

LOCATION: Chipping Barnet Library, 3 Stapylton Road, Barnet, EN5 4QT

REFERENCE: 16/7415/FUL Received: 22/11/2016
Accepted: 22/01/2016

WARD: Chipping Barnet Expiry: 17/01/2017

APPLICANT: London Borough of Barnet Council

PROPOSAL: Subdivision and part change of use of library (Use Class D1) to provide 116 sqm of office floorspace (Use Class B1), the insertion of 104 sqm of class B1 mezzanine and associated minor alterations to the external facade of the building

APPLICATION SUMMARY

This application relates to a change of use of part of the existing library (Town and Country Planning (Use Classes) Order, 1987: Class D1) to provide 220 sqm of self-contained office floorspace (Town and Country Planning (Use Classes) Order, 1987: Class B1) with a library area being retained within the remaining floorspace .

The development forms part of a wider programme of works relating to the London Borough of Barnet's library service and it is intended that the change of use to provide B1 office floorspace would help generate income that would allow the library service to continue operating. Therefore, Whilst there would be a net reduction in community floorspace – the inclusion of the additional B1 use would actually enable the retention of the community facility and as such it is considered that the part change of use is acceptable in principle.

Further to the above, the development involves very minor external alterations which would not have a significant impact on the character of the building, as such these alterations are considered acceptable.

The development would also be acceptable in transport terms as the part change of use would result in a reduced trip generation and would not therefore require the provision of any additional car or cycle parking.

RECOMMENDATION:

APPROVE the application subject to the following conditions:

- 1) This development must be commenced within three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act, 2004.

2) The development hereby permitted shall be carried out in accordance with the following approved plans and documents unless otherwise agreed in writing by the Local Planning Authority:

- BLI-AR-X-XX-AR-CB – 01 Rev A
- BLI-AR -X -XX-AR -CB – 02 Rev B
- BL-CAP- XX-GF-DR- L- 089730-001 Rev P1
- Site Location Plan

Reason: For the avoidance of doubt and in the interests of proper planning and so as to ensure that the development is carried out fully in accordance with the application as assessed in accordance with policies CS1, CS4, CS5, DM01 and DM02 of the Barnet Local Plan and policy 1.1 of the London Plan.

3) Prior to the first occupation of the B1 unit, hereby approved, a Delivery and Servicing Plan (DSP) shall be submitted to and approved by the Local Planning Authority. Deliveries and servicing shall thereafter be carried out solely in accordance with the approved details.

Reason: In the interest of highway safety in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (September 2012) and Policy DM17 of the Development Management Policies document (September 2012).

4) Prior to the first occupation of the development, certification demonstrating compliance with Secured by Design standards (or any superseding accreditation) shall be submitted to and approved in writing by the Local Planning Authority.

Reason: In the interest of community safety in accordance with London Plan Policy 7.3, London Borough of Barnet's Local Plan Policy CS12 of Core Strategy (September 2012) and Policy DM02 Development Management Policies (September 2012).

5) The retained library premises shall be used as a library and for no other purpose (including any other purpose in Class D1 of the Schedule to the Town and Country Planning (Use Classes) Order, 1987, or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order, with or without modification).

Reason: To enable the Local Planning Authority to exercise control of the type of use within the category in order to safeguard the amenities of the area.

6) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Order with or without modification), no development otherwise permitted by any of Part 3 of Schedule 2 of that Order shall be carried out in relation to the approved B1 unit following commencement of the use.

Reason: To safeguard the amenities of neighbouring occupiers, and the general locality in accordance with policies DM01 of the Development Management Policies DPD (adopted September 2012).

It is recommended that planning permission be granted subject to the conditions and informatives set out in Appendix 2 of this report and any changes to the wording of the conditions considered necessary by the Service Director for Development Management and Building Control.

