

**MEETING**

**ENVIRONMENT COMMITTEE**

**DATE AND TIME**

**WEDNESDAY 15TH JULY, 2015**

**AT 7.00 PM**

**VENUE**

**HENDON TOWN HALL, THE BURROUGHS, LONDON NW4 4BQ**

**TO: MEMBERS OF ENVIRONMENT COMMITTEE (Quorum 3)**

Chairman: Dean Cohen  
Vice Chairman: Brian Salinger

Brian Salinger	Graham Old	Laurie Williams
Claire Farrier	Joan Scannell	Peter Zinkin
John Hart	Alan Schneiderman	
Dr Devra Kay	Agnes Slocombe	

**Substitute Members**

Lisa Rutter	Sury Khatri	Tim Robert
Stephen Sowerby	Adam Langleben	Nagus Narenthira

**You are requested to attend the above meeting for which an agenda is attached.**

**Andrew Charlwood – Head of Governance**

Governance Service contact:  
Paul Frost  
paul.frost@barnet.gov.uk

Media Relations contact: Sue Cocker 020 8359 7039

**ASSURANCE GROUP**

## ORDER OF BUSINESS

Item No	Title of Report	Pages
1.	Minutes of the previous meeting	1 - 6
2.	Absence of Members	
3.	Declarations of Members' Disclosable Pecuniary Interests and Non-Pecuniary Interests	
4.	Report of the Monitoring Officer (if any)	
5.	Public Questions and Comments (if any)	
6.	Members' Items	
a)	Members Item - Councillor Alan Schneiderman - Street Trading Policy	7 - 10
b)	Members Item - Councillor Dr Devra Kay - Air Pollution	11 - 14
7.	Planned Maintenance Q1 - Update	15 - 136
8.	Backlog of Highway Works for Area Committees	137 - 148
9.	Committee Forward Work Programme	149 - 158
10.	Any Other Items that the Chairman Decides are Urgent	

### FACILITIES FOR PEOPLE WITH DISABILITIES

Hendon Town Hall has access for wheelchair users including lifts and toilets. If you wish to let us know in advance that you will be attending the meeting, please telephone Paul Frost 020 8359 2205 paul.frost@barnet.gov.uk. People with hearing difficulties who have a text phone, may telephone our minicom number on 020 8203 8942. All of our Committee Rooms also have induction loops.

## **FIRE/EMERGENCY EVACUATION PROCEDURE**

If the fire alarm sounds continuously, or if you are instructed to do so, you must leave the building by the nearest available exit. You will be directed to the nearest exit by uniformed custodians. It is vital you follow their instructions.

You should proceed calmly; do not run and do not use the lifts.

Do not stop to collect personal belongings

Once you are outside, please do not wait immediately next to the building, but move some distance away and await further instructions.

Do not re-enter the building until told to do so.

## Decisions of the Environment Committee

11 June 2015

Members Present:-

AGENDA ITEM 1

Councillor Dean Cohen (Chairman)  
Councillor Brian Salinger (Vice-Chairman)

Councillor Claire Farrier  
Councillor John Hart  
Councillor Dr Devra Kay  
Councillor Graham Old  
Councillor Joan Scannell

Councillor Agnes Slocombe  
Councillor Laurie Williams  
Councillor Adam Langleben (In place of  
Alan Schneiderman)  
Councillor Stephen Sowerby (In place of  
Peter Zinkin)

Also in attendance

Apologies for Absence

Councillor  
Alan Schneiderman

Councillor Peter Zinkin

### 1. MINUTES OF THE PREVIOUS MEETING

RESOLVED – That the Minutes of the meeting held on 10 March 2015 be approved

### 2. ABSENCE OF MEMBERS

An apology for absence was received from Councillor Peter Zinkin who was substituted by Councillor Stephen Sowerby, and Councillor Alan Schneiderman who was substituted by Adam Langleben.

### 3. DECLARATIONS OF MEMBERS' DISCLOSABLE PECUNIARY INTERESTS AND NON-PECUNIARY INTERESTS

There were none.

### 4. REPORT OF THE MONITORING OFFICER (IF ANY)

None

### 5. PUBLIC QUESTIONS AND COMMENTS (IF ANY)

Details of the Public Questions and the answers given by the Chairman were circulated and published on the Council's website prior to the meeting. There were no supplementary questions asked at the meeting.

A Public Comment was received from Mr Derek Dishman.

## 6. MEMBERS' ITEMS

### (a) **MEMBER'S ITEM - SINGLE YELLOW LINES ON A BANK HOLIDAY - COUNCILLOR DEAN COHEN**

The Committee considered a Members' Item submitted by Councillor Dean Cohen which requested Members of the Committee to consider the communication of parking enforcement on single yellow lines.

Having considered the Member's Item and oral representation from Councillor Dean Cohen the Committee:

Resolved:

- That the report be noted
- That the Committee agreed to instruct the Commissioning Director for Environment to submit a report to the Committee that:
  - Outlines a full range of options including cost
  - Addresses signage at locations where most PCN's are issued
  - Provides detail on the impact of the Borough not taking enforcement action on Sundays
  - Provides a definition of what bank holidays are and the implication this has on the Council's Highways

### (b) **MEMBER'S ITEM - BARNET COPTHALL, ALLIANZ PARK - CPZ - COUNCILLOR JOHN HART**

The Committee considered a Members' Item submitted by Councillor John Hart which requested Members of the Committee to consider controlled parking zone within the Mill Hill Ward.

Having considered the Member's Item and oral representation from Councillor Dean Cohen the Committee:

Resolved:

- That the report be noted
- That the Committee agreed to instruct the Commissioning Director for Environment to submit a report to the Committee that:
  - Outlines signage at locations
  - Request that the Committee consider the communication options, including engagement with Saracens.

## **7. TRANSFER OF SUMMERS LANE CARC**

The Commissioner Director for Environment presented the report.

Following discussion and consideration of the item the Committee;

RESOLVED:

- That the Environment Committee agreed to transfer the Summers Lane Civic Amenity and Recycling Centre to North London Waste Authority from 4 October 2015, which is Option B in this report.
- That the Environment Committee agree to delegate to the Commissioning Director for Environment in conjunction with the Street Scene Director permission to instruct Property Services in order to negotiate and enter into a lease with the North London Waste Authority.
- That the Committee agreed to add a break clause in respect the contractual agreements.

## **8. ROLE OF AREA COMMITTEES - MANAGING HIGHWAYS PRIORITIES**

The Commissioner Director for Environment presented the report.

Following discussion and consideration of the item the Committee;

RESOLVED –

- That the Environment Committee noted the report and the relationship with Area Committees.
- That the Environment Committee noted the potential opportunities to deliver local environmental priorities by devolving a proportion of CIL funding to Area Committee budgets, subject to agreement from Policy & Resources Committee on 09 July 2015.
- That the Environment Committee instructs the Commissioning Director for Environment to establish relevant guidance for Area Committees to follow, as outlined in section 1.18 of the report
- That the Committee note that decision made by Area Committees be in line with Council policy.

