1	Cllr Anthony Finn	Could the Leader update Council on the outcomes of his representations to the Secretary of State for Communities and Local Government in relation to the Local Government Finance Settlement?	Cllr Richard Cornelius (Leader of the Council)	I met the Secretary of State for a one-to-one meeting in January to discuss the Local Government finance situation. Following this meeting and representations made through the DCLG's consultation and via a group of Outer London Conservative councils, Barnet was given an additional £2.8m in transitional grant. This will be used to replace some of the money that had to be drawn down from contingencies. The big prize, however, was the announcement that the government will review the needs assessment ahead of the transition to full business rate localisation. This is an opportunity to revise the present formula which is predicated on an outdated notion of how deprivation is distributed across the capital.	No supplementary

3	Cllr Anthony Finn	With residents' council tax bills not rising for a sixth consecutive year, what is the real terms percentage cut enjoyed by households since 2010?	Cllr Richard Cornelius (Leader of the Council)	Including the Greater London Authority precept, this represents a 15% real terms reduction since 2010.	Would the Leader confirm there is no misprint in his answer because 15% seems too good to be true? Can you please confirm that is the right figure and if it is the right figure what has been the average saving in a normal household?	Trust an accountant to deliver a test of arithmetic which I decline to do on the grounds I might get it wrong. But it is an amazing achievement that we have done, that we haven't had to put up council tax. In the past we have been forced to do that with great regret but we have done very well

No one can possibly know the economic effects of either exiting or remaining in a changed EU.	No supplementary	
5	Cllr Anthony Finn	What has been the change in recent years with regards to the proportion of residents who feel the council offers good value for money for the tax they pay?	Cllr Richard Cornelius (Leader of the Council)	According to the spring 2015 Residents Perception Survey, just under two thirds (63 per cent) of Barnet residents feel that the council provides value for money for the council tax they pay. This represents an increase of 6 percentage points from spring 2014 and places Barnet 9 percentage points above the London average.	Does the Leader think that our respective drives of efficiency and our control of council tax have contributed to the outcome of people's perception of the council?	Absolutely.

Cllr Richard Cornelius (Leader of the Council)	<p>a) The savings on the core contract, £69.6 million in total over the ten years, are on track to be achieved. 8	Cllr Alan Schneiderman	Why does the 2016/17 environment commissioning plan set a target for only 35% of residents to be satisfied with repairs to roads and the quality of pavements?	Cllr Dean Cohen (Chairman of Environment Committee)	I agree that 35% seems low and that we should aspire to a higher target. Hence the £50m investment in roads and pavements over five years.	Glad Cllr Cohen agrees that 35% satisfaction rate for road and pavement repairs is far too low. Rather than setting an artificially low target just in order that it can be met, would he agree with me that we need to set a far higher target for this coming year so that residents get the chance to benefit from decent roads and pavements for a change.	Yes, I think once the investment has been put in this year then we can look at increasing that perception or the actual percentage as tabled. But also members will note that they have been invited in the last couple of weeks and I think a number have attended with officers looking around their own wards identifying roads which need resurfacing.

This is something to be proud of and we should continue to run education as much as we can and influence it in a positive way to continue to get good results for our pupils.	
10	Cllr Geof Cooke	In view of the Leader's answer to the supplementary question to question 48 on 26/01/16, please could he confirm that he is happy for residents living near the Great Northern line in the east of the borough to have fewer stations through which to access the service than those living near Tube lines?	Cllr Richard Cornelius (Leader of the Council)	It is a railway line with four tracks, not a tube line.	What is it about the adjacent but separate mainline tracks that make it all right for residents near the national rail suburban lines in the borough but to have to endure fewer access points, much less frequent service and much less reliable service than the Leader and his constituents enjoy on the tube in Woodside Park and Totteridge.	The tracks are very busy. If the trains have to stop every 100 yards to suit Cllr Cooke then they won't move at all.

11	Cllr Brian Gordon	In Barnet we have a reasonably large number of single-sex schools, be they faith schools or grammars. Within the overall results, how are boys and girls performing respectively at GCSE?	Cllr Reuben Thompstone (Chairman of Children, Education, Libraries and Safeguarding Committee)	Barnet's boys were ranked 5 <sup>th</sup> nationally and the borough's girls were ranked 6 <sup>th</sup> at GCSE.	On the matter of single sex schools, there are those from other political parties that have tried to undermine them and don't particularly believe strongly in them. We can see how well single sex schools do in Barnet and the results those boys and girls set. So can we have an endorsement of single sex schools and that we will encourage such education in our borough	I have always been very supportive of the wide range of variety and type of schools that we have within Barnet and I think that's why we have such great results with our young people.

