# 1. Introduction

Barnet recognises the value that a strong and stable family life provides to young people aged 16/17, particularly in relation to the quality of their relationships, education, financial security, preparation for adulthood and positive health; this is widely supported by research which tells us that children and young people do better when they remain living within their own families.

As such, we will always strive to find ways to help young people remain living with their families by helping to repair relationships with their parents/carers or exploring other members of the family who might be able to offer the security of a stable home into adulthood.

We recognise that for some young people, this type of stability and security may not be available to them within their own families, and when this is the case we will assess their needs thoroughly in order to decide the type and level of accommodation and support that will need to be provided to them.

This protocol sets out Children's Social Care and Housing Options joint procedure for responding to 16/17 year old homelessness. It covers what will happen from the point young people present asking for help to longer term support arrangements.

Our commitment is:

- To ensure that all young people approaching our services for help are treated fairly, with respect and with sensitivity to their age, understanding and individual backgrounds or circumstances
- To thoroughly assess a young person's circumstances without prejudice
- To seek to find the best outcome for young people by listening to what they have to say and working in their best interests and in collaboration with them
- To maintain a professional and calm approach towards young people at all times
- To ensure that it is safe for young people to return home
- To ensure that accommodation provided to young people is of a good quality
- To ensure that young people are escorted to their accommodation and helped to settle in and/or introduced to those that will be providing day to day support to them
- To listen to young people's views and feedback about their experiences

# 2. Out of hours/Emergency referrals

Outside of office hours, young people will need to call the Emergency Duty Team on (0208 359 2000), all young people who contact the service as homeless out of hours will be placed in foster care or in a high support placement until the next working day.

### 3. First Point of Contact

When young people present as homeless and ask for help, our first priority is to ensure that they are safe from harm. We will also make sure, where necessary, they have somewhere safe to stay where there is an appropriate level of support available to help them cope with living away from home, whilst we assess their needs and explore their circumstances fully.

All 16/17 year olds that are homeless or at risk of homelessness will need to present themselves at Barnet House between the hours of 9am – 5pm where they will meet with a Youth Mediation Coordinator who will ask them questions about what has happened and obtain contact information for their parents/carers and any other relatives who might be able to support them.

The Youth Mediation Coordinator will establish if the young person is homeless or at imminent risk of homelessness, they will explore with the young person and their family if the difficulties that have led to the young person presenting at Barnet House can be resolved and attempt to enable the young person to remain at home, when it is safe for them to do so.

The Youth Mediation Coordinator will consider:

- The young person's history of involvement with services
- Family circumstances and composition
- Support networks within and outside of the family
- The young person's particular vulnerabilities (i.e. health, mental health and learning needs) and immediate risks (i.e. gangs, safeguarding)
- The young person's education, training or employment status
- The young person's views
- The views of the young person's family, particularly those that hold parental responsibility

If the Youth Mediation Coordinator establishes that a young person can safely return home and is not in need of a statutory assessment of their needs, they will ask for consent to make a referral to MASH to enable early help options to be explored for the young person and their family, including the need for a CAF.

All young people found to be in need of accommodation or at risk of imminent homelessness will be referred to MASH, without the need for consent, to enable the commencement of a single assessment by Children's Social Care and Housing Options.

### 4. Emergency Accommodation

Once a young person has been referred to MASH as homeless or at imminent risk of homelessness, the MASH will make a same day allocation to the Social Work Team on duty in Children's Social Care. For young people in immediate need of accommodation the allocated social worker will make an immediate referral to the Placements Service to source emergency accommodation with an appropriate level of support.

The Placements Team holds an approved provider list of supported accommodation options, including out of borough placements. At no time must young people be placed in temporary accommodation in an emergency unless there is also a high level package of support to wrap around them in place. Some young people, particularly 16 year olds and those with a higher level of vulnerability may need to be placed in an emergency foster or residential placement to ensure that they are safe and well cared for.

