Is the initiative a high priority OR important for the organisation/ partnership?	Yes		Yes		No		Yes		Yes		Yes	
SPA STRATEGIC OBJECTIVES, would the objectives below be contributed to by the options:												
i. To deliver an environment conducive to physical activity in a manner that is as cost neutral as possible to the public purse - providing the facilities, open spaces, and community and transport infrastructure that allows and encourages residents of all ages to be active.	Yes		Yes		Yes		Yes		Yes		No	
i. To strengthen organisations and partnerships - increasing the number and quality of volunteers,	Yes		Yes		No		No		No		Yes	

	coaches and clubs and developing Fit and Active Barnet (FAB) as an umbrella brand and network to facilitate collaboration.														
l.	To develop effective sport and physical activity pathways - encouraging and enabling people to engage and stay involved in sport and physical activity and achieve the highest standard that they want to and are capable of.	Yes		Yes		No		No		No				Yes	
v.	To widen access to sport and physical activity – ensuring that people who do not traditionally participate in sport and physical activity are supported to do so	Yes		Yes		No		No		No				Yes	

Appendix X Assessment of each option against Rapid HIA criteria

	Option one	Brief details
	Re-procurement, continue with the current contract until expiry in Dec 2017	Continue with the current contract until it finishes in Dec 2017 and renew it with better contract (10 years or longer) that incorporates public health priorities and objectives and is cost neutral / income generating for the council

From your knowledge and/or in your judgement (please circle the appropriate Yes/ ?/ No answer)	Bias towards HIA	Bias against HIA	Bias towards HIA	Bias against HIA
Health impacts				
Will the initiative/proposal affect physical or mental health or wellbeing?	Yes / ?		Yes - as the new contract will incorporate PH objectives with an intention to have good effect on physical and mental health of the individuals.	
Will the proposal have an impact on <i>social</i> conditions that would indirectly affect health? (community networks, culture, lifestyles, fear of crime)	Yes / ?		Yes - as the new contract will incorporate PH objectives they will have positive impact on the lifestyle and community networks	
Will the proposal have an impact on <i>economic</i> conditions that would indirectly affect health? (employment, access to training & education, benefits)	Yes / ?		Yes / ?the proposal will lead to redevelopment of the current facilities which will have an economic impact e.g. the majority of potential suppliers are used to providing sports development officers as part of modern leisure services contracts. This will have a positive impact on employment and access to training for the local community.	
Will the proposal have impact on <i>environmental</i> living conditions that would indirectly affect health? (land, water, air pollution, transport, housing conditions, land use)	Yes / ?		Yes - As the proposal will lead to redevelopment of the current facilities, it will have an initial impact on the environmental conditions that could indirectly affect health e.g. transport disruption, noise and air pollution during the reconstruction phase.	
If 'No' to the above 4 Qs à Answer 'No' to 'Proceed with HIA?'				
Are there any potentially serious negative health impacts associated with the initiative that you currently know of?	Yes / ?		Yes - if the new contract involves redevelopment of the sites then these can lead to increased noise, traffic congestion, road closures, rerouting and land digging for updating utility services. The effect will be more severe for the neighbouring communities during the reconstruction phase	
Is further investigation necessary because more information is required on the potential health impacts?	Yes / ?		Yes - to understand the full impact of redevelopment of the current sites as part of the re-procurement	
Is there an 'evidence-base' to support a HIA?		No	There is some evidence to support the establishment of leisure services, these are focussed on the likely benefits of providing leisure in specific locations and or the benefits or re-orientating a facility to meet specific needs. There is no specific evidence to relate to this option	
Are the potential health impacts well-known and is it straightforward to suggest effective ways in which beneficial effects are maximised, and harmful effects minimised?		Yes / ?		Yes/? - to a certain degree though it would require further feasibility study