1.0 MATERIAL CONSIDERATIONS

Introduction

- 1.1 Section 38(6) of the Planning and Compulsory Purchase Act (2004) requires that development proposals be determined in accordance with the development plan unless material considerations indicate otherwise. In this case, the development plan is The London Plan and the development plan documents in the Barnet Local Plan. These statutory development plans are the main policy basis for the consideration of this planning application.
- 1.2 Barnet's Local Plan is made up of a suite of documents, including the Core Strategy and Development Management Policies development plan documents. The Core Strategy and Development Management Policies documents were both adopted by the Council in September 2012.
- 1.3 A number of other planning documents, including national planning guidance and supplementary planning guidance and documents are also material to the determination of this application.
- 1.4 More detail on the policy framework relevant to the determination of this development and an appraisal of the proposal against the development plan policies of most relevance to the application is set out in subsequent sections of this report dealing with specific policy and topic areas. This is not repeated here.

National Planning Guidance:

- 1.5 National planning policies are set out in the National Planning Policy Framework (NPPF). This 65 page document was published in March 2012 and it replaces 44 documents, including Planning Policy Guidance Notes, Planning Policy Statements and a range of other national planning guidance. The NPPF is a key part of reforms to make the planning system less complex and more accessible. The NPPF states that the purpose of the planning system is to contribute to the achievement of sustainable development. The document includes a 'presumption in favour of sustainable development'. This is taken to mean approving applications which are considered to accord with the development plan. In March 2014 the National Planning Practice Guidance was published (online) as a web based resource. This

resource provides an additional level of detail and guidance to support the policies set out in the NPPF.

The London Plan

- 1.6 The London Plan (2015) is the development plan in terms of strategic planning policy for the purposes of the Planning and Compulsory Purchase Act (2004). The London Plan policies (arranged by chapter) most relevant to the determination of this application are:

Context and Strategy

- Policy 1.1 (Delivering the Strategic Vision and Objectives for London)

London's Places:

- Policy 2.6 (Outer London: Vision and Strategy)
- Policy 2.7 (Outer London: Economy)
- Policy 2.8 (Outer London: Transport)
- Policy 2.15 (Town Centres)

London's People:

- Policy 3.16 (Protection and Enhancement of Social Infrastructure)

London's Economy:

- Policy 4.1 (Developing London's Economy)
- Policy 4.2 (Offices)
- Policy 4.3 (Mixed Use Development and Offices)

London's Transport

- Policy 6.9 (Cycling)
- Policy 6.10 (Walking)
- Policy 6.13 (Parking)

London's Living Places and Spaces

- Policy 7.2 (Inclusive Environment)
- Policy 7.3 (Designing Out Crime)

Barnet Local Plan

- 1.7 The development plan documents in the Barnet Local Plan constitute the development plan in terms of local planning policy for the purposes of the Planning and Compulsory Purchase Act (2004). The relevant documents comprise the Core Strategy and Development Management Policies documents, which were both adopted in September 2012. The Local Plan development plan policies of most relevance to the determination of this application are:

Core Strategy (Adopted 2012):

- Policy CS1 (Barnet's Place Shaping Strategy – Protection, enhancement and consolidated growth – The three strands approach)
- Policy CS5 (Protecting and enhancing Barnet's character to create high quality places)
- Policy CS6 Promoting Barnet's Town Centres
- Policy CS10 (Enabling inclusive and integrated community facilities and uses)
- Policy CS11 (Improving health and well-being in Barnet)
- Policy CS12 (Making Barnet a safer place)

Development Management Policies (Adopted 2012):

- Policy DM01 (Protecting Barnet's character and amenity)
- Policy DM02 (Development standards)
- Policy DM03 (Accessibility and inclusive design)
- Policy DM06 (Barnet's Heritage and Conservation)
- Policy DM11 (Development principles for Barnet's town centres)
- Policy DM13 (Community and education uses)
- Policy DM14 (New and existing employment space)
- Policy DM17 (Travel impact and parking standards)

2.0 SITE DESCRIPTION

- 2.1 The application site comprises the existing Chipping Barnet Library building, a purpose built library facility with a two storey height. The building is currently occupied solely as a library and enjoys a D1 use class.
- 2.2 The building is located on the west side of Stapylton Road with the main pedestrian access located on the Stapylton Road façade, adjacent to the rear of The Spires Shopping Centre. Strafford Road and Carnavon Road are located to the north and south of the site respectively.
- 2.3 The library incorporates a car park to the rear of the building which is accessed from Strafford Road to the north of the site.
- 2.3 The building is not listed and is not located in a conservation area.