Having been put to the vote the Committee voted:

- In Favour: 6
- Against: 0
- Abstain: 5

## **9. SCHOOLS PERMIT ENGAGEMENT**

The Commissioner Director for Environment presented the report.

Following discussion and consideration of the item the Committee;

Resolved:

- That the Environment Committee agreed to proceed to consult on the introduction of a Schools Permit Scheme with all parking permit holders and residents that live in a CPZ where a school is located.
- That Environment Committee agreed that any scheme should seek to ensure residents can park as near to their home as possible by offering a maximum number of permits to a school based on the availability of parking space and where schools determine which staff receives those parking permits.
- That the Committee noted that the School should have a school travel plan
- The Committee noted that any further decision required by the Committee be reported back to a future meeting.

## **10. MOVING TRAFFIC CONTRAVENTIONS**

The Commissioner Director for Environment presented the report.

Following discussion and consideration of the item, the Committee

RESOLVED -

- That the Committee noted the powers available to the Council under the London Local Authorities and Transport for London Act 2003, regarding Civil Enforcement of Moving Traffic Contraventions.
- That the Committee agreed to make a recommendation to Full Council to approve that the enforcement responsibility is transferred from the Police to the Traffic Authority (the Council) and that the Council will use the London Local Authorities and Transport for London Act 2003 (LLA & TfL Act 2003) to take on the Civil Enforcement of certain moving vehicle contraventions (Moving Traffic Contraventions, MTC) with an anticipated 'Appointed Day' of 1 January 2016.
- That Committee agreed to delegate to the Commissioner Director for Environment to make a submission to London Councils to seek the necessary approvals from The London Councils Transport and Environment Committee (TEC) to commence MTC enforcement.
- That Committee agreed to delegate authority to the Director of Commercial and Customer Services to be responsible for the exercise of the civil enforcement powers and to allocate responsibility to such Officers as may be required to act on their behalf.
- That Committee noted that a substantial public communications plan and awareness campaign will be carried out during the project. This is to ensure the schemes objectives are sufficiently published and that to Barnet residents and the

public are fully aware of the approved Parking Policy's aims and objectives for introducing MTC.

- The Committee agreed that following a report to Full Council (as captured above) the Environment Committee receive a report that seeks approval of the locations whilst providing the Committee with an update.

## **11. COMMITTEE FORWARD WORK PROGRAMME**

Resolved:

The Committee noted the report.

## **12. ANY OTHER ITEMS THAT THE CHAIRMAN DECIDES ARE URGENT**

The Chairman requested an update regarding the Council's street trading policy which was received.

Resolved:

- That the Committee receive a report at a future meeting which provides information on the Council's position on this matter which includes the status of the Edgware market and any highways issues that may require a decision.

The meeting finished at 9.05 pm

## Environment Committee

15 July 2015

<b>Title</b>	<b>Member's Item – Impact of street trading policy on high streets and town centres – Councillor Alan Schneiderman</b>
<b>Report of</b>	Head of Governance
<b>Wards</b>	All
<b>Status</b>	Public
<b>Enclosures</b>	None
<b>Officer Contact Details</b>	Paul Frost, Governance Team Leader Email: <a href="mailto:paul.frost@barnet.gov.uk">paul.frost@barnet.gov.uk</a> Tel: 020 8359 2205

### Summary

The report informs the Environment Committee of a Member's Item and requests instructions from the Environment Committee.

### Recommendations

1. That the Environment Committee instructions in relation to this Member's item are requested.

## **1. WHY THIS REPORT IS NEEDED**

- 1.1 Councillor Alan Schneiderman has requested that the Environment Committee consider a Member's Item relating to the impact of street trading policy on high streets and town centres.
- 1.2 Councillor Alan Schneiderman notes that the Council is currently consulting on changes to street trading policy and changes to fees, which will affect shops and cafes placing goods or tables and chairs on the street. Councillor Alan Schneiderman therefore requests that:
- The Environment Committee consider any potential impact that these changes may have on the number of visitors to Barnet's high streets and town centres and to parking occupancy rates.
  - The Environment Committee consider making comments that will feed into the ongoing consultation and be considered by the Licensing Committee on 20 July 2015. This Committee is expected to receive a report that reviews consultation responses on the draft Street Trading Policy and will be considering the adoption of final Policy.
  - That relevant Officers are present to answer any questions that the Committee may have.

## **2. REASONS FOR RECOMMENDATIONS**

- 2.1 No recommendations have been made. The Environment Committee are therefore requested to give consideration and provide instruction.

## **3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED**

- 3.1 Not applicable.

## **4. POST DECISION IMPLEMENTATION**

- 4.1 Post decision implementation will depend on the decision taken by the Committee.

## **5. IMPLICATIONS OF DECISION**

### **5.1 Corporate Priorities and Performance**

- 5.1.1 As and when issues raised through a Member's Item are progressed, they will need to be evaluated against the Corporate Plan and other relevant policies.

### **5.2 Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

- 5.2.1 None in the context of this report.

### **5.3 Legal and Constitutional References**

5.3.1 The Council's Constitution Meeting Procedure Rules (section 6) states that a Member, including appointed substitute Members of a Committee may have one item only on an agenda that he/she serves. Members items must be within the term of reference of the decision making body which will consider the item.

5.3.2 There are no legal references in the context of this report.

#### **5.4 Risk Management**

5.4.1 None in the context of this report.

#### **5.5 Equalities and Diversity**

5.5.1 Member's Items allow Members of a Committee to bring a wide range of issues to the attention of a Committee in accordance with the Council's Constitution. All of these issues must be considered for their equalities and diversity implications.

#### **5.6 Consultation and Engagement**

5.6.1 None in the context of this report.

### **6. BACKGROUND PAPERS**

6.1 Email to the Governance Service on 3 July 2015.

This page is intentionally left blank

AGENDA ITEM 6b

## Environment Committee

15 July 2015

<b>Title</b>	<b>Member's Item – Air pollution in Barnet – Councillor Dr Devra Kay</b>
<b>Report of</b>	Head of Governance
<b>Wards</b>	All
<b>Status</b>	Public
<b>Enclosures</b>	None
<b>Officer Contact Details</b>	Paul Frost, Governance Team Leader Email: <a href="mailto:paul.frost@barnet.gov.uk">paul.frost@barnet.gov.uk</a> Tel: 020 8359 2205

### Summary

The report informs the Environment Committee of a Member's Item and requests instructions from the Environment Committee.