Will the proposal affect an individual's ability to improve their own health & well-being?	Yes / ?		Yes - As the new proposal will incorporate PH objectives. Also there is an expectation that the local providers will be engaged in delivering these. Both these will have a positive health impact.	
Will there be a change in demand for, or access to, health & social care services?	Yes / ?		Yes / ? - There is an expectation that as the new proposal will incorporate PH outcomes, there will be a decrease in demand for health and social services?	
Do you (or others) judge the identified health impacts as being small in effect?	No / ?		No / ? - The proposal will have a large as continuation of the current contract that does not incorporate PH objectives i.e. further 3 years of no PH outcome provision	
Are the health impacts likely to generate cumulative and/or synergistic impacts?	Yes / ?		Yes / ? As discussed above	
Community				
Is the population affected by the initiative more than 1000 people?	Yes / ?		Yes - based on the current level of usage of the these facilities by the surrounding communities	
Are any socially excluded, vulnerable, or disadvantaged groups likely to be affected? Or, more affected by potential negative impacts?	Yes / ?		Yes / ? There is a possibility of negative impact on the vulnerable or disadvantaged groups during the redevelopment phase. Any continued disadvantages though minimal will require feasibility studies.	
Are there public or community concerns about any potential impacts?	Yes / ?		Yes / ? - There is likely to be a public response to the above option	
Initiative				
Is the cost of the initiative high?	Yes / ?		Yes - the initial cost is expected to be high, however, there are suggestion to sign longer contract where the potential supplier commit to their own capital investment. The council's financial modelling has assumed that zero subsidy will be achieved form the start date (January 2018) of the new contract.	
Is the nature and extent of the disruption caused by the initiative likely to be major? Or difficult to remedy? Or have an irreversible impact?	Yes / ?		Yes / ? - as the new contract will lead to redevelopment of the sites, there will be major disruption to local communities and business during this time 12-18 months. Some existing sites will remain open during the redevelopment.	
Organisation				
Is the initiative a high priority OR important for the organisation/ partnership?	Yes		Yes - the proposal will incorporate PH outcomes and hence is a high priority initiative. Similarly, by providing long term contract, it will strengthen the partnership with the providers.	Total Yes: 16 Total No: 1

	Option Two		Brief details	
	Re-procurement with early severance of the existing contracts		Payoff the current provider and renew the contract earlier by incorporating the public health priorities and objectives. The estimated timeframe for cancelling and renewal of the contract would be nine months earlier than the above option.	
From your knowledge and/or in your judgement (please circle the appropriate Yes/ ?/ No answer)	Bias towards HIA	Bias against HIA	Bias towards HIA	Bias against HIA
Health impacts				
Will the initiative/proposal affect physical or mental health or wellbeing?	Yes		Yes - as the new contract will incorporate PH objectives with an intention to have good effect on physical and mental health of the individuals.

Will the proposal have an impact on <i>economic</i> conditions that would indirectly affect health? (employment, access to training & education, benefits)	Yes		Yes / ? the proposal will lead to redevelopment of the current facilities which will have an economic impact e.g. the majority of potential suppliers are used to providing sports development officers as part of modern leisure services contracts. This will have a positive impact on employment and access to training for the local community.	
Will the proposal have impact on <i>environmental</i> living conditions that would indirectly affect health? (land, water, air pollution, transport, housing conditions, land use)	Yes		Yes - As the proposal will lead to redevelopment of the current facilities, it will have an initial impact on the environmental conditions that would indirectly affect health e.g. transport disruption, noise and air population during the reconstruction phase.	
If 'No' to the above 4 Qs à Answer 'No' to 'Proceed with HIA?'				
Are there any potentially serious negative health impacts associated with the initiative that you currently know of?	Yes		Yes - if the new contract involves redevelopment of the sites then these can lead to increased noise, traffic congestion, road closures, rerouting and land digging for updating utility services. The effect will be more severe for the neighbouring communities during the reconstruction phase	
Is further investigation necessary because more information is required on the potential health impacts?	Yes		Yes - to understand the full impact of redevelopment of the current sites as part of the re-procurement	
Is there an 'evidence-base' to support a HIA?		No	There is some evidence to support the establishment of leisure services, these are focussed on the likely benefits of providing leisure in specific locations and or the benefits or re-orientating a facility to meet specific needs. There is no specific evidence to relate to this option	

