## CHIPPING BARNET RESIDENTS' FORUM

Monday 10<sup>th</sup> January 2022, 7pm

**VENUE:** Virtual Meeting, please see further details [HERE](#)

**Chairman:** Councillor Thomas Smith

**Vice Chairman:** Councillor Nicole Richer

### ISSUES TO BE CONSIDERED AT THE FORUM

	Issue Raised	Response
1	<p><b>Issue:</b> Service Road off St Margaret's Avenue between the back of Manus Way and the shops on Totteridge Lane (no's c 28 and 56)</p> <p><b>Submitted by:</b> Anne Van Der Merwe</p> <p>Myself and neighbours are extremely concerned at the state of the service road which backs on to our gardens on Manus Way and the alley leading from it onto Totteridge Lane next to the tube station. It used to be cleaned/swept but this no longer happens. There is a serious rat problem for our houses backing on to the service road where the shops keep their rubbish bins which are always overflowing and rubbish is even left out in plastic bags. I reported the rat problem to paul.edmund charles@barnet.gov.uk in July and again in early September with a picture of a large rat in my garden very near the house but I have received no reply and nothing has been done as I am still finding evidence of rats. Other residents have the same problem. There have already been incidences of groups of noisy people drinking, swearing and taking drugs and I have personally seen drug use. This is definitely not something children in Manus Way should be exposed to. Alcohol bottles and cans are constantly left in the alley and service road which is also frequently used as a toilet. The alley and service road are used as a cut through from Totteridge &amp; Whetstone Underground Station to St Margaret's Avenue and the accumulated rubbish is a health hazard and an eyesore. With a Fish and Chip shop recently opened the smell of fish waste from the commercial waste bins is now also very unpleasant. The back garden gates of the houses on Manus Way open on to the service road and are the direct route used by adults and</p>

	<p>children to Totteridge Lane, Totteridge underground station and the Dollis Valley green space. The state of the service road and alley makes this hazardous. There are trees growing in the alley leading to the service road which before long will block the access and these should be removed.</p> <p>Trees and weeds removed, cleaning services to be reinstated and a gate installed across the alley which would limit access to residents and shop owners from the station end which would stop it being used as a thoroughfare for people drinking, drug taking, littering and using it as a public convenience.</p>	
2	<p><b>Issue:</b> Writing on behalf of the resident of Highwood Court, Potters Lane, Barnet a block of flats for the elderly people, regarding the traffic situation in Potters Lane, where is a passing place opposite our main entrance.</p> <p><b>Submitted by:</b> Elizabeth Clark</p> <p>Writing on behalf of the resident of Highwood Court, Potters Lane, Barnet a block of flats for the elderly people, regarding the traffic situation in Potters Lane, where is a passing place opposite our main entrance. The " Layby" is usually filled with parked cars, making the road only wide enough for one vehicle to pass. Cars coming down the full towards the Great North Road therefore mount the pavement, narrowly missing pedestrians. One of our residents had a car actually brush past him. One day someone could be killed. We urge the Council to act before such a tragedy occurs. We would therefore put forward one or both of the following suggestion to be applied.</p> <p>Change Potters Lane into a one-way street Install cameras with enforcement.</p>	
3	<p><b>Issue:</b> Heavy vehicles being driven along section of Osidge Lane.</p> <p><b>Submitted by:</b> Paul Lemon.</p>	

	Issue Raised	Response
	<p>Numerous residents in Osidge Lane have raised their concern that heavy vehicles being driven along the section of Osidge Lane east of Hampden Square are causing their houses to vibrate. Indeed, in at least one case, cracks in walls have appeared in a resident's house. Residents have also raised similar concerns with Tony Vourou and Giulia Monasterio.</p> <p>Please could officers investigate solution(s) to mitigate the problem detailed above.</p>