### Recommendations

1. That the Environment Committee instructions in relation to this Member's item are requested.

## **1. WHY THIS REPORT IS NEEDED**

- 1.1 Councillor Dr Devra Kay has requested that the Environment Committee consider a Member's Item relating to air pollution in Barnet.
- 1.2 Councillor Dr Devra Kay notes that air pollution is a growing problem across Barnet. It is therefore requested that the Environment Committee consider the following:
  - The level of air pollution in Barnet and where the hot spots are.
  - The level of air pollution around Barnet's schools.
  - How air pollution in Barnet is currently monitored.
  - What action the Council is currently taking to reduce air pollution and what more can be done.
  - That relevant Officers are present to answer questions

## **2. REASONS FOR RECOMMENDATIONS**

- 2.1 No recommendations have been made. The Environment Committee are therefore requested to give consideration and provide instruction.

## **3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED**

- 3.1 Not applicable.

## **4. POST DECISION IMPLEMENTATION**

- 4.1 Post decision implementation will depend on the decision taken by the Committee.

## **5. IMPLICATIONS OF DECISION**

### **5.1 Corporate Priorities and Performance**

- As and when issues raised through a Member's Item are progressed, they will need to be evaluated against the Corporate Plan and other relevant policies.

### **5.2 Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

- None in the context of this report.

### **5.3 Legal and Constitutional References**

- The Council's Constitution Meeting Procedure Rules (section 6) states that a Member, including appointed substitute Members of a Committee may have one item only on an agenda that he/she serves. Members items must be within the term of reference of the decision making body which will consider the item.

- There are no legal references in the context of this report.

#### **5.4 Risk Management**

- None in the context of this report.

#### **5.5 Equalities and Diversity**

- Member's Items allow Members of a Committee to bring a wide range of issues to the attention of a Committee in accordance with the Council's Constitution. All of these issues must be considered for their equalities and diversity implications.

#### **5.6 Consultation and Engagement**

- None in the context of this report.

### **6. BACKGROUND PAPERS**

- 6.1 Email to the Governance Service on 3 July 2015.

## **Summary**

**This report updates the Committee on progress during the first 3 months delivering the 2015-16 Network Recovery Plan (NRP) Highways Planned Maintenance programme, year 1 of an agreed £50m 5 year funded strategy. The year 1 works investment is £13.56m.**

**It explains changes made to the scheme content as a result of a reduction in the percentage apportionment of budget to carriageways and the increase in budget allocation for footways.**

**The report explains the Code of Practice best practice and best value approach to identifying and prioritising planned asset maintenance applying a risk based Operational Network Hierarchy. It proposes an additional £2m allocation to footway maintenance to support the Network Recovery Plan. A key aspect of the Network Recovery approach is the application of cost effective maintenance treatments to not only repair but also take early preventative action, and to take into account not just the initial cost but also the long term whole life cost of ongoing maintenance.**

## **Recommendations**

- 1. That the Committee agree the updated list of planned maintenance carriageway and footway schemes to be progressed in 2015-16 (Appendices C1, C2, C3, and C4 ) within the available Network Recovery Plan budgets be duly noted for information**
- 2. That the Committee agree the recommended additional footway scheme sites (Appendix C1a) be approved.**
- 3. That the Committee note the details for drainage/structures and road marking schemes**
- 4. That the Committee agree the carriageway schemes deferred in 2015-16 (C2a, C3a and C4a) due to revised budget allocations be prioritised as part of a process later in the year to recommend a 2016-17 network recovery plan programme applying the operational network hierarchy and current condition survey information.**
- 5. That the Committee agree an additional programme of flexible footway schemes be prioritised and agreed for implementation. The programme to be prepared using the operational network hierarchy, current condition survey information and guidelines for appropriate asset management treatments and funded from the £2m the current capital budget**

## 1. WHY THIS REPORT IS NEEDED

- 1.1 This report is needed to provide the Committee with an update on the progress of the 2015-2016 Network Recovery Plan Highway Planned Maintenance programme at the end of quarter 1 i.e. the first 3 months of Year 1 of the 5 Year programme. The report explains any significant changes that have occurred since the 27th January 2015 Environment Committee report. Changes to schemes have been required by works planning coordination restrictions, detailed site specific surveys and clarification of actual contractor works costs.
- 1.2 The January Environment Committee report on the Highways Planned Maintenance Programme was presented by the Interim Commissioner for Environment. The report set out a proposed percentage split of budget between carriageways, footways and structures/drainage/Signs & Road Markings (refer. paragraph 5.2.3).
- 1.3 Following discussion and consideration of the item the Committee amended the percentages listed in table 5.2.3 as follows:-

Asset	Proposed Approximate Percentage Spent
Carriageways (Resurfacing 15%, Micro Asphalt 20% & Surface Dressing 25%- approximately)	<del>60%</del> 40%
Footways	<del>30%</del> 50%
Structures, Drainage, Signs and Road Markings	10%
Total	100%

- 1.4 The Network Recovery Plan is a substantial 5 year investment with a phased total works allocation in 2015-16 of £13.58m. The footway schemes NRP allocation is £6.8m, the carriageway allocation £5.4m and an allocation of £1.36m for a combination of drainage, structures and road markings.
- 1.5 The budget apportionment change has resulted in the following significant changes to the schedules of schemes that were listed in the 24th January 2015 report appendices.
- (i) The Surface Dressing programme now comprises 138 locations. 189 listed locations will not be progressed in 2015-16 (see Appendices C2 and C2a) but will be considered for the 2016/17 programme.
  - (ii) The Microasphalt programme now comprises 79 locations. 197 listed locations will not be progressed in 2015-16 (see Appendix C3 and C3a)

- (iii) On footways, the Appendix to the report listed 133 locations but a programme containing 78 schemes was confirmed at the time. 73 schemes in the original footway programme will be progressed based on defined priority works extents informed by site inspections with 5 schemes deferred as a result of work clashes. (see Appendix C1)
  - (iv) 6 new additional footway schemes have been identified (see Appendix C1a) that can be funded from the current NRP budget as a result of the increased percentage of budget assigned to footways. These schemes have been identified and prioritised by analysis of actual safety defect repair activity over the last 6 months and insurance claims. This data provides a good indicator of need and relative asset deterioration. This approach will assist in transforming the balance of LBB maintenance expenditure from expensive reactive works to more cost effective planned works. This analysis has been made possible by the investment in the EXOR maintenance management system and GIS analysis tools. Appendix C7 illustrates the data analysis. *Section 1.18 of this report proposes a further investment in planned footway maintenance using the same prioritisation process which will increase the number of additional schemes*
  - (iv) The carriageway surfacing programme now comprises 27 locations. 40 listed locations will not be progressed in 2015-16 (see Appendices C4 and C4a)
- 1.6 Good progress has been to ensure that critical elements of the NRP programme that are weather sensitive are undertaken during the summer/early autumn weather window. The surface dressing programme has already commenced and the microasphalt programme is scheduled to commence in August. These programmes are scheduled for completion in September and October respectively. Since April, regular map view communications have been sent to Members to advise on planned maintenance activity in the forthcoming months and also levels of reactive maintenance activity. The service currently projects that circa £6-6.5m will have been delivered by the end of September. An example of the advance communications is included at Appendix C10.
- 1.7 A key aspect of the Network Recovery approach is the application of cost effective maintenance treatments to not only repair but also take early preventative action and to take into account not just the initial cost but also the long term whole life maintenance cost. Appendix C9 contains a leaflet which helps explain the purpose and role of different maintenance treatments.
- 1.8 Long term maintenance costs are a very important consideration and a critical part of decision making on footway \surfacing type. The two most important considerations are:-
- vehicles parking on the footway either 2 wheel or 4 wheel (and vehicles crossing driveway) and
  - managing tree roots whilst keeping the characteristic treescape.