One Review has been completed and resulted in an additional affordable housing contribution of c£500,000. Great news. And after being in operation for four years, one follow up payment of £500,000 has been received. After four years and many, many applications, one payment. Can I ask Cllr Davey, how many affordable houses can be provided for that £500,000 after four years and if he thinks it's time we looked at coming up with a different mechanism.	
13	Cllr Val Duschinsky	I understand an event was recently held to celebrate the launch of the Mayor's Golden Kilometre Challenge. Could Council be given a further update as to the progress of the scheme?	Cllr Helena Hart (Chairman of the Health and Wellbeing Board)	The scheme, which encourages primary school children to run, skip or walk a kilometre a day as part of their daily activities, is now (literally) up and running. 14 schools have signed up so far, but our ambition is to get every school involved. The challenge is being supported by the Saracens Sport Foundation	Would the Chairman like to join me in congratulating Cllr Stock for the work she has already done to initiate this promising and exciting scheme?	Nothing but praise for Cllr Stock's drive and dedication in getting the scheme underway. My only fear is that having had success with the young people of this borough, her next step would be to go round all of us

The service currently has a vacancy which will be filled by the end of May which will allow the Burnt Oak office to double its appointments to 10 a day, so there will be 15 a day in total.</p> <p>Members of the Jewish faith do not request an appointment during Shiva, so this can add to the time between a death occurring and the appointment taking place, and means that the proportion of deaths</p>	No supplementary

Still, the average wait is 7 days or under.</p> <p>The Registrars service has been under particular pressure in the last 18 months due to 2 main factors. It has experienced a significant drop in income from a reduction in citizenship ceremonies and nationality checking, which has meant that staff numbers have had to reduce. At the same time, the closure of Chase Farm Hospital in Enfield led to more babies born in Barnet, and 2,000 more birth registrations annually. The service is looking at ways to improve performance through generating more income, and improving efficiency such as through consolidating the current 3-site operation into one more central location, enabling more resourcing flexibility</p>

15	Cllr Val Duschinsky	Could the Committee Chairman outline the key changes to the library service proposals following the most recent consultation and further analysis?	Cllr Reuben Thompstone (Chairman of Children, Education, Libraries and Safeguarding Committee)	Key changes include: a) extending the age range for which children can register to use technology enabled opening of libraries unaccompanied, to include pupils in Year 11 and aged 15. These pupils will require parental consent and confirmation from their school. b) the introduction of live monitoring CCTV during all extended opening hours. c) an increase in the first two years annual grant to Partnership libraries	Does the chairman agree that a spendthrift administration has helped shape the current proposals?	Yes, these changes have very much been formed by the consultation responses as well as by the pilot technology opening in Edgware Library which is now back open again. The ... consultation have been very informative.
16	Cllr Alon Orbach	Is the Prime Minister right to be campaigning to keep Britain in the European Union?	Cllr Richard Cornelius (Leader of the Council)	The Prime Minister is right to give the public a vote on the issue – something the last Labour government promised and then refused to deliver when in office.	The question was as answered. I give you the opportunity to answer it again. Is the prime Minister right to be campaigning to keep Britain in the EU? Yes or no?	He, of course, has that right.

There is a balance to be struck between fare levels and capital provision that a freeze would damage. 18	Cllr Alison Moore	What is the council doing to secure sufficient secondary school places meeting community need in the east of the borough?	Cllr Reuben Thompstone (Chairman of Children, Education, Libraries and Safeguarding Committee)	In recent years, the council has invested to expand The Compton and Christ's College in anticipation of the requirement for additional secondary school places in the east of the borough. In addition the Archer Academy and St Andrew the Greek Apostle free schools have provided an additional 300 year 7 places each year. For September 2016, Ashmole Academy is offering an additional 29 places. The Ark Academy Trust is preparing a planning application to open a new all-through school in the east of the borough that will provide an additional 180 year 7 places by September 2018. Current projections indicate that assuming the Ark Pioneer Academy opens, this will be sufficient to meet need. However, it is a possibility that prior to the Ark opening,	It is abundantly clear that there are some areas of the borough where there is a clear shortage of school places. Cllr Richard Cornelius (Leader of the Council)	Alerting of the success and failure of the backup service was configured but had not been received by the IT service.	This doesn't tell us very much. Capita have been in charge of this service for two and a half years now. Do you think we could have an update on what is actually happening with the service at the moment?	Yes, of course. There has been a lot of work on getting this to work and as of 31 <sup>st</sup> March, the management system has been recovered and is testing now. The technology has been available since 30 <sup>th</sup> March. Basically the system is being rebooted and will work again shortly.

25	Cllr Stephen Sowerby	Does the Leader agree that TfL should be classed as an essential service, thereby meaning strike ballots will have to pass a higher and more appropriate threshold and protecting Londoners from unnecessary disruption?	Cllr Richard Cornelius (Leader of the Council)	Yes. Transport strikes bring the city to a standstill and have significant repercussions on the ability of residents to conduct their lives and their business. A minority of activists should not be able to hold TfL, the government and Londoners to ransom. The proposal to increase the threshold for strike action will, I'm sure, be welcomed by the vast majority of Londoners – including those in Barnet.	Would the Leader agree that repeated strikes on the Northern Line not only inconvenience residents but have a severe impact on the economy as a whole?	Absolutely. The tube has become a vital public service and we cannot afford to be without it.

26	Cllr Alan Schneiderman	How many people responding to the library consultation supported a two thirds reduction in the floor space and staffed hours at North Finchley library?	Cllr Reuben Thompstone (Chairman of Children, Education, Libraries and Safeguarding Committee)	A range of issues to reduce the cost of the library service was explored during the first phase of resident consultation including reducing the size of the footprint of the library area. There was little resident support for many of the potential ways to reduce cost including closing libraries, reducing a library in size (particularly to the proposed minimum of 540 square feet), reducing staffed opening hours. However, there was some support for making better use of space and realising income-raising opportunities. On balance, residents expressed a preference to maintain the same number of library sites, including North Finchley. This led to the revised proposal (first considered by CELS and Council in Autumn 2015) that retains all libraries whilst achieving significant budget savings through balancing a number of factors including releasing space for in-come raising opportunities in library buildings. The issue of size of	I am glad that Cllr Thompstone has admitted that there is – as he put it – little resident support for his library plans. Given that those plans are going leave Barnet with a third rate Library Service, will he take this opportunity to think again about the plans for North Finchley Library and in fact all of Barnet's Library Services to protect the excellent Library Service that we have at the moment.	I would point out that when libraries were bought under the committee that is the Education, Libraries and Safeguarding Committee in 2014, there were 14 libraries. At the end of this process there will be 14 libraries.

				the retained library area at each site (a minimum of 2,153 square feet at Core Libraries like North Finchley) was not a specific feature of the second phase of consultation although it was raised by residents in some focus groups (see Appendix I of CELS Library report).		
27	Cllr Stephen Sowerby	Does the Leader agree that increasing capacity on the Northern Line should be a key priority for the next Mayor of London?	Cllr Dean Cohen (Chairman of Environment Committee)	Yes. Continued investment in London's transport infrastructure is crucial and must be protected. A gimmick like a fare-freeze should not be allowed to derail these planned improvements which will be of benefit to Barnet residents.	Does Cllr Cohen agree that we should make the Northern Line even better?	Absolutely.
28	Cllr Geof Cooke	Is the Leader content that Barnet is among the worst-provided London boroughs for Tube and railway stations (Transport for London and National Rail services) per 100,000 population and that will remain the case even after the new Thameslink station opens at Brent Cross South?	Cllr Richard Cornelius (Leader of the Council)	We may be less well provided with stations per capita, but we have an improving Northern Line and two mainlines with the Piccadilly Line to serve our residents.	Will the Leader join me in congratulating Waltham Forest, another badly served borough for getting Lea Bridge Station open this spring for a fraction of what Barnet is paying at Brent Cross South.	Not necessarily because I am not familiar with that case.

Cllr Reuben Thompstone (Chairman of Children, Education, Libraries and Safeguarding Committee)	The survey of library users who had registered to use technology-enabled opening at Edgware during the pilot found that 84% of those responding to the survey who had used the service reported that there were benefits to them of having access during the extended opening periods. The majority of the benefits described related to increased flexibility offered by the extended hours. However, others also cited benefits of reduced noise levels, increased opportunity for study and better access to local parking during the extended hours. 90% of users responding to our survey reported that they had not experienced any difficulty using the library during the extended hours. 36	Cllr Alan Schneiderman	The latest performance indicators for the third quarter of 2015/16 show that less than a third of residents are satisfied with the borough's parking services. What is being done to improve this unacceptable performance?	Cllr Dean Cohen (Chairman of Environment Committee)	A certain level of resident dissatisfaction with the Parking Service is recognised. Progress has, though, been made in improving satisfaction and, of course, no one who receives a PCN is going to be happy. To address these residual concerns officers have established a Parking Transformation Board to define and deliver improvements to the service. The board will be overseeing a two year programme of improvements and members will be involved with advising on the content and direction of the improvement plans.	Can I ask whether Cllr Cohen has seen the Tory Mayoral leaflet delivered across Barnet where the Tory candidate for Mayor says he has worked to introduce 30 minute free parking to help small shops. If it is good enough for Richmond, why is it not good enough for Barnet?	As Cllr Schneidermann knows there are a number of areas of free parking in this borough ranging from 15 minutes free, all the way up to three hours free.
37	Cllr Wendy Prentice	Does the Leader welcome the council's new volunteering scheme for staff and will he be encouraging as many people as possible to take part?	Cllr Richard Cornelius (Leader of the Council)	Yes. A high proportion of Barnet's residents volunteer and we're lucky to have 1,400 charities across the borough. 38	Cllr Anne Hutton	How is the education of those children educated at home monitored?	Cllr Reuben Thompstone (Chairman of Children, Education, Libraries and Safeguarding Committee)	The Council keeps a register of children that we are aware of as being electively home educated. When they are first registered, the family is contacted and visited within the first couple of months. If the provision appears suitable, subsequent visits are made annually. If there are any concerns about the suitability of the provision, a follow up visit is made. If concerns remain then a referral is made to the Children Missing Education Officer and a School Attendance Order will be issued. Any safeguarding concerns are passed on following the LA safeguarding procedures. The responsibility for the child's education lies with the parent.	Is there any way of finding out how the students educated at home are doing? I was told the council doesn't keep that information but I appreciate the answer is fuller than the previous question I asked about it but is there any way we can ascertain how these students are doing? Not names; exam results, percentages would be useful.	I am fairly confident that we can't but I will ask for an officer response to Cllr Hutton to confirm.

Cllr David Longstaff (Chairman of Community Leadership Committee)	<p>Since the 2011/2012 baseline, Barnet has achieved an overall 17.4% reduction across the MOPAC7. This includes over 1000 fewer burglaries per year (a reduction of over 20%), over 500 fewer robberies and more than 1100 fewer Theft from Motor Vehicle offences.</p> <p>Barnet remains a safer borough when compared to other London Boroughs. Cllr Tom Davey (Chairman of Housing Committee)	To date our approach has been to focus on growth on brownfield sites whilst protecting and enhancing the qualities, such as the Green Belt, that are good about living in Barnet. We have delivered nearly 3,500 new homes since 2012 when the Local Plan was adopted, nearly 99% of these have been delivered on brownfield sites.	Would Barnet's approach continue to be to build on the brownfield sites, protecting the green and open spaces of the Green Belt that is so important for the borough?	Yes.

Cllr Richard Cornelius (Leader of the Council)	The Key Performance Indicator covers the availability of whole council systems and systems critical to the council's safeguarding duties, rather than those which operate in an individual service. Capita have not failed a KPI but other contractual remedies are in place that allows the council to seek compensation for any costs associated with bringing the system back into operation and losses incurred by the council.	If lost years of data, misinformation about the status and weeks of disruption to computers in our libraries are not a failure of our key performance indicators, does this not confirm that the Capita contracts are weak and ineffectual. 				undertaking a major project to introduce a range of new services to the Finchley Memorial hospital building. The CCG believes that it will make most sense to conduct this travel survey once the hospital's new services are operating at full capacity. This is not likely to be until summer 2016. When the results of the survey are available the Council will contact Transport for London again to discuss the findings. Ward Members will have an important role to play.		
76	Cllr Dr Devra Kay	The lights in committee rooms at Hendon Town Hall are as dim and inadequate as the lights that have been dimmed by 50% in Barnet's streets. It is difficult for both committee members and members of the public to read committee papers causing a real strain on eyesight. In addition, bulbs are	Cllr Richard Cornelius (Leader of the Council)	The Facilities Management (FM) team are replacing fused light bulbs to ensure all the bulbs for the fittings light up in Committee rooms. This commenced on 21/3/16, the electrical engineer will then, week commencing 28/3/16, check the lighting levels in the rooms to see if the room lux levels are up to the standards laid down in the CIBSE guidance. Once this is done, the FM team will know whether the lighting needs to be upgraded or not. As per policy	In the answer ... the team are replacing fused light bulbs etc., on the 21/3/16. I have just been into Committee Room 3, three lights are out and they haven't been replaced and it's 4 <sup>th</sup> April and this has been going on for months. I know many other members and people in the gallery have complained	I am sure that the light bulbs will be repaired.

		not replaced for some time after they no longer function making the situation worse. In other public buildings the attractive older lights are retained while reasonably priced small spotlights are fitted to provide the necessary light. Would the Leader ensure us that something will be done to make committee room lighting fit for purpose.		agreed at GFC on 21/3/16 any recommendations for change or upgrade will be reported to Group Leaders and Chairman of GFC with the option of a full report coming to GFC if requested.	about the level of light. Can something be done about it?	
77	Cllr Arjun Mittra	Does the Council have plans to commemorate the centenary of the Battle of The Somme and the residents of Barnet who served?	Cllr Richard Cornelius (Leader of the Council)	Perhaps the councillor would develop this idea.	Perhaps you might like to consult with the Deputy Lieutenant about what would be an appropriate service.	I will support this. It seems a very good idea.
