

Council: Tuesday, 3 March 2015

11.2: Report from Housing Committee – 2 February 2015: Member’s Item in the name of Councillor Ross Houston - Viability Reports

Amendment in the name of Councillor Ross Houston

Delete the recommendations in the full council and committee reports and replace with:

“That Council instructs officers to publish all viability reports and independent assessments for each of the major regeneration projects in the borough that involve the use of HRA / public land or public money. The publication of these reports should always be a condition where the council is involved in a project as a partner. For all other applications the policy of the Council should be to publish all viability reports and independent assessments in so far as the law will allow in the interest of public transparency.”

Final amended recommendation to Council to read:

That Council instructs officers to publish all viability reports and independent assessments for each of the major regeneration projects in the borough that involve the use of HRA / public land or public money. The publication of these reports should always be a condition where the council is involved in a project as a partner. For all other applications the policy of the Council should be to publish all viability reports and independent assessments in so far as the law will allow in the interest of public transparency.