Are the potential health impacts well-known and is it straightforward to suggest effective ways in which beneficial effects are maximised, and harmful effects minimised?		Yes		Yes/? - to a certain degree though it would require further feasibility study
Will the proposal affect an individual's ability to improve their own health & well-being?	Yes		Yes - As the new proposal will incorporate PH objectives. Also there will be an expectation that local providers will be engaged in delivering these.	
Will there be a change in demand for, or access to, health & social care services?	Yes		Yes / ? - there is an expectation that as the new proposal will incorporate PH outcomes, there will be a decrease in demand for health and social services?	
Do you (or others) judge the identified health impacts as being small in effect?	No		No / ? - The proposal will have a large impact as the current contract does not incorporate PH objectives i.e. further two and half years of no PH outcome provision	
Are the health impacts likely to generate cumulative and/or synergistic impacts?	Yes		Yes / ? As discussed above	
Community				
Is the population affected by the initiative more than 1000 people?	Yes		Yes - based on the current level of usage of the these facilities by the surrounding communities	
Are any socially excluded, vulnerable, or disadvantaged groups likely to be affected? Or, more affected by potential negative impacts?	Yes		Yes / ? There is a possibility of negative impact on the vulnerable or disadvantaged groups during the redevelopment phase. Any continued disadvantages though minimal will require feasibility studies.	
Are there public or community concerns about any potential impacts?	Yes		Yes / ? - There is likely to be a public response to the above option	
Initiative				
Is the cost of the initiative high?	Yes		In this option the new contract starts on 1 st April 2016, nine months before the end of the current contract. The severance fee would be; £1,037,534.25.	
Is the nature and extent of the disruption caused by the initiative likely to be major? Or difficult to remedy? Or have an irreversible impact?	Yes		Yes / ? - as the new contract will lead to redevelopment of the sites, there will be major disruption to local communities and business during this time 12-18months. Some existing sites will remain open during the redevelopment.	
Organisation				
Is the initiative a high priority OR important for the organisation/ partnership?	Yes		Yes - the proposal will incorporate PH outcomes and hence is a high priority initiative, however, early severance would be costly for the organisation and may have an impact on the organisation's partnership with the providers.	

				Total Yes: 16 Total No: 1 (Similar to Option 1)
--	--	--	--	---

	Option three	<i>Brief detail</i>		
	Cease providing leisure services	<i>Council stops providing its leisure facilities in the borough and the current sites are sold. The closure of the facilities can take up to six months and will result in staff redundancies.</i>		
From your knowledge and/or in your judgement (please circle the appropriate Yes/ ?/ No answer)	Bias towards HIA	Bias against HIA	Bias towards HIA	Bias against HIA
Health impacts				

Will the initiative/proposal affect physical or mental health or wellbeing?	Yes / ?		Yes - Closure of facilities will have a negative impact on the physical and mental health of the local population	
Will the proposal have an impact on <i>social</i> conditions that would indirectly affect health? (community networks, culture, lifestyles, fear of crime)	Yes / ?		Yes - Closure of facilities will have a negative impact on social conditions that could indirectly affect health e.g. (loss of community networks, culture, lifestyles)	
Will the proposal have an impact on <i>economic</i> conditions that would indirectly affect health? (employment, access to training & education, benefits)	Yes / ?		Yes - closure of facilities will have a negative impact in the shape of job losses and lack of access to training facilities.	
Will the proposal have impact on <i>environmental</i> living conditions that would indirectly affect health? (land, water, air pollution, transport, housing conditions, land use)		No		No - however, the sites when sold may be used for residential development by the purchasing organisation. In this situation it will have both short and long term impact on the environmental conditions that would indirectly affect health e.g. transport disruption, noise and air pollution and land usage.
If 'No' to the above 4 Qs à Answer 'No' to 'Proceed with HIA?'				
Are there any potentially serious negative health impacts associated with the initiative that you currently know of?	Yes / ?		Yes / ? - The proposal will not be able to meet the PH outcomes and will have a negative health impact on the population currently using these facilities.	
Is further investigation necessary because more information is required on the potential health impacts?	Yes / ?		Yes - further investigation would be necessary to assess the full impact of this proposal on the health of local community	
Is there an 'evidence-base' to support a HIA?	Yes / ?		Yes	
Are the potential health impacts well-known and is it straightforward to suggest effective ways in which beneficial effects are maximised, and harmful effects minimised?	No / ?		No - Although the potential impact of loss of leisure facilities is well known, it is not straightforward to suggest effective ways of minimising the harmful effects.	
Will the proposal affect an individual's ability to improve their own health & well-being?		No		No - the proposal will remove the facilities linked with individuals to improve their own health.
Will there be a change in demand for, or access to, health & social care services?	Yes / ?		Yes / ? - With the cessation of leisure facilities there can be an increase in the demand for health and social services.	