All young people placed in accommodation in accordance with a Children Act assessment will immediately become 'Looked After' pursuant to s20 Children Act 1989. The social worker must immediately commence 'Looked After' processes including referral for a LAC medical and make a referral to the Permanency Planning Panel.

A young person may also be placed in supported accommodation pending an initial assessment in accordance with s.188 of the Housing Act 1989. Once an initial assessment has been completed and it has been determined that s.20 accommodation will be provided, the housing duty will cease and the young person will be accommodated under s.20. A young person's vulnerability to harm and exploitation and risk to others must always be considered when considering the type and level of placement and support that is needed and provided.

Accommodation provided whilst an assessment takes place, ensures that young people are not left in unsuitable living arrangements before the extent of their needs are known. The provision of accommodation during an assessment does not automatically qualify the provision of longer term housing support for a young person.

#### **4.1. Young People at risk of/involved in Gangs, Offending and Exploitation**

Young people who are engaged in offending or who are gang-involved may be at risk of harm to others and still present with a high level of vulnerability to serious youth violence and exploitation. The Youth Offending Team must always be consulted when a young person is open to their service and is in need of emergency accommodation. This includes young people at risk of homelessness on release from a custodial setting. The highest context is always to ensure a young person will be safe and risk of harm to others is minimized by making adequate checks to ensure that gang-involved young people are not placed in the vicinity of rival or other high profile gang affected areas, or that other very vulnerable young people are not sharing the same placement/accommodation. The same principal applies to young people who are at a high risk of going missing and are vulnerable to child sexual and other forms of exploitation.

#### **4.2. Young people in custody**

Young people who are in custody will require contingency planning for their release on bail into the community and/or following a custodial sentence. Planning for release should commence as soon as a young person is placed in custody by holding a Family Group Conference which will help identify who in the family the young person can expect to receive support from whilst in custody and where they will live upon their release, whether this is planned or unplanned.

Planning for young people leaving who have served a custodial sentence must commence no later than 4 weeks ahead of their known release date. A placement must be identified and an address confirmed in readiness for resettlement support and any community based support or restrictions to be adequately planned for. Young people that have served more than 13 weeks on remand will be entitled to services from Onwards & Upwards as a former relevant care leaver. They must be allocated to Onwards &

Upwards as soon as the 13 week threshold has been met if their release date will occur before their 21<sup>st</sup> birthday.

## 5. Assessment

### 5.1. Section 17, Children Act 1989

All young people placed in emergency accommodation under s20 Children Act 1989, and those at risk of imminent homelessness who remain living at home or with a safe family member/friend will have a full assessment of their needs undertaken by their allocated social worker. It is in the best interests of young people and their families for a full assessment of their needs to be undertaken in order to make timely decisions about what needs to happen next, as such, single assessments will be completed within 45 days unless there are very good reasons to extend the length of the assessment. Manager agreement must be sought by the social worker and recorded by their manager to extend an assessment beyond 45 days.

In accordance with [Barnet's Local Assessment Protocol 2017](#) the assessment will explore the young person's life at home, in school and in the community; it will explore relationships with family and friends to understand what life is like for the young person, it will focus on individual and family strengths as well as any risks that the young person poses to others or may be facing.

A Family Group Conference must be convened to explore alternatives to care arrangements and to mobilise the support family members, family friends and other trusted adults including neighbours community groups and churches may be able to offer support to a young person who is living away from home.

All assessments must be undertaken jointly with the Housing Options team who will assess what duties are owed to the young person under Part VII, Housing Act 1996.

### 5.2. Assessment Outcome

The single assessment will determine if the young person is 'in need' as defined by s17 Children Act 1989, all young people who are found to be homeless will almost always be defined as Children in Need in accordance with the Act. The assessment must also determine whether the young person is in need of accommodation and longer term accommodation and support be provided .