3.0 PROPOSED DEVELOPMENT

- 3.1 Permission is sought for the subdivision and part change of use of an existing library (Use Class D1) to provide 116sqm office floorspace (Use Class B1), insertion of 104sqm of class B1 mezzanine along with associated minor alterations to the external facade of the building.
- 3.2 As an existing library, the whole of the building is currently in D1 use with a total floorspace of 1911 square metres. The proposals seek to reconfigure the existing internal layout of Chipping Barnet Library; changing the use of 116sqm of existing Library space at ground floor level from D1 to B1 office space. An additional 104sqm of B1 office space is proposed

at first floor level through the insertion of a new mezzanine floor plate within the existing double height activity space. The development would result in the following floorspaces:

- Library floorspace (Use Class D1) – 1795 square metres
- Office floorspace (Use Class B1) – 220 square metres (116sqm through change of use and 104sqm provided through new mezzanine floor)

3.3 To facilitate the change of use and subdivision, internal works would include the installation of the above mentioned 104 sqm mezzanine floor and the erection of partitions, a staircase and a lift.

3.4 In order to facilitate the internal reconfiguration and part change of use, minor external alterations are also proposed. An additional window would be installed within the B1 office floor space at ground floor level to provide additional natural light given the proposal to install a mezzanine floor above. A new public entrance would also be created on the main façade, in closer proximity to the zebra crossing point on Stapylton Road. Pavement levels at this location would be adjusted to ensure DDA compliance in terms of creating a level threshold.

Self Service Opening

3.5 As part of the proposed development, it is proposed that the operation of the library would be open outside of normal staffed hours through a new Self-service Opening (S-sO) system. During staffed hours, the library would operate as normal with open access to the library through the pedestrian entrance as is currently the case. Outside of these staffed hours, access to the library would be controlled and would be limited to LBB Library members.

3.6 Outside of the staffed hours, access would be provided through secured doors at the entrance/threshold of the library building. To enter the building, library members would use an electronic card that has been issued by the Library Service. The card would be presented to an access control pad and a 4 digit security pin is entered which would validate the library member to enter the building.

3.7 It is proposed that the opening hours of the library would be as follows:

Day	Current Opening Hours	Proposed Staffed Hours	Self Service Hours
Monday	10am-8pm	NA	7am-10pm
Tuesday	9.30am-5pm	9am-12.30pm	7am-9am and 12.30pm-10pm
Wednesday	9.30am-8pm	2pm-8pm	7am-2pm and 8pm-10pm
Thursday	9.30am-5pm	NA	7am-10pm
Friday	9.30am-8pm	2pm-5pm	7am-2pm and 5pm-10pm

Saturday	9.30am-1pm and 2pm-5pm	9pm-5pm	7am-9am
Sunday	2pm-5pm	2pm-5pm	10am-2pm

4.0 RELEVANT PLANNING HISTORY

4.1 There is no recorded planning history relating to the application site.

5.0 CONSULTATIONS

5.1 As part of the consultation exercise 105 letters were sent to neighbouring occupiers in November 2016. The application was also publicised via a site notice. The consultation process carried out for this application is considered to have been appropriate for a development of this nature.

5.2 As a result of the consultation 51 responses were received, all objecting to the application. A summary of the responses received is set out below.

Objection	Response
The development would result in the loss of community facilities.	The loss of the community floorspace would allow for the library to continue to operate, safeguarding its future and preventing it from closure. As such, and on balance, officers consider that the partial loss of community floorspace is acceptable. The principle of development is discussed fully within paragraphs 6.1 to 6.8 of this report.
There is already sufficient office space in Barnet.	The provision of office floorspace in town centre locations is supported by policy and in this regard the provision of a B1 unit is considered to be appropriate. The co-location of the office with the library makes efficient use of a prime town centre site and is in accordance with overarching strategic policies which seek to promote mixed use sites. The principle of office accommodation at this location is discussed fully within 6.9-6.11 of this report.
The move to provide self-service opening would disadvantage the poor and vulnerable members the community who benefit from the time and guidance of qualified librarians	The library would still be staffed for 5 out of 7 days of the week allowing anyone who wishes to benefit from the time and guidance from library staff to attend on these days.

