
Meeting	Safeguarding Overview and Scrutiny Committee
Date	12 December 2012
Subject	Exam Results and Narrowing the Gap
Report of	Cabinet Member for Education, Children and Families and the Interim Director of Children's Service
Summary	A report on the exam results of Barnet's schools, and how the Children's Service is supporting schools to narrow the gap in educational attainment levels. This report presents an overview of 2012 performance data, work that has been undertaken to narrow attainment gaps between children eligible for free school meals and their peers and how gaps have narrowed. It also outlines future work to be carried out in order to further reduce attainment gaps

1. RECOMMENDATIONS

- 1.1 That the Safeguarding Overview and Scrutiny Committee consider exams results in Barnet schools, especially progress made to narrow the gap in attainment levels and make appropriate comments and recommendations to the Cabinet Member.**

2. RELEVANT PREVIOUS DECISIONS

- 2.1 None

3. CORPORATE PRIORITIES AND POLICY CONSIDERATIONS

- 3.1 The Barnet Children and Young People Plan 2010-2013 includes the priority 'Enable every child and young person to achieve their full potential, narrowing the gap for those whose attainment is at risk', which contributes to the corporate strategic objective of 'creating the conditions for children to develop skills and acquire knowledge to lead successful adult lives' as part of the corporate priority 'sharing opportunities and sharing responsibilities'. 'Ensuring every school is a good school for every child' also contributes to the corporate priority 'a successful London suburb'.

4. RISK MANAGEMENT ISSUES

- 4.1 The level and number of children with complex special needs in Barnet continues to rise, in common with the national picture, although the balance of children with Special Educational Needs (SEN) in mainstream provision has not changed. This increased complexity of needs in both Special and mainstream schools places significant demand on teachers in schools and on specialist support services.
- 4.2 The new relationship between local authorities and schools, as set out in White Paper, The Importance of Teaching (2010) has, particularly with respect to academies and free schools, reduced the direct influence the local authority has over schools. The responsibility for school improvement now lies with schools.
- 4.3 Whilst Key Stage 4 and Key Stage 5 results for Barnet pupils place them in the top 15 local authorities nationally, Barnet's position at Key Stage 2 has slipped from 7th out of 150 local authorities in 2011 to 30th in 2012. Outcomes are still in the top quartile, but other local authorities have improved more quickly than Barnet.

5. EQUALITIES AND DIVERSITY ISSUES

- 5.1 Performance data shows that children eligible for free school meals, Children in Care and children with SEN do less well than their counterparts at Key Stages 2 and 4. Outcomes for children from some ethnic groups are better than for others. One of the key priorities for the Children's Service is to narrow attainment gaps, enabling all children and young people to achieve their potential; making at least expected progress. The actions set out in this report are aimed at narrowing attainment gaps, contributing towards the equalities agenda.

6. USE OF RESOURCES IMPLICATIONS (Finance, Procurement, Performance & Value for Money, Staffing, IT, Property, Sustainability)

- 6.1 The Pupil Premium has been available to schools from 1 April 2011. It is specifically targeted at pupils eligible for Free School Meals, Children in Care and service children and will allow the provision of additional resources to help ensure that such pupils make better than expected progress. Weakening of ring-fence arrangements to grants within the Dedicated Schools Grant (DSG) from 1 April 2011 may also give schools greater flexibility in the way they are able to target spending.
- 6.2 The Schools' Forum has agreed that the DSG will continue to contribute to the funding of Narrowing the Gap Consultant posts within the new Children's Service structure.

7. LEGAL ISSUES

- 7.1 From 1 April 2011 the responsibility for school improvement was delegated to schools. The local authority's responsibility is to provide challenge.

8. CONSTITUTIONAL POWERS

- 8.1 The scope of Scrutiny committees is contained within Part 2, Article 6 of the constitution; the Terms of Reference of the Scrutiny Committees are in the Overview and Scrutiny Procedure Rules (Part 4 of the constitution) which states that the Committee has responsibility to "scrutinise the provision of education (children and adults), special educational needs provision, and the protection and welfare of children.