In addition, practical considerations can dictate choice of material i.e. narrow footways typically less than 1.2m wide are better suited to a flexible tarmac type construction.

Guidelines for reviewing and determining the appropriate footway specification (flexible or slabbed) are being developed to ensure consistency of application.

- 1.9 Some of the changes to the programme content detailed above have been influenced by contractor actual costs and in particular the requirements around the treatment of excavated footway material. The LBB Contractor advised that a U1B cost rate is applicable for excavated materials deemed to be contaminated in construction disposal terms and that even small quantities cannot operationally be segregated. A joint testing programme is in place to validate the U1B classification. Subject to the outcomes of the tests it may be possible to increase the number of additional schemes.
- 1.10 Unit rate costs for footway maintenance treatments based on the current LBB LoHAC contract actual rates have been tabulated. Unusually flexible construction (bitumen) footways and precast concrete slabs (ASP) rates are broadly similar in terms of initial cost. There are however significant concerns over the commercial sustainability of the framework rates for footways based on discussions with the current LBB Contractor. Re, on behalf of LBB, is considering different contractor/sub contractor procurement options for 2016-17 and beyond.
- 1.11 In terms of value for money the unit rate construction costs is only one initial part of the long term whole life costs that will build up over a period of 20-30 years. Transport Road Laboratory TRL reports have validated that in terms of the long term whole life costs, flexible construction in footways is more cost effective long term (and generally at unit cost stage). An important part of the benefit being the reduction in third party claims deriving from paving slab trips mainly due to their propensity to crack if overrun by vehicles. Over running of footways is a common occurrence in urban authorities.
- 1.12 The carriageway surfacing schemes that are not able to be progressed this financial year will be rolled forward as a priority for year 2 of the programme
- 1.13 The prioritisation review for the additional footway schemes has applied the Operational Network Hierarchy (ONH) and data on actual reactive safety defect repair works and insurance claim incidents. This approach will ensure that planned maintenance works on the LBB network objectively achieve best value asset maintenance by targeting those parts of the network that are currently generating the most reactive maintenance service. In addition to regular inspection demands and the need for costly reactive maintenance this risk based approach has a direct link to the reduction in third party insurance claims. It is recommended that any reduction in reactive maintenance should be re-assigned and invested in the planned maintenance programme, in line

with asset management good practice to help sustain the network improvements.

- 1.14 In addition to the carriageway and footway maintenance programmes, programmes are progressing in respect to Drainage, Structures assessments and repairs and a programme of road markings refresh.
- 1.15 Walked inspections and surveys of the Council's three ordinary watercourses are being planned. The Committee should note that the Council has been successful in securing two grants from the Environment Agency, as part of their 6-year investment programme: £20K for a flood alleviation scheme in the Decoy Brook catchment and £25k to carry out a detailed study on a flood alleviation scheme at Mill Hill Circus. Given the additional EA funding, it is proposed that Decoy Brook watercourse should be prioritised with the walked inspections and surveys. This is expected to take place in the next month.
- 1.16 Following a risk assessment the Council's structures requiring load assessment have been grouped into three groups of 20. Competitive quotations are currently being obtained from qualified consultants with a view to carry out the load assessment of the first 40 structures this year. The Committee should note that one of the two structures load assessed last year, Deansbrook Road Bridge, failed its assessment and all available options to strengthen the bridge are currently being considered.
- 1.17 A programme to renew the road markings of all pelican crossings in the Borough, at some 75 locations, has started and is expected to be completed in August. This will be followed by the commencement of a five year cyclic renewal of all road markings in the Borough. This renewal is planned so as to avoid roads that are currently planned for carriageway treatments in the near future.
- 1.18 To support the Network Recovery Plan it is recommended that the allocation of £2m currently in the capital allocation for footways be applied to a programme of flexible treatment footways to address risk based needs and to maximise the total area of the footway network which will benefit from planned maintenance. The proposed programme of footway schemes to benefit from the £2m allocation is currently being prepared as mentioned in Appendix C1b. The schemes to be identified and put forward would follow analysis of the relative condition of parts of the network as informed by actual safety defects being raised over the past 6 months in accordance with the LBB Safety Defect intervention levels, together with claims activity. The list will also be based on prioritisation using the Operational Network Hierarchy to ensure that footways with the highest level of pedestrian activity are tackled first.
- 1.19 LIP funded accessibility schemes will, where appropriate, be incorporated within the planned maintenance programme. The LIP programme is tabulated at Appendix C5

- 1.20 A programme of LBB Parking Policy implementation – formalisation of footway parking schemes is being progressed in coordination with other planned maintenance programme works.
- 1.21 A recommended 2016-17 planned maintenance programme will be presented to the December Committee to ensure that the necessary Permits and contractor programming arrangements will be in place for maintenance works to commence promptly in April 2016.
- 1.22 The effectiveness of the LBB Network Recovery Plan investment will be monitored throughout the 5 year period by reference to key indicators including customer satisfaction, levels of service requests, the balance between reactive and planned maintenance expenditure, and national condition indicators.

## **2. REASONS FOR RECOMMENDATIONS**

- 2.1 The recommendations are required to confirm approval for operational adjustments to the programme content, including deferred and additional schemes, arising from changes to budget apportionments, clarification of operational details and actual contractor costs. The recommendations also request approval for the allocation of a total of £2m to tackle increased footway maintenance.

## **3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED**

This section of the report does not apply to this report.

## **4. POST DECISION IMPLEMENTATION**

The agreed programme will continue to be implemented.

## **5. IMPLICATIONS OF DECISION**

### **5.1 Corporate Priorities and Performance**

- 5.1.1 The Council's Corporate Plan states in its strategic objectives that it will work with local partners to create the right environment to promote responsible growth, development and success across the Borough. In particular the Council will maintain a well-designed, attractive and accessible place, with sustainable infrastructure across the borough. The plan also acknowledges that the future success of the Borough depends on effective transport networks.

