepping up the building creating roof terraces with a large number of windows facing this application site and set behind the intended building line at 124 Friern Park. However, it is considered that there is sufficient distance between buildings to offset any impact of sense of enclosure. These windows all serve a bedroom and it is considered that the combination of three openings would permit sufficient daylight and sunlight to enter the room.

The proposed development would feature rear roof terraces; this would not generate an impact above and beyond that which would already exist on the site and 1.7m screens are proposed to ensure no sense of overlooking.

The rear boundary screening is highly recommended for retention. Given the slope in the land upwards towards Friern Park, the building would appear significantly larger than otherwise would be the case. These trees adequately screen the site for residents located to the rear who have much smaller gardens.

Overall it is considered that subject to the attached conditions the proposed flatted development would not give rise to a loss of amenity to neighbouring occupiers.

#### Living conditions of future occupiers

Despite the amendments to the scheme the proposals show that the current application complies with the space standards for new development outlined in Policy 3.5 (table 3.3) of the London Plan 2015 and is considered to provide adequate internal space for future occupiers.

The proposed development would provide the following accommodation:

|     |       |       |
|-----|-------|-------|
| F1- | 2b3p: | 64sqm |
| F2- | 2b3p: | 68sqm |
| F3- | 2b3p: | 61sqm |
| F4- | 2b4p: | 85sqm |
| F5- | 1b2p: | 53sqm |
| F6- | 2b3p: | 66sqm |
| F7- | 1b2p: | 50sqm |
| F8- | 1b1p: | 37sqm |

These dwellings would meet the minimum gross internal areas as required. The proposed dwellings are also compliant with Part 2.2 part of the Council's Sustainable Design and Construction SPD in regard to the size of bedrooms having a minimum floor area of 8 sq. Furthermore the proposed development meets the requirement that glazing to all habitable rooms should not normally be less than 20%.

Table 2.3 within the Sustainable Design and Construction SPD indicates that for flats outdoor amenity space should be 5sqm per habitable room. A private garden area of 38sqm would be provided for unit 2; directly accessed from the rear of their property. An area for car parking would then be provided and the remaining garden, with 145sqm would be provided as communal amenity space for the other units. This is considered to be acceptable.

Unit 6 would also have access to a rear terrace of 19sqm, 1.7m privacy screens would be provided to each side to ensure no potential overlooking to neighbouring sites. Further details of the privacy screens are required through condition.

An appropriate area for the storage of recycling and refuse bins has been provided for each new dwelling towards the front of the site. This is considered to be acceptable, although further details of the enclosures are required through the imposition of condition. The proposed communal bicycle store would be provided adjacent to the car parking area at the rear of the site

The site has a PTAL rating of 1. The proposed development offers one car parking spaces per units in line with Highways requirements. The parking facilities, which consist of eight parking spaces, would be provided at ground level at the rear of the site between the proposed private garden serving the ground floor unit and the communal garden at the very rear of the site, with one disabled space would remain provided at the front of the site. This element of the development would be landscaped into the rear garden, with planting designed to allow future mature planting to ensure the setting of the development is attractive, enhancing the amenity of neighbouring sites.

The proposals are considered to be acceptable. It is considered that subject to compliance with the attached conditions, the proposed development would have an acceptable impact on the character and appearance of the application site, the street scene and the locality. The development is not considered to have an adverse impact on the amenities of neighbouring occupiers. This application is therefore recommended for approval.

#### **5.4 Response to Public Consultation**

The existing building holds no specific heritage designation and the site is not located within a Conservation Area, and therefore the building holds no protection with which to prevent its demolition.

In regards to the concerns raised regarding the design and appearance of the replacement dwellings, it is considered that that proposed new buildings will respect the varied appearance of the streetscene and not result in any loss of amenity to neighbouring occupiers or the wide vicinity. Details of the proposed materials to be used are required by condition, this will ensure that the development is successfully implemented.

The concerns raised regarding potential loss of light to neighbouring occupiers has been assessed and it is considered that the proposals will not detrimentally impact on the amenity of neighbouring occupiers in this manner. The resultant spacing between the new dwellings and the existing neighbour is comparable to the spacing found between other properties along the road and therefore considered acceptable and not considered to give rise to any loss of amenity regarding loss of light.

In regards to the parking issues raised, the number of car parking spaces is considered to be sufficient for a development of this type and is supported.

It should be noted that boundary disputes are not planning matters. Details of replacement fencing is required through condition to ensure the development is appropriately enclosed.

A construction management plan condition is suggested to ensure that the proposed development is constructed with the minimal amount of disturbance to the locality.

It should be noted that to negate any potential overlooking, all side windows are to be obscure glazed to ensure no loss of amenity to neighbouring occupiers. Furthermore,

additional details of the proposed privacy screen are required through condition to ensure they are appropriately detailed and do not result in any loss of amenity to neighbouring occupiers.

## **6. Equality and Diversity Issues**

The proposal does not conflict with either Barnet Council's Equalities Policy or the commitments set in the Equality Scheme and support the Council in meeting its statutory equality responsibilities.

## **7. Conclusion**

Having taken all material considerations into account, it is considered that subject to compliance with the attached conditions, the proposed development would have an acceptable impact on the character and appearance of the application site, the street scene and the locality. The development is not considered to have an adverse impact on the amenities of neighbouring occupiers. This application is therefore recommended for approval.

BOROUGH OF BARNET