<p>How would theft from library and anti-social behaviour be prevented during unstaffed hours?</p>	<p>The library would be covered by a CCTV system which would be monitored with a two way speaker system and links to emergency services if required. The Metropolitan Police's Crime Prevention Design Advisor has reviewed the application and has suggested a range of Secured by Design measures and a condition is attached requiring implementation. Subject to the condition, officers consider that the library would not generate new opportunities for crime.</p>
<p>The change of use may result in additional activity which would cause noise and disturbance for neighbouring residential occupiers.</p>	<p>It is anticipated that the level of activity associated with the development would be similar to that which already exists. Officers consider that the development would not give rise to any additional concerns with regards to noise and disturbance to neighbouring residential occupiers.</p>
<p>There is insufficient parking at the site to accommodate the proposed office use.</p>	<p>The Council's Transport and Highways officers have reviewed the applicant's transport statement and are satisfied that the parking demands of both the retained library and the new B1 unit could be accommodated within the existing car park. Parking is discussed fully within paragraphs 6.19-6.21 of this report.</p>
<p>The conditions of the Hyde bequest and associated covenants are being ignored despite their legal standing.</p>	<p>Any legal covenants or bequests that may relate to the use of the library are not material planning considerations.</p>
<p>What impact would the development have upon the existing problems of anti-social behaviour to the rear of the building?</p>	<p>Officers consider that the development would not give rise to any new concerns with regards to community safety, nor would any new opportunities for crime be created. It is not within the gift of the current planning application to address any existing anti-social behaviour issues which should be addressed through the metropolitan police.</p>

5.3 Consultations were also undertaken with internal and external consultees, the responses received are set out below:

LBB Transport and Highways – There is adequate parking provision on site to accommodate any additional parking requirement resulting from the proposed office use

LBB Environmental Health – No objection subject to noise limiting condition if any new plant machinery proposed

Metropolitan Police (Crime Prevention Officer) – The co-habitation of the office and library should be carefully considered. Access control to both units should accord with SBD standards. Various other measures should be incorporated to minimise risk to community safety and to minimise the likelihood of anti-social behaviour

6.0 PLANNING CONSIDERATIONS

Principle of Development

Loss of Community Floorspace

- 6.1 The existing is currently occupied solely as a library and enjoys a D1 use class. The application seeks to subdivide the existing facility to provide 220 square metres of office floorspace (Use Class B1) in alongside the retention of a 1795 square metre library. Overall, the development would result in the loss of 116 square metres of community floorspace and it is therefore necessary to assess the acceptability of this reduction in the context of the London Plan and Barnet Policies.
- 6.2 Policy 3.16 of the London Plan supports the provision and enhancement of social infrastructure to meet the needs of London's growing and diverse population. The policy states that development proposals which provide high quality social infrastructure will be supported and that proposals which would result in the loss of social infrastructure in areas of defined need for that type of social infrastructure without realistic proposals for re-provision should be resisted. Paragraph 3.87A of the supporting text goes on to state that loss of social infrastructure in areas of defined need may be acceptable if it can be demonstrated that the disposal of assets is part of an agreed programme of social infrastructure re-provision (in health and community safety, for example) to ensure continued delivery of social infrastructure and related services
- 6.3 Policy CS10 of the Barnet Core Strategy states that the Council will work to ensure that community facilities including libraries are provided for Barnet's communities. The Council will support the enhancement and inclusive design of community facilities, ensuring their efficient use, and the provision of multi-purpose community hubs that can provide a range of services to the community at a single accessible location.
- 6.4 Policy DM13 of the Barnet Development Management Policies document states that the loss of a community or education use will only be acceptable in exceptional circumstances where
- i) New community or education use of at least equivalent quality or quantity are provided on the site or at a suitable alternative locations; or
 - ii) There is no demand for continued community or education use, and that the site has been marketed effectively for such use.