### **5.2 Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

- 5.2.1 The £13.6m of highways maintenance programme will be funded from the £15m agreed in the capital programme in March 2015 by Full Council.

5.3 The £2m required for flexible footways will be funded by the current £2m agreed in the capital programme for footways and highways.

5.3.1 The Network Recovery Plan planned maintenance programme as informed by the Operational Network Hierarchy will support optimum value for money from expenditure for LBB Highway Maintenance Managed Budgets.

- cost effective whole life costs (over 20 years) through maintenance treatments suited to the road/footway conditions, in particular instances of footway parking and vehicle overrun.
- cost effective use of preventative treatments that seal the surface and fill in early stage defects– the “stitch in time saves nine” principle.
- a positive transformation from costly and disruptive reactive maintenance ‘patching’ to planned maintenance
- reducing LBB financial risk of insurance claim incidences.

#### 5.4 Legal and Constitutional References

5.4.1 Highway Maintenance is a statutory duty under the Highways and Traffic Management Acts.

5.4.2 The Council’s Constitution (Responsibly for Functions, Annex A) gives the Environment Committee certain responsibilities related to the street scene including pavements and all classes of roads, parking provision and enforcement, and transport and traffic management including agreement of the London Transport Strategy Local Implementation Plan.

#### 5.5 Risk Management

5.5.1 The Operational Network Hierarchy that is being used to formulate the Network Recovery Plan programme is a key element of the risk management approach.

#### 5.6 Equalities and Diversity

5.6.1 Street design should be inclusive, providing for all people regardless of age or ability. There is a general duty for public authorities to promote equality under the 2010 Equality Act. There is also a specific obligation for those who design, manage and maintain buildings and public spaces to ensure that disabled people play a full part in benefiting from, and shaping, an inclusive built environment.

Designers will be required to refer to Inclusive Mobility, The Principles of Inclusive Design and Guidance on the Use of Tactile Paving Surfaces (1999) in order to ensure that the designs are inclusive.

5.6.2 The 2010 Equality Act outlines the provisions of the Public Sector Equalities Duty which requires Public Bodies to have due regard to the need to:

1. eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010
2. advance equality of opportunity between people from different groups

3. foster good relations between people from different groups

The broad purpose of this duty is to integrate considerations of equality into day to day business and keep them under review in decision making, the design of policies and the delivery of services. As part of the consultation development a separate stakeholder management plan is being developed to ensure that equalities issues are incorporated into the policy development, consultation and implementation.

## **5.7 Consultation and Engagement**

- 5.7.1 The Network Recovery Planned Maintenance programme is subject to suitable advanced and ongoing communications with local members and residents in roads or footways affected by the works.
- 5.7.2 The current planned maintenance programme is included on the LBB Website.

**APPENDIX C9 – INFORMATION LEAFLET ON HIGHWAY MAINTENANCE SURFACE TREATMENTS**

Overleaf

## Road Surface Treatments Explained

As part of Barnet's £50 million investment into the Highway Network Recovery Plan there are a number of road surface treatments being proposed and this leaflet is intended to explain each treatment and answer frequently asked questions.

### Resurfacing and Surfacing works

**Resurfacing** involves planing off the existing surface of the road applying a "bituminous tack" coat and the application of a new surface. The depth of the area being treated is dependent on the condition of the road and could comprise several layers of material.

**Surfacing** is when a new surface is laid on to the current road surface.

In both cases adjustment to manhole, drain covers and all ironwork may be needed.

**Surface Dressing** is a process that entails spraying the existing road with a bituminous material and covering it with coated or uncoated stone chippings which are rolled embedding the chips into the surface.

The excess chips are then removed by mechanical sweeping, the first sweep

within 48 hours followed generally by two other sweeps to remove any surplus loose chippings in the following week.

There may be some pre-patching works to the road prior to the surface dressing to reinstate any defective surface areas such as old and poor reinstatements.

**Micro Asphalt** surfacing is where a thin slurry mix is applied to the existing road surface using a specialist vehicle. Pre-patching may still be required to repair any defective areas, but adjustment to manholes and ironwork is generally not required. Each of the above treatments has different benefits, longevity and associated costs. Some are more weather dependent and may take longer than others. Prior to work residents will be informed as to the proposed start and finish date.

### Frequently asked questions

#### How long does the process last?

In a majority of cases the works will normally be completed in 1 to 2 days. Where patching works are required, these will be completed in advance of the surface dressing and micro asphalt works.

#### When can I drive on the road?

The road will normally be opened immediately after works have been completed.

#### Can I park on the road?

On street parking will not be possible during the works in order to ensure a consistent finish from kerb to kerb.

#### Where can I park during the works?

We would request that you park in adjacent roads and the surrounding area until the work is complete.

#### Will the road be closed?

In order to ensure safety to the workforce and the public

the road will be closed for the duration of the works.

#### Can I gain access to my property?

Pedestrian access to your property will be maintained at all times.

**APPENDIX C10 – SURFACE DRESSING PROGRAMME – RESIDENT ADVANCE COMMUNICATION**

Overleaf

Dear Resident

**2015-2016 Highway Maintenance Work,  
Network Recovery Plan - Carriageway Surface Dressing Programme**

*Barnet Council, working with Re Ltd and Conway Aecom, is investing over £50M over the next 5 years to protect and resurface your roads and footways. We will work to keep disruption to a minimum, but please be patient while we are carrying out the work.*

*You can find more information about the planned programme of work on roads and pavements at: [www.barnet.gov.uk/plannedhighwayworks](http://www.barnet.gov.uk/plannedhighwayworks)*

As part of this investment **carriageway surface dressing works will be carried out in your road within the two weeks period starting on the 15<sup>th</sup> of June 2015, between 8.00 hrs and 17.00 hrs**. Surface dressing is expected to be completed within one day, after which the contractor will return to your road to remove any surplus or loose stones by mechanically sweeping the carriageway (generally on the 2nd and 7th day after the surface dressing works). Note surface dressing is extremely weather dependent, and in the event of adverse weather conditions it will be rescheduled to the next available dates.

Please help us to undertake these works by arranging to temporarily park your vehicle elsewhere before the work begins. Advance warning signs will be erected and notices distributed during the days leading up to the works, informing you of expected work times. The road will temporarily be closed during this period to allow works to take place and ensure the health and safety of residents and road users. Vehicular access to all homes will be maintained when it is safe to do so but some temporary restrictions will be necessary.

You will find more details about the planned carriageway treatment and how it will affect you on the reverse of this letter. Please visit the Council website [www.barnet.gov.uk/plannedhighwayworks](http://www.barnet.gov.uk/plannedhighwayworks) if you have any comments or further questions about the work or alternatively contact the **Highways Correspondence Team on 0208 359 3555**. In addition, staff will be available on site for the duration of the works to answer any queries you may have.