9. BACKGROUND INFORMATION

- 9.1.1 Barnet is a high achieving local authority, with results for all Key Stages consistently in the top quartile nationally and in the top 10% of local authorities at Key stage 4 and Key Stage 5. Outcomes have continued to improve and gaps between vulnerable groups and their peers have narrowed faster than those nationally and for our statistical neighbours.
- 9.1.2 Over the past six years there has been a general improvement in the attainment of pupils eligible for free school meals at both Key Stage 2 and Key Stage 4 and those with SEN. The attainment gap between pupils eligible for FSM and those not eligible (NFSM) is narrower at Key Stage 2 than at Key Stage 4 and at Key Stage 4 the gap is narrowing. The 'Narrowing the Gap' advisors have a key role in challenging schools to identify and support FSM pupils and those with SEN in order to maximise their attainment and to maintain the direction of travel.
- 9.1.3 Performance data for 2012 is unvalidated and subject to change. The data which informs this analysis is drawn from Statistical First Releases (SFR) provided by Department for Education and available at www.education.gov.uk/rsgateway/ and from data published by EPAS (Educational Performance Analysis System). The median performance of statistical neighbours is used as the comparator.
- 9.1.4 The accountabilities for schools with respect to the Pupil Premium (PP) require that they are able to demonstrate, publicly, how their PP funding for disadvantaged pupils (those eligible for FSM, Children in Care and service children) has been used. Schools need to be aware of and implement support strategies which are both effective and represent

value for money. The Local Authority will monitor the impact of this.

9.2 Early Years Foundation Stage (EYFS)

EYFS performance is a measure of pupils' achievement of at least 78 points across the Early Years Foundation Stage with at least 6 in each of the scales in Personal, Social and Emotional Development and Communication, Language and Literacy. Barnet pupils' attainment is better than that nationally or of our statistical neighbours, although there has been no improvement on last year.

Statistical neighbours	53	57	60	60	63

9.3 Narrowing the Gap in EYFS

An important indicator is the gap between the median achievement and that of the lowest 20 % of the cohort. This achievement gap has been narrowing steadily in Barnet, although a slight rise places Barnet in line with national performance and behind that of our statistical neighbours.

The percentage gap in achievement between the lowest 20 per cent of achieving children in a local authority and the score of the median child in the same authority expressed as a percentage of the same median score.

9.5 Action to Narrow the Gap in EYFS

The Narrowing the Gap team has provided a range of universal and targeted support to schools and settings to help them to improve provision for pupils whose attainment and progress might be at risk. The team has also provided support to Children's Service Officers, including Learning Network Inspectors and Educational Psychologists with regard particularly to data analysis and the identification of at-risk groups.

Other support has included:

- Support to private voluntary and independent settings offering free entitlement to most vulnerable two year olds
- Design and roll out of effective tracking tool for EYFS pupils in schools and private, voluntary and independent sector to monitor progress of all identified vulnerable groups.
- Challenging and supporting schools to ensure effective pupil progress meetings in EYFS

- Support to schools to ensure high quality EYFS when taking a bulge class.
- Implementation of the revised framework including the raising in the standards expected and how to ensure achievement for all.
- Since April 2012 over 1050 practitioners of EYFS have attended training.

9.6 Key Stage 1

Attainment at Key Stage 1 is based on teacher assessments of reading, writing, maths and science. Barnet pupils' attainment at Level 2+ - the expectation for KS1 - showed improvement in reading and writing, but no real change in maths and science.

Key Stage 1 Assessments 2011-2012: % Level 2+ Reading, writing, maths, science

9.7 Free school meal gap

The gap between FSM and NFSM pupils continues to narrow at Key Stage 1 in all subjects at L2+. The difference in attainment between the two groups has is lower than that nationally and for our statistical neighbours; the pace of reduction is faster in Barnet than nationally or for statistical neighbours.

9.8 Phonics Screening Check

For the first time in 2012 there was a national phonics screening check for Year 1 pupils. The proportion of Barnet pupils meeting the expected standard was higher than that nationally or of our statistical neighbours. Girls' performance was better than that of boys, a national trend, but the gap is narrower in Barnet than nationally or for our statistical neighbours. The gap between NFSM and FSM pupils is similar to that nationally and for statistical neighbours.

