> DATS and IAP teams initiate highest volume of SEAMS
> Lengthy delays in processing SEAM meeting notes; 23 working days in July 2018.

> Volume of missing in 2018 has increased compared with 2017, likely due to improvements in reporting. However October 2018 saw more young people going missing and for longer periods.

> Young people in care go missing more frequently than young people at home. 63% of young men who go missing are missing from care, compared with 80% of young women who go missing.