Do you (or others) judge the identified health impacts as being small in effect?	No / ?		No - the identified health impacts would be large as cessation of leisure facilities would stop any involvement of work towards PH objectives.	
Are the health impacts likely to generate cumulative and/or synergistic impacts?	Yes / ?		Yes - the negative health impacts would be cumulative.	
Community				
Is the population affected by the initiative more than 1000 people?	Yes / ?		Yes - based on the current level of usage of the these facilities by the surrounding communities	
Are any socially excluded, vulnerable, or disadvantaged groups likely to be affected? Or, more affected by potential negative impacts?	Yes / ?		Yes - there is a possibility that the cessation of leisure facilities will disadvantage the health of vulnerable or disadvantaged groups	
Are there public or community concerns about any potential impacts?	Yes / ?		Yes / ? - There is likely to be a large public response to the above option	
Initiative				
Is the cost of the initiative high?		No		No - the cost of the initiative is not high, however, there could be an indirect increased future cost related with negative health impacts on the local population due to closure of leisure facilities.
Is the nature and extent of the disruption caused by the initiative likely to be major? Or difficult to remedy? Or have an irreversible impact?	Yes / ?		Yes - the disruption caused by the initiative is likely to be major, difficult to remedy and may have a negative and irreversible impact on the health of local population in the long term. Similarly, ceasing the provision of leisure services are against the PH interventions.	
Organisation				
Is the initiative a high priority OR important for the organisation/ partnership?		No		No - It is not high priority as the serious negative health impacts of this initiative on the council's strategic PH objectives means it will be difficult to take it forward at this stage.

	Option four		Brief detail	
	Assets transfer through sale		<i>The sale of the current leisure facilities by April 2016 with no influence in the future development and services provision.</i>	
From your knowledge and/or in your judgement (please circle the appropriate Yes/ ?/ No answer)	Bias towards HIA	Bias against HIA	Bias towards HIA	
				Bias against HIA

Health impacts				
Will the initiative/proposal affect physical or mental health or wellbeing?	Yes / ?		Yes / ? - The sale of assets means that the council will lose control of the sites and hence would not have an influence in future development of these facilities. This means that there would be a missed opportunity to incorporate PH objectives into the leisure facilities. The absence of PH objectives from the future proposals may lead to negative impacts on the physical or mental health of the local population.	
Will the proposal have an impact on <i>social</i> conditions that would indirectly affect health? (community networks, culture, lifestyles, fear of crime)	Yes / ?		Yes / ? - The sale of assets will not only remove council's control of the facilities, it will also miss the opportunity to incorporate PH objectives in future development of these facilities. This would have a negative impact on the social conditions and hence could indirectly affect health	
Will the proposal have an impact on <i>economic</i> conditions that would indirectly affect health? (employment, access to training & education, benefits)	Yes / ?		Yes / ? - The absence of PH objectives from the future proposals may have a negative impact on the economic condition that would indirectly affect health e.g. loss of employment.	
Will the proposal have impact on <i>environmental</i> living conditions that would indirectly affect health? (land, water, air pollution, transport, housing conditions, land use)	Yes / ?		Yes - As the proposal will lead to redevelopment of the current facilities, it will have an initial impact on the environmental conditions that would indirectly affect health e.g. transport disruption, noise and air pollution during the reconstruction phase.	
If 'No' to the above 4 Qs à Answer 'No' to 'Proceed with HIA?'				
Are there any potentially serious negative health impacts associated with the initiative that you currently know of?	Yes / ?		Yes / - the proposal will not be able to meet the PH objectives and will have a negative health impact on the population currently using these facilities. Similarly, if the new contract involves redevelopment of the sites then these can lead to increased noise, traffic congestion, rerouting, redirection of the utility services for the neighbouring communities during the reconstruction phase	
Is further investigation necessary because more information is required on the potential health impacts?	Yes / ?		Yes / ? - further investigation will be necessary to assess the full impact of this proposal on the health of local community	
Is there an 'evidence-base' to support a HIA?	Yes / ?	No	There is some evidence to support the establishment of leisure services, these are focussed on the likely benefits of providing leisure in specific locations and or the benefits or re-orientating a facility to meet specific needs. There is no specific evidence to relate to this option	
Are the potential health impacts well-known and is it straightforward to suggest effective ways in which beneficial effects are maximised, and harmful effects minimised?		Yes		Yes/? - to a certain degree though it would require further feasibility study