We would like to apologise in advance for any disruption caused by these works, and thank-you for your understanding, tolerance and co-operation whilst we are undertaking this operation to improve the carriageway.

**Re. Highways Network Management Team**

## Frequently Asked Questions

### 1. What is surface dressing and why is it going to be applied to my road?

Surface dressing is a carriageway treatment used to prolong the life of the road by many years. This is done by sealing the road surface and preventing water seeping in causing deteriorating and oxidisation of the road layers. This treatment will also make the road surface safer to traffic by providing the correct surface texture, grip and skid resistance.

### 2. What does surface dressing involve?

Surface dressing entails spraying the existing road with a bitumen emulsion and covering it with coated or uncoated chippings. These are then embedded onto the new surface by a pneumatic roller. Afterwards, excess chippings are removed by mechanical sweeping, typically the following 48 hours and 7 days.

Carriageway patching works may be required before surface dressing is applied if there are defective surface areas, such as old and poor reinstatements.

### 3. How will it affect me?

Although every effort is being made to keep disruption to a minimum, due to the nature of the works some disturbance is unfortunately inevitable. We would be grateful for your understanding and cooperation as explained below.

#### • Before

To enable works to be carried out safely and consistently from kerb to kerb, no parking will be allowed on the street, starting from the night before works commence. We would request that you park in adjacent roads and the surrounding areas until the work is complete.

Where patching works are required, these will be done in advance of surface dressing works. In some cases the prohibition of parking will be brought forward to cover these times.

#### • During

The road will be closed to traffic for the entire duration of the works, expected to be within one day between 8.00am and 5.00pm. You will be notified of planned dates and times at your road by signs and notices distributed prior to the work.

Pedestrian access to properties will be maintained at all times. You may experience delays if you require vehicular access, especially if plant is operating directly in front of your entrance.

#### • After

The road will normally be opened to traffic immediately after works have been completed. Road markings will be reinstated soon after. This will not require road closures, but temporary speed restrictions may apply and will be signed accordingly.

2 and 7 days after works have been completed, sweeping will occur. This will require prohibition of parking and a short closure of the road, please refer to the point above.

**Please be aware there may be an excess of chippings on the road for a period of time after completion. This is normal**, and will disappear shortly. Temporary 20mph speed limit signs will be erected to avoid dispersment of loose chippings. In the meantime, please check shoes to avoid damage to floors and soft fixtures, and pay extra care when driving or walking on the road.

## Environment Committee

15 July 2015

<b>Title</b>	<b>Backlog of Highway Works for Area Committees</b>
<b>Report of</b>	Commissioning Director - Environment
<b>Wards</b>	All
<b>Status</b>	Public
<b>Enclosures</b>	Appendix A: Backlog
<b>Officer Contact Details</b>	Richard Chalmers <a href="mailto:Richard.chalmers@capita.co.uk">Richard.chalmers@capita.co.uk</a>

### Summary

This report relates to the backlog of historical highway works matters generated through Area Committees and those which are not in the current 2015/16 programme and currently unfunded will be progressed and funded by the LBB capital allocation of £1m budget.

### Recommendations

1. That the Committee approve progression of the unfunded works in the backlog list totalling £705,000 to be funded from the capital allocation of £1m.

## **1. WHY THIS REPORT IS NEEDED**

- 1.1 The recent review of the highways programme has identified a number of long outstanding highway related matters which have been generated through Area Committees and have never been progressed for a variety of reasons, but mainly due to lack of funding.
- 1.2 This historical “backlog” list has been compiled from a number of sources, namely requests from previous Area Committees and, although not exhaustive, indicates the current status of each request.
- 1.3 A number are already programmed and funded as shown in Appendix A, but those unfunded will form the basis of the work to be undertaken with the £1 million budget allocation from capital funding. The list includes a number of requests which require initial investigation, feasibility, preliminary or detailed design, but the majority of the funding will be used to implement the works.

## **2. REASONS FOR RECOMMENDATIONS**

- 2.1 The recommendation requests approval for the allocation of a total of £1m to tackle a range of historical matters listed in Appendix A generated through the Area Committees and which are currently unfunded.

## **3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED**

This section of the report does not apply to this report.

## **4. POST DECISION IMPLEMENTATION**

- 4.1 The issues from the backlog list will be added to the future work programmes for the Area Committee and the Environment Committee, and the work programmes of each Committee adjusted to reflect the process from 2016/17 onwards.

## **5. IMPLICATIONS OF DECISION**

### **5.1 Corporate Priorities and Performance**

- 5.1.1 The recommendations set out in this report further the principles of the Corporate Plan 2015-2020 by seeking to ensure that Area Committee operations and the resources they allocate improve quality of life for people in each local area, support communities to help themselves, and work efficiently to ensure value for money.
- 5.1.2 The decision will contribute to the Health and Wellbeing Strategy’s aim to improve wellbeing in the community by helping local people get issues in their area resolved more effectively and giving Area Committees and Residents’ Forums the tools they need to ensure this.

## **5.2 Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

5.2.1 The £1m of funding required for these works is in the capital programme and was agreed by Full Council in March 2015.

## **5.3 Legal and Constitutional References**

5.3.1 The Council's Constitution (Responsibly for Functions, Annex A) gives the Environment Committee certain responsibilities related to the street scene including pavements and all classes of roads, parking provision and enforcement, and transport and traffic management including agreement of the London Transport Strategy Local Implementation Plan.

## **5.4 Risk Management**

5.4.1 The proposals set out in this report and its appendices are designed in part to mitigate the risks of not resolving the issues identified with Area Committee and Residents' Forum operations. In particular, any continuing lack of action in resolving the outstanding issues identified by Area Committees – particularly in relation to highways schemes – risks damaging the reputation of the Area Committees and the Council as a whole as local people's expectations have been raised and have neither been met (through delivery of the schemes) or managed (through clear communication about their status).

## **5.5 Equalities and Diversity**

5.5.1 Street design should be inclusive, providing for all people regardless of age or ability. There is a general duty for public authorities to promote equality under the 2010 Equality Act. There is also a specific obligation for those who design, manage and maintain buildings and public spaces to ensure that disabled people play a full part in benefiting from, and shaping, an inclusive built environment.

Designers will be required to refer to Inclusive Mobility, The Principles of Inclusive Design and Guidance on the Use of Tactile Paving Surfaces (1999) in order to ensure that the designs are inclusive.

5.5.2 The 2010 Equality Act outlines the provisions of the Public Sector Equalities Duty which requires Public Bodies to have due regard to the need to:

1. eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010
2. advance equality of opportunity between people from different groups
3. foster good relations between people from different groups

The broad purpose of this duty is to integrate considerations of equality into day to day business and keep them under review in decision making, the design of policies and the delivery of services. As part of the consultation development a separate stakeholder management plan is being developed to ensure that equalities issues are incorporated into the policy development, consultation and implementation.

## **5.6 Consultation and Engagement**

- 5.6.1 The backlog list has been presented and reviewed by the Area Committees and accepted as draft list of historical matters.
- 5.6.2 Members, particularly the Chairs and Vice-Chairs of the Area Committees and Residents' Forums and the Chair, Vice-Chair and Opposition Spokesman of the Community Leadership Committee, have been consulted throughout the review and the development of the recommendations.

## **6. BACKGROUND PAPERS**

- 6.1 Hendon Area Committee 2 July 2015 – Review of Area Committee operations and delegated budgets.
- 6.2 Chipping Barnet Area Committee 2 July 2015 – Review of Area Committee operations and delegated budgets.
- 6.3 Finchley and Golders Green Area Committee 2 July 2015 – Review of Area Committee operations and delegated budgets.

CHIPPING BARNET							
Ref	Service Area	Request	Response	Raised by	Status	Indicative unfunded costs	Funded
RE05	Traffic	High Barnet High Street – Traffic Scheme	The 2015/16 LIP programme includes the development of a proposal for improvement at the High Street / Wood Street junction and changes at the Park Road junction and bus stops on the southern part of the High Street. A brief to commission the design work for these proposals is being developed this month (June 2015). See also RE 17.	Chipping Barnet Area Committee	Active	£50,000	Feasibility Funded from 2015/16 LIP allocation
RE10		Highways	High Barnet- LIP scheme to build out the pavement, cycling lines and create a more welcoming public realm.	The Chipping Barnet town team have requested other changes (beyond those noted at RE5 above) in the area	Councillor David Longstaff	£50,000	Unfunded
RE11	Traffic & design	The Avenue/Alson Road – Request for a zebra crossing.	The Avenue pedestrian crossing is included within the 2015/16 LIP programme as part of the 'School Travel Plan Schemes' work area. Safety Audits on the TfL signal design have highlighted further technical issues with the detailed location. Feasibility of an alternative location is now under consideration.	Councillor David Longstaff	Active		Funded from 2015/16 LIP Programme
RE13	Parking	Request for a CPZ on Totteridge Lane and Birley Road N20 If residents in favour, wider consultation will be required Layout proposed and questionnaire sent to residents CPZ zone allows nobody to park 2pm-3pm Monday-Sunday unless they have a valid residents permit or visitors voucher	Statutory consultation scheduled to take place in early July 2015.	Chipping Barnet Area Committee	Active - Resident consultations to commence in June 15		LIP Funded
RE14	Traffic & design	Walksafe N14 & N10	The Walksafe N14 proposals are included in the 'School Travel Plan schemes' part of the 15/16 LIP programme. Currently programmed for consultation for both schemes is expected in the autumn with implementation late 2015/16.	Councillor Stephen Sowerby	Active		LIP Funded

RE15	Traffic & design	Town Centre Tweaks Cllr Dean Cohen requested adjustments in town centres e.g. sorting out the pizza bikes in Mill Hill Broadway	The work programme includes the following under Town Centre and Shopping Parade Reviews – Review of experimental measures in:  1. Totteridge lane N20 2. Russell Parade 3. Golders Green Road  DPR and Statutory Consultation on Parking Bay layout changes and relocation of Bus Stop in: High Road, East Finchley, N2	Councillor Dean Cohen	Items 1 to 3 on work programme to be undertaken in August 2015  On work Programme to be undertaken in August/September 2015	Fully Funded
RE16	Traffic & design	Zig Zags outside Beis Sorah Schneirer school in Wilberforce Road.	Consultation with Ward Councillors on a proposal is currently in progress as part of the internal approval process. Subject to internal approval being received, it is intended to carry out consultation in early July 2015.	Councillor Dean Cohen	Active	S106 Funded
RE22	Traffic & design	WOODHOUSE (SLIP) ROAD N12 - SAFETY & TRAFFIC MANAGEMENT REVIEW  (Chipping Barnet Residents Forum of 15 January 2014) To investigate moving the zebra crossing on Friern Barnet Road by the end of Beaconsfield Road to the OTHER side of Beaconsfield Road.	Works now completed	Chipping Barnet Area Committee	Closed	
RE23	Traffic & design	SAFETY OF VICTORIA ROAD IN EAST BARNET  Councillor Pauline Coakley Webb introduced the item and provided an overview of the safety issues raised by residents in the vicinity of Victoria Road in East Barnet..	No further action. (Road safety Audit carried out, Minor amendments made but agreed with Councillor (No Suggestions) that the position of the crossing would not be amended.)	Chipping Barnet Area Committee	Closed	
RE24	Traffic & design		The Chipping Barnet Area Committee approved a number of measures to improve pedestrian safety, manage speed and lorry movement in the area. However a number of residents were not supportive of the agreed measures and following a meeting in May 2015, they have requested that the council consider alternative measures. These will be reported as a Member's Item for consideration by the Environment Committee.	Chipping Barnet Area Committee		£100,000

RE26	Traffic & design	POLLARD ROAD TRAFFIC MANAGEMENT SCHEME (12 FEB 2015)	Pollard Road - the scheme, is included in the 2015/16 LIP work programme as part of a Traffic Management and Accident Reduction work area. Detailed design and consultation is expected to take place during 2015/16, with implementation in early 2016/17, subject to subsequent agreement of the 2016/17 programme.	Chipping Barnet Area Committee	Active	£50,000	Feasibility and Design Funded
RE27	Traffic & design	COUNCILLOR AMY TREVETHAN - CHESTERFIELD ROAD SAFETY MEASURES  The Committee heard representations from Councillor Amy Trevethan requesting an update on the feasibility study into road safety measures in and around Chesterfield Road EN5 including options for 20mph speed limits, the review into bus routes and direction of flow, along with bus stop and stand locations, any potential additional or improved crossing points in the area including near the school, any use of underutilised land near to the school to improve road safety, and operation of the local School Travel Plan.  The July Environment Committee tasked officers with producing this feasibility study, so that the Area Committee could make a decision on how to proceed	Feasibility study to start in September 2015	Chipping Barnet Area Committee	Active	£100,000	Feasibility funded from 2015/16 LIP allocation
RE28	Traffic & design	WELLHOUSE LANE PEDESTRIAN & SAFETY IMPROVEMENTS	Agreed Scheme to be progressed in stages. Zebra crossing on Wellhouse Lane is currently being implemented with the remaining measures to be implemented within the 15/16 Work programme.	Chipping Barnet Area Committee	Active		LIP + S106 Funding
RE46	Parking	Halton Close, Balmoral Close and 8 Surrounding Roads – Friern Village – Request from residents for Footway parking to be allowed	This issue was raised via the Area Forum .  On 2015/16 Work programme.	Chipping Barnet Area Committee	Active - Detailed Design September 2015 - Implementation by March 2016		Funded from agreed Footway Parking allocation
RE47	Parking	Chipping Barnet Town Centre Review of parking bay occupancy following request at Environment Committee and the Chairman's subsequent commitment	Further reviews to be agreed subject to funding and priority	Chipping Barnet Area Committee	Active	On hold	

