1. WHY THIS REPORT IS NEEDED

1.1 Cllr Geof Cooke has requested a Member's Item on the following matter:

A report on the deployment of defibrillators in Barnet and measures taken to maximise the chance that someone nearby will know how to use them when required.

Defibrillators in London Borough of Barnet, March 2020

Background

Defibrillation is often an important step in cardiopulmonary resuscitation (CPR). CPR is an algorithm-based intervention aimed to restore cardiac and pulmonary function. Survival rates for out-of-hospital cardiac arrests are poor, often less than 10%. Use of a heart defibrillator within 3-5 minutes of a cardiac arrest increases the chance of survival from 6% to 74%. The average ambulance response time in the UK is 8-10 minutes.

Defibrillators in Barnet

After enquiries with the Councils' Head of Safety, Health and Wellbeing, Facilities Manager, Sports and Physical Activity Manager, General Manager and Head of Library Service it was established that there are 10 defibrillators in all the main council sites and installation of a further two in Capital Way and Print Hub is imminent. Current sites are:

- Barnet House
- NLBP, Building 2
- Colindale
- Oakleigh Depot
- Hendon Town Hall

Defibrillators at leisure centres are stored at or behind the reception with locations being:

- Burnt Oak
- Copthall
- Finchley Lido
- Hendon
- New Barnet

Of the 14 libraries and 2 community libraries access to defibrillators exists in:

- New Barnet Library
- Hendon
- Colindale

Costs of defibrillators

Costs identified by London Hearts are summarised below and an estimate of ensuring installation in all the council sites is outlined.

Cost of a defibrillator without the grant from London Hearts would be £1195. With the London Hearts grant offer of £200 per defibrillator included each additional defibrillator kit and training can be purchased for £995.

The defibrillators last for 10 years and batteries (included with the kit) need to be recharged at year 5. CPR /defibrillator awareness training for 50 staff is included in the price.

Installing defibrillators in all council sites i.e. the remaining libraries (11+ 2 community libraries) would require additional £12,935 investment. British Heart Foundation have an offer to organisations to apply for defibrillators with details of the offer in -