Will the proposal affect an individual's ability to improve their own health & well-being?		No		No - the proposal may remove the current facilities linked with individuals to improve their own health especially as council would not have control on incorporating PH objectives in redevelopment of these facilities.
Will there be a change in demand for, or access to, health & social care services?	Yes / ?		Yes - in the absence of PH objectives and loss of assets, there will be an increase in the demand for health and social services.	
Do you (or others) judge the identified health impacts as being small in effect?	No / ?		No / ? The identified health impacts would be large as council's loss of control via asset transfer would cease the delivery of PH objectives.	
Are the health impacts likely to generate cumulative and/or synergistic impacts?		No		No
Community				
Is the population affected by the initiative more than 1000 people?	Yes / ?		Yes - based on the current level of usage of the these facilities by the surrounding communities	
Are any socially excluded, vulnerable, or disadvantaged groups likely to be affected? Or, more affected by potential negative impacts?	Yes / ?		Yes - there is a possibility that the asset transfer with no further control by the council may disadvantage the health of vulnerable or disadvantaged groups	
Are there public or community concerns about any potential impacts?	Yes / ?		Yes / ? - There is likely to be a public response to the above option	
Initiative				

Is the cost of the initiative high?		No		No - the cost of the initiative is not high, however, there could be an indirect increase in the future cost related with negative health impacts on the local population in the absence of PH objectives as part of the contracts with the leisure facilities.
Is the nature and extent of the disruption caused by the initiative likely to be major? Or difficult to remedy? Or have an irreversible impact?	Yes / ?		Yes - the disruption caused by the initiative is likely to be major, difficult to remedy and may have an negative and irreversible impact on the health of local population in the long term. Similarly, ceasing the provision of leisure services are against the PH interventions.	
Organisation				
Is the initiative a high priority OR important for the organisation/ partnership?	Yes / ?		Yes / ? - the initiative is high priority as any asset transfer without future control by the council's would stop meeting council's PH objectives.	Total Yes: 13 Total No: 5

	Option five		Brief detail	
	Asset transfer through long lease, 99 years		Council will maintain the freehold ownership of the facilities and may achieve nil cost by Sept 2016 with a subsequent rental income. The market is not used to this kind of large scale leases and it is not known how attractive it would be to them. It is likely that the more restrictive the lease conditions the more unattractive it will seem. No long term prospect of increasing income and a public health provider might have to be sourced separately. There is a likelihood of early severance fee.	
From your knowledge and/or in your judgement (please circle the appropriate Yes/ ?/ No answer)	Bias towards HIA	Bias against HIA	Bias towards HIA	Bias against HIA
Health impacts				
Will the initiative/proposal affect physical or mental health or wellbeing?	Yes / ?		Yes / ? - The transfer of assets through long lease would maintain council's freehold ownership of the facilities and the potential to add PH objectives as lease clauses in the development of future leisure facilities.	
Will the proposal have an impact on <i>social</i> conditions that would indirectly affect health? (community networks, culture, lifestyles, fear of crime)	Yes / ?		Yes / ? - The proposal will retain council's control and an opportunity to incorporate PH objectives in the future development of these facilities. This can lead to positive impact on the social conditions that can indirectly affect health.	
Will the proposal have an impact on <i>economic</i> conditions that would indirectly affect health? (employment, access to training & education, benefits)	Yes / ?		Yes / ? - The proposal will retain council's control and an opportunity to incorporate PH objectives in the future development of these facilities. This can have a positive impact on the social conditions that can indirectly affect health.	
Will the proposal have impact on <i>environmental</i> living conditions that would indirectly affect health? (land, water, air pollution, transport, housing conditions, land use)	Yes / ?		Yes / ? - The proposal can lead to re-development of the facilities and hence will have an impact on the social conditions that can indirectly affect health.	
If 'No' to the above 4 Qs à Answer 'No' to 'Proceed with HIA?'				
Are there any potentially serious negative health impacts associated with the initiative that you currently know of?	Yes / ?		Yes / ? - As the sale and lease extension will involve redevelopment of the sites then these can lead to increased noise, traffic congestion, rerouting, redirection of the utility services for the neighbouring communities during the reconstruction phase	
Is further investigation necessary because more information is required on the potential health impacts?	Yes / ?		Yes - further investigation will be necessary to understand the full impact of the above proposal on health of the local community.	
Is there an 'evidence-base' to support a HIA?	Yes /	No	There is some evidence to support the establishment of leisure services, these are focussed on the likely benefits of providing leisure in specific locations and or the benefits or re-orientating a facility to meet specific needs. There is no specific evidence to relate to this option	