Once a young person has been determined to be 'in need' **and** 'in need of accommodation' they must be provided with information about their rights and the local authority's and Housing Options responsibility for them. Young people must be given written information and supported to access an advocate who can provide impartial advice. Young people can receive housing and support services under:

- **Section 17 Children Act 1989** – will entitle a young person to support provided by the local authority .Any young person who is provided with support services pursuant to s17 will be afforded a Child in Need Plan until they reach 18 years of age. If a young person, having made an informed decision, does not wish to be accommodated under s.20, the young person will be assessed for housing under Part VII of the Housing Act 1996. If a young person is able to be accommodated with family members with support, accommodation may be offered under s.17.

- **Section 20 Children Act 1989** – As a result of being provided with accommodation under s20 the young person will become a Looked After Child (LAC) and thereafter will be eligible to receive all the services which the Local Authority has a statutory duty to provide to Looked After Children as set out in the Children Act 1989 including regular LAC reviews to ensure that their needs are continuing to be met. They may also be entitled to a range of services once they cease to be looked after as a result of the Local Authority's leaving care duties as set out in the Leaving Care Act 2000 and the Care Leavers (England) Regulations 2010. Young people who are accommodated under s. 20 must be transferred to the Children in Care/Onwards and Upwards Service at the end of the assessment and following ratification at Permanency Planning Panel.
- **Part VII Housing Act 1996** – will entitle a young person to temporary accommodation and placement on to the Council's Housing Allocation Scheme for longer term housing options. With the exception of emergency accommodation pending a Children Act assessment, accommodation can only be provided under the Housing Act if a young person is not assessed as in need of accommodation under s.20 or has declined the provision of s.20 accommodation. When declining the provision of accommodation under s.20, a young person must be given advice on the consequences of this decision and the legal tests that Housing will apply in determining whether they are eligible for housing, including whether they are intentionally homeless. All young people who are provided with Housing Act accommodation will be assessed to identify whether they require support under s.17 and if so, will be afforded a Child in Need Plan and an outreach support package. Specific consideration will be given to funding arrangements to cover accommodation costs and affordability once the young person reaches the age of 18 years.

For young people who are found to be homeless and have been living at home or in family/friends arrangements during the assessment period, a referral to the Permanency Planning Panel must be made followed by a referral to the Placement Team to identify suitable accommodation in accordance with their assessed needs and panel decision.

An assessment may also determine that a young person:-

- Is not 'in need' and therefore *not* in need of s20 accommodation  
In such circumstances the social worker will ensure that the young person is supported to return home, if they have been provided with accommodation for the duration of the assessment and are referred on for early help services where appropriate. Alternatively if the young person does not wish to return home they may be advised to approach the Housing Department who will determine whether they have a statutory duty to provide them with Housing. This will include an assessment of any identified risks at home and the parents willingness to have them return home. Children's Social Care will have no on-going involvement with the young person, although early help services may be required. If Housing Options, having assessed the child, believes that they may be in need of services, the officer should refer the matter back to Children's Social Care for further consideration.
- Is 'in need' but is *not* in need of accommodation

In these circumstances the young person will be supported to return home, if they have been provided with accommodation for the duration of the assessment, and will be subject to a Child in Need Plan to ensure their needs are met to remain living in the family.

Following assessment the Targeted Youth Service will offer support to ensure young people are supported with education, career paths, managing finances and life skills.

## 6. Support Packages

All young people placed in emergency accommodation will initially receive a high level support package to ensure that they have access to the support they need from the accommodation provider, Targeted Youth Service or other provider. This avoids the risk of young people being left in situations where they are not yet ready to manage the complex task of living independently. The support package must include daily visits to the young person until there is sufficient evidence that the young person has developed the skills and knowledge they need to manage independent living without the need for high levels of support. It is acknowledged that some young people are better prepared for independent living than others and may only require high level packages for a short period. This will be decided on a case by case basis. (See Appendix 2 for checklist)

Youth Workers will also act as advocates at meetings and provide mediation where they are currently involved with a young person in order to avoid unnecessary layering of professional involvement

## 7. Advocacy

An advocacy service is available for young people who need support to attend appointments. Out of office hours a telephone call should be made.

Barnet Family Services has an arrangement with SOVA who can provide support on a spot purchase basis. For further information contact:
