Targeted Interventions for those Involved in Dealing

Specialist interventions will be provided through risk assessment and management plans.

Where appropriate, interventions will be delivered via a **one to one basis** rather than through groups, to minimise risk of networking and further dealing.

Generic Intelligence

Working with police, providing generic intelligence to promote better targeting of drug dealing hotspots

Engaging with initiatives with key partners such as supported living hostels, to target dealing in vulnerable communities

Provide **training and advice** for Police officers and PCSOs, particularly focusing on targeting street drinkers and those committing crime and anti-social behaviour.

Assist Police staff to carry out screenings and where necessary brief interventions and provide support to refer individuals into treatment by introducing a **streamlined referral pathway**.

Street Based Sex Workers

Targeted outreach to engage at street level by the same practitioners who offer a named contact from engagement through to treatment

Women only sessions

Open access / **Single Point of Contact**

Peer support and advocacy from women who have successfully exited the sex industry

Brothel-Based Sex Workers

Outreach team will work closely with local Police and Safer Communities team to identify local brothels and participate in joint visits to these locations.

Where substance misuse is identified appropriate, care packages will be offered.

Exploitation

All practitioners to be trained to identify indicators of abuse and abusive relationships in both victims and perpetrators. This will include being able to identify those parents who have children at risk by being aware of warning signs of child sexual abuse.

Build strong, mutually beneficial **partnerships with key local agencies** i.e. adult/children's social care teams DV/VAWG agencies.

Participate in MARAC, DV/VAWG and MASH meetings.