Are the potential health impacts well-known and is it straightforward to suggest effective ways in which beneficial effects are maximised, and harmful effects minimised?		Yes		Yes/? - to a certain degree though it would require further feasibility study
Will the proposal affect an individual's ability to improve their own health & well-being?	Yes / ?		Yes / ? - With the assumption that the redevelopment of the sites with PH objectives as part of the sale and lease extension clauses and the and the corporation and engagement of local providers in delivering these objectives	
Will there be a change in demand for, or access to, health & social care services?	Yes / ?		Yes / ? - there is an expectation that the proposal would be able to incorporate PH objectives in the running of future leisure facilities which would decrease the demand for health and social services?	
Do you (or others) judge the identified health impacts as being small in effect?	No / ?		No / ? - the proposal will have a large impact if PH objectives are added into the lease clause as a condition for sale. Similarly, sale of the sites with an extended lease would generate income stream for the council with a potential to have zero subsidy and the new provider expected to be responsible for the day to day running and management of the facilities.	
Are the health impacts likely to generate cumulative and/or synergistic impacts?	Yes / ?		Yes / ?	
Community				
Is the population affected by the initiative more than 1000 people?	Yes / ?		Yes / ? - based on the current level of usage of the these facilities by the surrounding communities	
Are any socially excluded, vulnerable, or disadvantaged groups likely to be affected? Or, more affected by potential negative impacts?	Yes / ?		Yes / ? There is a possibility of negative impact on the vulnerable or disadvantaged groups.	
Are there public or community concerns about any potential impacts?	Yes / ?		Yes / ? - There is likely to be a public response to the above option	
Initiative				
Is the cost of the initiative high?	Yes / ?		Yes / ? - Only if the early severance of the current contracts. Otherwise the proposal has a potential to get to zero subsidy from the start of the proposal.	
Is the nature and extent of the disruption caused by the initiative likely to be major? Or difficult to remedy? Or have an irreversible impact?	Yes / ?		Yes / ? - as the proposal would lead to redevelopment of the sites, there could be major disruption to local communities and business during this time 12-18months.	
Organisation				

Is the initiative a high priority OR important for the organisation/ partnership?	Yes / ?		Yes - the proposal is high priority as it has a potential to incorporate PH objectives, zero subsidy and income stream from start of the lease.	Total Yes: 16 Total No: 1
---	---------	--	---	------------------------------