- 6.5 Having regard to the policy context set out above, it is clear that both London and Barnet policies seek to protect community facilities. It is important to recognise however that the development as proposed would not result in the complete loss of the community facility which would be retained, albeit within a reduced space. Whilst the physical floorspace of the library would be reduced, a more efficient layout would enable the retained library to offer the same level of service as currently offered.
- 6.6 The applicant has outlined that the Borough's library service is under severe financial pressure and the application seeks to avoid closures of libraries by allowing some of the floorspace within the libraries to change to a B1 use which would allow it to let the floorspace and to generate an income. The income generated from the letting of the B1 floorspace would thus allow the library to continue to operate.
- 6.7 As set out in supporting text of London Plan Policy 3.16, loss of social infrastructure may be acceptable if it can be demonstrated that such disposals ensure continued delivery of social infrastructure and related services. It has been outlined by the applicant that without the income generated from the B1 floorspace, the future viability and financial sustainability of the library would be doubtful and closure of the library would be likely.
- 6.8 A balanced judgement therefore has to be made and in this regard officers consider that the partial change of use of the library floorspace is acceptable given that it would enable the library to continue to operate and prevent closure. Given that the development would not involve the loss of the community use and would actually enable the continued use of the library for its intended use, it is considered that there is no conflict with London Plan or Barnet policies.

Provision of Office Floorspace

- 6.9 Policy CS6 of the Barnet Core Strategy states that the council will ensure the efficient use of land and buildings in town centres, encouraging a mix of compatible uses including retail, workspace, leisure and residential. Policy CS8 states that in order to support small to medium sized enterprises, new employment provision should include a range of units' sizes and types, including flexible and affordable workspaces.
- 6.10 Policy DM11 of the Barnet Development Management Policies document states that the council will expect a suitable mix of appropriate uses as part of development within town centres. It also states that appropriate mixed use redevelopment will be expected to provide re-provision of employment use, residential and community use.
- 6.11 The application site is located on the edge of Chipping Barnet town centre and as such it is considered to be an appropriate location for the provision of office floorspace. The co-location of the office with the retained library would provide a mixed use development making effective use of town centre resources, in line with the NPPF which seeks to encourage the shared use of existing community facilities with commercial organisations.

Employment

- 6.12 The application documentation sets out that the number of staff employed at the library would remain as existing with only staff hours being reduced. Nevertheless, whilst the library is protected as a community facility under policies CS10 and DM13 however for the purpose of planning assessment, it is not classified as an employment use. There is therefore no scope to resist the application on the basis of any loss of employment which may arise from the proposed development. The proposed change from a Council run library staffed by full time employees to a partnership library staffed by volunteers is thus outside of the scope of this planning application to assess.
- 6.13 Notwithstanding the absence of a policy requirement for assessment, the office floorspace being provided would equate to 220 square metres which could support between 16 and 22 full time employees according to HCA employment density figures. It is evident therefore that the development could result in a potential overall uplift in employment numbers across the site.

Design

- 6.14 Core Strategy Policy CS5 states that developments within Barnet should respect local context and the distinctive local character creating places and buildings of high quality design. Developments should address Secure by Design principles whilst being safe, attractive and fully accessible.
- 6.15 Policy DM01 of the Barnet Development Management Policies document states inter alia that all development should represent high quality design and should be based on an understanding of local characteristics.
- 6.16 The internal reconfiguration of the existing building would necessitate some minor external alterations including the installation of a new window and a new glazed pedestrian access door with access control system. The library building is not listed and is not located within a conservation area however, as set out above, there is still a policy requirement to achieve high quality design in any development proposals.
- 6.17 The proposed window would be of a timber fabrication which would match the material fabrication of the existing doors and window frames, maintaining architectural unity on the building. The proposed entrance door would be of a PPC aluminium fabrication, matching the existing doors on the façade. It is considered that the minor external changes are in accordance with policies CS5 of the Core Strategy and DM01 of the Barnet Development Management Policies document.

Transport and Parking

Car Parking

- 6.18 The library car park has a total of 6 car parking spaces which are for use by the public, 3 of which are designated Blue Badge Holder bays. The staff car park located beyond the car park for public use is controlled by a barrier and has a total of 22 car parking spaces. Both car parks are accessed from Strafford Road.
- 6.19 For employment B1 uses, The London Plan states for outer London, 1 car parking space should be provided for every 100 to 600 square metres of gross floorspace. The development proposes to provide 220sqm of B1 office space and thus the range for car parking spaces is between 0 (lower limit) and 1 (upper limit) car parking. It is therefore clear that parking associated with the B1 unit could be accommodated within the existing car park.
- 6.20 To this end, the Council's Transport and Highways officers were consulted on the application and were satisfied that the cumulative parking impact of the retained library and the new B1 unit could be accommodated within the existing car park.
- 6.21 London Plan policy 6.13 states that disabled parking within workplaces should be provided at a ratio of 1 per disabled employee. There are currently 3 disabled parking spaces provided within the car park which is adequate for the existing use. Once the future occupiers of the B1 unit are known, it may be necessary to review the number of disabled spaces and provide additional spaces and an informative is added to inform the applicant of this.

Cycle Parking

- 6.22 Table 6.3 of the London Plan sets out that a minimum of 22 cycle parking spaces should be provided with the development. There are currently 8 Sheffield cycle parking stands located on site which allow up to 16 cycles to be secured, therefore, according to the London Plan, an additional 6 cycle parking spaces are required.
- 6.23 The applicant has suggested that, instead of providing the 6 spaces, that the usage of the existing cycle spaces be monitored and if necessary the additional 6 spaces be provided at a later date. Existing survey data shows a low take up of the cycle spaces and as such the Council's Transport and Highways officers have advised that a condition requiring monitoring and additional provision if necessary is appropriate.

Servicing and Deliveries

- 6.24 The existing library is serviced by deliveries on Mondays, Wednesdays and Fridays with deliveries being undertaken before 2pm. The retained library would continue to be serviced through this arrangement which is considered to be acceptable.
- 6.25 The end user of the proposed B1 unit is not yet known and as such the detailed servicing and delivery requirements are not known at this stage. It is assumed that the unit would utilise similar servicing arrangements however it is considered prudent to attach a condition

requiring the submission of a servicing and delivery plan for approval prior to the occupation of the B1 unit.