9.9 Key Stage 2

At Key Stage 2 outcomes for Barnet pupils continue to be better than those nationally and for our statistical neighbours. There were improvements year-on-year for all pupils gaining Level 4 in both English and Maths. The gap between boys' and girls' attainment narrowed by 3% in 2012

9.10 Free School Meal gap

Outcomes for pupils eligible for FSM improved by 7% year-on-year; the gap between NFSM and FSM pupils narrowed by 5%. The Children and Young People Plan target for a

gap of 19% was exceeded. Data for England and our statistical neighbours is not yet available.

9.11 Special Educational Needs

There are three categories of SEN; from least to most severe they are: School Action, School Action Plus and Statement of Special Educational Need. Outcomes for Barnet pupils with SEN but without statements show year-on-year improvements. Data for England and our statistical neighbours is not yet available. Barnet has a higher percentage of pupils with SEN, in particular those at School Action and School Action Plus (average 2007 – 2012 of 26%) than England (average 22%) and our statistical neighbours (average 20%) Barnet has a similar percentage of pupils (3.2%) with statements compared to England (3.2%) and our statistical neighbours (3.7%)

Outcomes for pupils with statements fell year-on-year; performance for this group is variable because of small numbers in the cohort, but has, historically, been significantly higher than national results or those of our statistical neighbours

9.12 Children in Care

9.13 Action to Narrow the Gap at Key Stage 2

This has included:

- Analysis of performance data and presentations to headteachers at directors' meetings, with particular reference to underperforming groups
- Identification of schools where gender / FSM / ethnic / EAL gaps indicate concern
- Support to identified schools to consider the causes of progress and attainment gaps, and to improve provision through more precise identification of the learning needs of particular at-risk groups
- A range of centrally delivered training for teachers to improve the identification of needs, and strategies and approaches to improve provision, especially relating to reading and writing at Key Stage 2
- Training for Newly Qualified Teachers in approaches to improving provision for at-risk groups
- Targeted support for individual schools designed to build capacity in leaders and practitioners with bespoke programmes of support and challenge
- A cross-phase Narrowing the Gap conference was organised in February 2012, with guest speakers Dr Lee Elliot-Major from the Sutton Trust, and Steven Drew from Passmores Academy in Harlow featured in the Channel 4 series Educating Essex
- Action research projects with schools so that provision is improved for children at risk of underachievement
- A Narrowing the Gap advisor is working with Afghan Association Paiwand on a project, supported by a grant from the Paul Hamlyn Trust to develop Saturday school provision for disadvantaged and at risk pupils in KS1 and 2

9.14 Key Stage 4: GCSE

Attainment for pupils at Key Stage 4 continues to place Barnet in the top 10% of local authorities. The percentage of pupils gaining 5+ GCSEs at grades A*-C including English and Maths fell by 1.5%, in line with our statistical neighbours; results nationally were static year-on-year.

2011	68.8	63.2	58.4
2012	67.3	61.7	58.4

9.15 Progress from Key Stage 2 to Key Stage 4

Pupils are expected to make at least three levels of progress in English and Maths between Key Stage 2 and Key Stage 4. Pupils who gained level 3 at Key Stage 2 are expected to gain at least GCSE grade D, those at Level 4 at least C, and pupils with Level 5 are expected to gain at least Grade B. Many level 5 pupils will gain A or A*. Progression rates for Barnet pupils place them in the top 10% for English and the top 15% for Maths. There has been a fall in the rate of progress in English nationally and for our statistical neighbours, but the difference is not as great in Barnet as it is elsewhere. Although progress fell in English it continued to rise in Maths, albeit at a slower rate. It is probable that the slow-down in English contributed to the drop in 5+ A*-C including English and Maths outcomes in Barnet this year.

9.17 Free school meal gap

The attainment gap between pupils eligible for free school meals and those not eligible continues to narrow in Barnet, and is now at its smallest ever. The rate of improvement here is better than national, where there has been no real change over the past 5 years. One reason for the reduction of the gap is that outcomes for NFSM pupils fell in 2012 whereas there was no change for FSM pupils. It is a measure of the success of work to improve outcomes for FSM pupils that their results did not follow the pattern of their peers.