Option six		Brief Details		
Extension of existing contract with current provider for five years		Brief detail: The current contract is extended by five years i.e. 2018-2023 without any further upgrading of the facilities by either the council or the provider. It is estimated that this option could be cost neutral to the council from the start. The contract cannot be substantially changed though so little improvements expected in public health objectives.		
From your knowledge and/or in your judgement (please circle the appropriate Yes/ ?/ No answer)	Bias towards HIA	Bias against HIA	Bias towards HIA	Bias against HIA
Health impacts				
Will the initiative/proposal affect physical or mental health or wellbeing?	Yes / ?		Yes / ? Current contract does not incorporate PH objectives, its' extension would have a negative impact on the physical and mental health of the local population.	
Will the proposal have an impact on <i>social</i> conditions that would indirectly affect health? (community networks, culture, lifestyles, fear of crime)		No		No - the extension of contract will not disturb the current state and hence would not have any +ve or -ve influence on social conditions that could indirectly affect health.
Will the proposal have an impact on <i>economic</i> conditions that would indirectly affect health? (employment, access to training & education, benefits)		No		No - the proposal will not lead to any investment or redevelopment of the facilities and hence will not have any affect on the economic conditions that could indirectly affect health.
Will the proposal have impact on <i>environmental</i> living conditions that would indirectly affect health? (land, water, air pollution, transport, housing conditions, land use)		No		No - the proposal will not lead to any investment or redevelopment of the facilities and hence will not have any affect on the environmental conditions that could indirectly affect health.
If 'No' to the above 4 Qs à Answer 'No' to 'Proceed with HIA?'				
Are there any potentially serious negative health impacts associated with the initiative that you currently know of?	Yes / ?		Yes / ? - the proposal will not be able to incorporate PH objectives and hence will have a negative health impact on the population currently using these facilities.	
Is further investigation necessary because more information is required on the potential health impacts?	Yes / ?		Yes - further investigation would be necessary to access the full impact of this proposal on the health of local community	
Is there an 'evidence-base' to support a HIA?	Yes / ?	No	There is some evidence to support the establishment of leisure services, these are focussed on the likely benefits of providing leisure in specific locations and or the benefits or re-orientating a facility to meet specific needs.	No

			There is no specific evidence to relate to this option	
Are the potential health impacts well-known and is it straightforward to suggest effective ways in which beneficial effects are maximised, and harmful effects minimised?		Yes		Yes/? - to a certain degree though it would require further feasibility study
Will the proposal affect an individual's ability to improve their own health & well-being?		No		No - As the proposal does not incorporate PH objectives, there will be no or minimal affect on the individuals' ability to improve their own health and wellbeing.
Will there be a change in demand for, or access to, health & social care services?	Yes / ?		Yes /? - without the PH objectives in this proposals there can be an increase in the demand for health and social services.	
Do you (or others) judge the identified health impacts as being small in effect?	No / ?		No - the extension of contracts without PH objectives would have a large negative health impact.	
Are the health impacts likely to generate cumulative and/or synergistic impacts?		No		No
Community				
Is the population affected by the initiative more than 1000 people?	Yes / ?		Yes - based on the current level of usage of the these facilities by the surrounding communities	
Are any socially excluded, vulnerable, or disadvantaged groups likely to be affected? Or, more affected by potential negative impacts?	Yes / ?		Yes - there is a possibility that the proposal will disadvantage the health of vulnerable or disadvantaged groups	
Are there public or community concerns about any potential impacts?		No		No - There is unlikely to be a public response to the above option as the extension of contracts without any changes would hardly be noticed.
Initiative				
Is the cost of the initiative high?		No		No - It is expected that this option would be cost neutral for the council from 2018
Is the nature and extent of the disruption caused by the initiative likely to be major? Or difficult to remedy? Or have an irreversible impact?		No		No - as there will no investment or redevelopment in this proposal, there will be no disruption.
Organisation				
Is the initiative a high priority OR important for the organisation/ partnership?	Yes / ?		Yes / ? - The initiative is high priority as it will be cost neutral for the council from 2018.	

				Total Yes: 8 Total No: 8
--	--	--	--	--------------------------

Appendix X Rapid appraisal of option 1 and 2 for their impact on the health of local population - SCORING

Option 1- Re-procurement at the end of current contract - continue with the current contract until expiry in Dec 2017 and renew it with better contract (10 years or longer) that incorporates public health priorities and objectives and is cost neutral / income generating for the council

Option 2 - Re-procurement with early severance of the existing contracts - Payoff the current provider and renew the contract earlier by incorporating the public health priorities and objectives. The estimated timeframe for cancelling and renewal of the contract would be 9 months earlier than the first option.