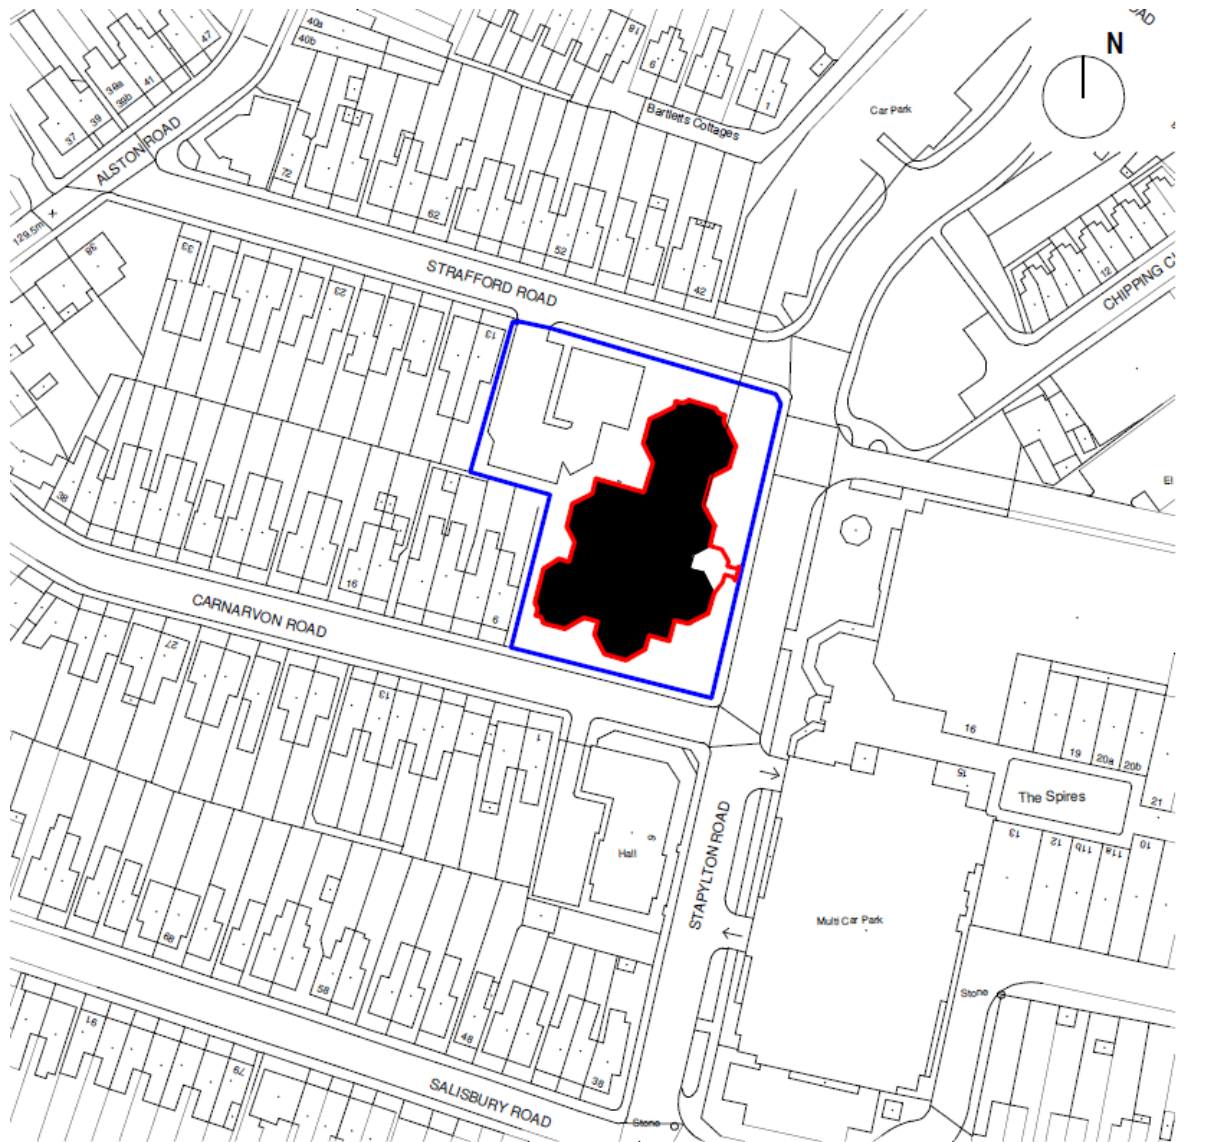

Crime Prevention / Public Safety

- 6.26 Policy DM02 of the Barnet Development Management Policies document states inter alia that development will be expected to demonstrate compliance with the Secured by Design document.
- 6.26 The Metropolitan Police Designing out Crime officer was consulted on the application and outline some specific areas which would require attention. These issues relate specifically to the co-habitation of the B1 unit and the library and the need to ensure that access between the units which may compromise the safety of either or both of the units. If not managed carefully, there is potential for shared access points to allow tailgating if they are located in close proximity to each other. It was also outlined that it would be essential for the access control fob to be of a high specification which is resistant to copying.
- 6.28 In addition, it was outlined that the lack of meaningful site presence, within the libraries other than CCTV could allow the unintended guest to capitalise on the lack of natural surveillance and facilitate possible criminal activity and anti-social behaviour. Nevertheless, mitigation strategies have been outlined by the Metropolitan Police and it is considered that it is prudent to attach a condition to any planning permission requiring that the scheme adheres to these measures. The condition would require submission certification of SBD accreditation prior to occupation.

7.0 CONCLUSION

- 7.1 In conclusion officers consider that, on balance, the reduction of the community floorspace is acceptable given that it would enable the library to continue to operate. Whilst operating in a unit with a reduced floorspace, a more efficient layout would ensure that the library would be able to offer the same level of the service. The provision of the office and the resultant income generated would secure the long term future of the community facility and as such officers consider that the development would bring benefit to the community.
- 7.2 Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires the Council to determine any application in accordance with the statutory development plan unless material considerations indicate otherwise. All relevant policies contained within the development plan, as well as other relevant guidance and material considerations, have been carefully considered and taken into account by the Local Planning Authority. It is concluded that the proposed development generally and taken overall accords with the relevant development plan policies. It is therefore considered that there are material planning considerations which justify the grant of planning permission. Accordingly, **APPROVAL** is recommended subject to conditions as set out in Appendix 2 of this report.