9.18 Key Stage 4: SEN

The performance of pupils with SEN, with and without statements has historically been better than that nationally and in our statistical neighbours. Results for 2012 show an improvement year-on-year for pupils without statements, but results for those with statements remain static. Results are variable for this group because of small cohort sizes.

9.19 English Baccalaureate (EBac)

The EBac was introduced in 2011. It comprises a package of GCSE passes at grade C or better in five subjects: English, Maths, Science, a humanities subject and a modern foreign language. The performance of Barnet pupils in the EBac is significantly better than that nationally and ahead of our statistical neighbours in all subjects except science. A significantly higher proportion of pupils are entered for EBac subjects than nationally. Barnet's overall performance in EBac places it 4th nationally.

9.20 Academies

Whilst median outcomes for Barnet academies are higher than for non-academies, the rate of improvement is faster in non-academies. In 2012 outcomes for non-academies improved, but fell year on year in academies.

9.21 Action to narrow the gap at Key Stage 4 and in secondary schools

As outlined in paragraph 9.4, the Narrowing the Gap team works with Children's Service officers to provide analysis of performance data and to help develop improvement plans for schools.

Work with secondary schools has included

- Raising Achievement - Narrowing the Gap networking meetings for senior teachers responsible for attainment and progress have been run each term, along with meetings for teachers with responsibility for literacy in secondary schools.
- Support has been provided to maintained schools to help senior leaders monitor the progress of at risk groups and to improve provision, particularly with regard to marking and feedback.
- Training for NQTs on strategies to improve provision for vulnerable pupils and to improve provision for literacy across the curriculum.
- Support to schools to audit the quality of support for literacy across the curriculum and training for teachers in strategies to improve provision
- Help has also been given to help teachers improve support for literacy across the curriculum. A small grant was available to schools to develop this work through projects which will be evaluated later this term
- Work with the 14-19 team on strategies to prevent people Not in Education, Employment or Training (NEETs) and with the Senior Educational Psychologist to develop guidance on supporting pupils whose attainment and progress are at risk, through the Vulnerable Children Leading Edge Group.
- A project to pilot the Sutton Trust Toolkit recommendations for use of the Pupil Premium has been launched with 6 schools

9.22: Key stage 5: A Level

Young people in Barnet schools do very well at A level and Level 3 qualifications. There are a number of ways in which outcomes at KS5 can be gauged. Average point score (APS) per entry – per subject taken or APS per student - measures show that Barnet pupils perform significantly higher than those nationally or in our statistical neighbours, and that results improved year on year, especially for boys.

Grade	Points	
A*	300	The average point score for Barnet pupils in 2012 was 826 points. This is roughly equivalent to AAB at A level and would enable many to secure places at Russell group universities. The average point score per entry is 227 points, roughly a low B grade.

Pass rates for students gaining two or more A levels or equivalent and those gaining AAB equivalents also provide an indication of how well Barnet students are performing:

Percentage of students achieving 2 or more passes of A level equivalent size						
	Barnet		Statistical Neighbours		National	
	2011	2012	2011	2012	2011	2012
Males	93.8	97.9	96.3	98	93.5	97.0
Females	97.0	98.3	97.0	98	93.7	98.1
All	95.6	98.1	96.4	98	93.6	97.6
Percentage of students achieving AAB or more passes at A level						
	Barnet		Statistical Neighbours		National	
	2011	2012	2011	2012	2011	2012
Males	31.2	19.5	18.9	11	16.5	9.9
Females	30.4	14.7	19.7	9	17.6	7.2
All	30.8	17.0	19.3	10	17.1	8.4

The percentage of students gaining 2 or more A level passes improved slightly year-on-year, in line with national trends, but there was a significant fall in the percentage gaining AAB or equivalent. This again follows the national trend but, nevertheless, outcomes for Barnet students are better than national or for our statistical neighbours.

Most schools require a minimum standard of GCSE attainment before students are accepted onto A Level courses, but unvalidated performance data indicates that FSM pupils (who would also have to meet those minimum entry requirements) attainment at A level / Level 3 lags behind that of NFSM pupils. Further analysis must be undertaken to ascertain some of the reasons for this difference.