FINCHLEY & GOLDERS GREEN						
Ref	Service Area	Request	Response	Raised by	Status	Indicative unfunded costs
RE03	Parking	<p>West Heath Road – change in CPZ operation</p> <p>- Resident reported that section of West Heath Road has single yellow lines with a restriction of 8am-8.30am and limited CPZ bays with one hour restrictions during day, resident requested restrictions to end at 7.30pm as family and friends cannot park on the street near his property</p> <p>- Concerns raised that certain sections of the road are narrow and probably does not support parking on the south side along lengths where there is a bay directly opposite, cutting back the restriction to end at 7.30pm could result in obstructive parking or undue narrowing the running width of the road</p> <p>- Requested residents address to see if changes would benefit resident</p>	<p>This request to amend a yellow line has been investigated. Consultation with Ward Councillors on a proposal is currently in progress as part of the internal approval process. Subject to internal approval being received, it is intended to carry out consultation in early July 2015.</p>	Finchley & Golders Green Area Committee	Active	Fully Funded
RE04	Traffic & Design	<p>Hocroft and Farm Avenue – Hocroft and Farm Avenue – installation of barriers</p> <p>Resident requested barriers in alleyway to prevent anti social use, but still need to allow passage for prams/wheelchairs etc</p>	<p>An inspection has now taken place to determine the locations where pedestrian guardrail barriers would best be suited and a works Order has been placed for the provision of pedestrian guardrail at 2 locations. It is anticipated that delivery of the guardrail will be approx. 3 weeks and will be erected on site accordingly. Councillor Zinkin has been informed of the agreed action.</p>	Councillor Peter Zinkin - FGG	Active	Fully Funded

RE07	Traffic	West Hendon Partnership – gyratory system  - 71 new homes built and residents will be moving in this new development in May. - Request for a pedestrian crossing to cross the two lane gyratory system near the entrance of the new flats	Vehicle Activated Sign will be installed in August whilst the feasibility study and design continue and implementation of works could commence in November subject to the final design decision.	Hendon Area Committee	Active		Developer Funded (\$278)
RE19	Parking	College Park Estate  Request from MATTHEW OFFORD, Member of Parliament for Hendon, for new waiting restrictions	This is a request for a new yellow line, which has been investigated. Consultation with Ward Councillors on a proposal is currently in progress as part of the internal approval process. Subject to internal approval being received, it is intended to carry out consultation in early July 2015.	Councillor Dean Cohen	Active		Fully Funded
RE21	Parking	Mowbray Road South – CPZ review	Investigative/consultation work scheduled to begin in the Autumn of 2015	Councillor Brian Gordon	Active	£50,000	Unfunded
RE31	Traffic & Design	Broadfields Avenue and Hale Lane experiencing traffic problems	Review of Parking and congestion completed. Officers are assessing the recommendations against other requests received to identify priorities. Options will be reported to the October Area Committee meeting with implementation in 2016/17.	Hendon Area Committee	Active	£50,000	Feasibility Funded
RE32	Traffic & Design	Burtonhole Lane NW7 - Speeding vehicles	Scheme not progressed as feasibility did not confirm evidence of speeding to warrant amendments.	Hendon Area Committee	Closed		
RE33	Traffic & Design	Request for Zebra crossing in Shirehall Lane	Initial investigation indicated that it was not feasible to implement a Zebra crossing in this location. - An assessment of other measures is being carried out currently to identify priority compared with other proposals. <b>Parking restrictions and possibly other low cost measures may assist.</b>	Hendon Area Committee		£35,000	Feasibility 2015/16
RE34	Traffic & Design	West Hendon Highway Issue	Feasibility study currently being undertaken in relation to Cool Oak Lane junction, Kingsbury Road junction and gyratory signage. To be considered as part of the proposed regeneration work in this area, which will result in road layout changes.	Hendon Area Committee		<i>Potential abortive work - on hold</i>	Unfunded
RE35	Traffic & Design	Silkstream Road Edgware	Detailed design currently being undertaken with a view to undertaking public consultation in June/July with subsequent implementation in 2015/16.	Hendon Area Committee	Active		LIP Funded

RE36	Traffic & Design	Oakleigh Gardens, Edgware - CPZ	Investigation and consultation to take place in 2nd half of 2015/16 financial year.	Active	£50,000	Feasibility Funded
RE37	Traffic & Design	Parking Restrictions and Waiting Restrictions on Tenterden Grove	Completed in 2014	Closed		
RE39	Traffic & Design	Mowbray Road CPZ - Petition received	Investigation and consultation to take place in 2nd half of 2015/16 financial year.	Active	£50,000	Feasibility Funded

<b>Officer Contact Details</b>	Paul Frost - Governance Service, Team Leader <a href="mailto:paul.frost@barnet.gov.uk">paul.frost@barnet.gov.uk</a> 020 8359 2205

<b>Summary</b>
The Committee is requested to consider and comment on the items included in the 2015 work programme

<b>Recommendations</b>
<b>1. That the Committee consider and comment on the items included in the 2015 work programme</b>

## **1. WHY THIS REPORT IS NEEDED**

- 1.1 The Environment Committee Work Programme 2015 indicates forthcoming items of business.
- 1.2 The work programme of this Committee is intended to be a responsive tool, which will be updated on a rolling basis following each meeting, for the inclusion of areas which may arise through the course of the year.
- 1.3 The Committee is empowered to agree its priorities and determine its own schedule of work within the programme.

## **2. REASONS FOR RECOMMENDATIONS**

- 2.1 There are no specific recommendations in the report. The Committee is empowered to agree its priorities and determine its own schedule of work within the programme.

## **3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED**

- 3.1 N/A

## **4. POST DECISION IMPLEMENTATION**

- 4.1 Any alterations made by the Committee to its Work Programme will be published on the Council's website.

## **5. IMPLICATIONS OF DECISION**

### **5.1 Corporate Priorities and Performance**

- 5.1.1 The Committee Work Programme is in accordance with the Council's strategic objectives and priorities as stated in the Corporate Plan.

### **5.2 Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

- 5.2.1 None in the context of this report.

### **5.3 Legal and Constitutional References**

- 5.3.1 The Terms of Reference of the Environment Committee is included in the Constitution, Responsibility for Functions, Annex A.

#### **5.4 Risk Management**

5.4.1 None in the context of this report.

#### **5.5 Equalities and Diversity**

5.5.1 None in the context of this report.

#### **5.6 Consultation and Engagement**

5.6.1 None in the context of this report.

### **6. BACKGROUND PAPERS**

6.1 None.