APPENDIX 1: Site Location Plan

APPENDIX 2:

Conditions

- 1) This development must be commenced within three years from the date of this permission.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act, 2004.

- 2) The development hereby permitted shall be carried out in accordance with the following approved plans and documents unless otherwise agreed in writing by the Local Planning Authority:

- BLI-AR-X-XX-AR-CB – 01 Rev A
- BLI-AR -X -XX-AR -CB – 02 Rev B
- BL-CAP- XX-GF-DR- L- 089730-001 Rev P1
- Site Location Plan

Reason: For the avoidance of doubt and in the interests of proper planning and so as to ensure that the development is carried out fully in accordance with the application as assessed in accordance with policies CS1, CS4, CS5, DM01 and DM02 of the Barnet Local Plan and policy 1.1 of the London Plan.

- 3) Prior to the first occupation of the B1 unit, hereby approved, a Delivery and Servicing Plan (DSP) shall be submitted to and approved by the Local Planning Authority. Deliveries and servicing shall thereafter be carried out solely in accordance with the approved details.

Reason: In the interest of highway safety in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (September 2012) and Policy DM17 of the Development Management Policies document (September 2012).

- 4) Prior to the first occupation of the development, certification demonstrating compliance with Secured by Design standards (or any superseding accreditation) shall be submitted to and approved in writing by the Local Planning Authority.

Reason: In the interest of community safety in accordance with London Plan Policy 7.3, London Borough of Barnet's Local Plan Policy CS12 of Core Strategy (September 2012) and Policy DM02 Development Management Policies (September 2012).

- 5) The retained library premises shall be used as a library and for no other purpose (including any other purpose in Class D1 of the Schedule to the Town and Country Planning (Use Classes) Order, 1987, or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order, with or without modification).

Reason: To enable the Local Planning Authority to exercise control of the type of use within the category in order to safeguard the amenities of the area.

- 6) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any order revoking and re-enacting that Order with or without modification), no development otherwise permitted by any of Part 3 of Schedule 2 of that Order shall be carried out in relation to the approved B1 unit following commencement of the use.

Reason: To safeguard the amenities of neighbouring occupiers, and the general locality in accordance with policies DM01 of the Development Management Policies DPD (adopted September 2012).

Informatives

- 1) In accordance with paragraphs 186 and 187 of the NPPF, the Local Planning Authority (LPA) takes a positive and proactive approach to development proposals, focused on solutions. The LPA has produced planning policies and written guidance to assist applicants when submitting applications. These are all available on the Council's website. A pre-application advice service is also offered and the Applicant engaged with this prior to the submissions of this application. The LPA has negotiated with the applicant/agent where necessary during the application process to ensure that the proposed development is in accordance with the Development Plan.
- 2) With regards to Condition 4, the applicant is advised of the following:
- i) Access control system must be via an encrypted fob resistant to being copied easily.
 - ii) Recommended use of LPS 1175 SR2 rated doors for all communal entrance.
 - iii) Were possible to design out double-leaf communal doors, as singles doors (ensure DDA compliant) are more robust and preferable.
 - iv) Approved SBD post boxes to be located within the secure communal lobby areas.
 - v) All internal doors that are to be locked while open to the public should be constructed to a minimum of PAS 24 standard.
 - vi) Utility meters, smart meters are preferred and meters are to be located as close to the communal entrance door as possible i.e. avoid locating meters that require reading by persons within individual rentable units.
 - vii) All locations that utilise CCTV must display suitable information commissioner standards signage. (Data protection act).
 - viii) All IT equipment that is designated for public use should be contained within bespoke furniture constructed to protect it from criminal damage and theft.

In discharging condition 4, the applicant is advised to liaise with Pc Karl Turton (Designing out Crime Officer – Metropolitan Police Service) - tel: 020 8733 3703 email: karl.turton@met.pnn.police.uk

- 3) The applicant is advised that planning permission would be required for the installation of any additional plant machinery required for the new commercial unit.
- 4) The applicant is advised that the number of disabled parking spaces provided within the car park should be kept under review. Should any employees of the proposed office require a disabled parking space then one should be made available within the car park.
