<p>Summary</p>
<p>This report provides information on the Council’s health and safety performance for the period 2017/18. It also sets the priorities for the period 2018/19, to ensure continued improvement in H&S performance.</p> <p>The report is based on performance information and data obtained from the council’s accident/incident reporting system, together with independent audit results, corporate training records and ill health data.</p>

<p>Recommendation</p>
<p>1. The Committee is requested to note the report and approve the priorities for the period 2018/19 as outlined in section 3 of Appendix 1; Councils Annual Health and Safety Report</p>

1. WHY THIS REPORT IS NEEDED

- 1.1 This report enables the council to monitor its health and safety performance over a defined period and set priorities to achieve continual improvement and address any gaps identified.

- 1.2 The [Management of Health and Safety at Work Regulations 1999](#) and associated guidance suggests that regular monitoring of health and safety performance enables organisations to set meaningful targets to effect improvements, reduce work related accidents and ill health and comply with statutory duties.
- 1.3 The review of the previous year's performance as shown in Appendix 1 is split into the four areas that enable us to effectively monitor health and safety; these being:
- Reported work related accident and Ill health
 - Levels of compliance with legislation and council policy
 - Health and safety training delivered
 - Any enforcement action taken against the council
- 1.4 The review shows that the council performs well overall and manages its risks effectively. The council's incident rate is below the average for public services and it consistently scores over 70% for its average audit score which shows good levels of compliance and H&S performance. The areas that require further improvements are in activities that lead to manual handling injuries and stress related illness. The council also needs to produce strategies to ensure Health and Safety training is completed by all staff.

2. REASONS FOR RECOMMENDATION

- 2.1 The recommendation seeks agreement of the council's health and safety priorities which aim to address gaps and effect improvement in the council's health and safety performance.

3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED

- 3.1 N/A

4. POST DECISION IMPLEMENTATION

- 4.1 Directors will be required to formulate action plans to implement the priorities for the period 2018/19. Directors will be required to formulate action plans to implement the priorities for the period 2018/19. Directors will be supported and advised by the Corporate Health and Safety and Wellbeing Team to ensure action plans are comprehensive and feasible to implement.
- 4.2 The 2018/19 Annual Council Health and Safety report will highlight performance against these priorities.

5. IMPLICATIONS OF DECISION

5.1 Corporate Priorities and Performance

- 5.1.1 The [Corporate Plan](#) includes the strategic objective to "improve the satisfaction

of residents and businesses with the London Borough of Barnet as a place to live, work and study". This report aims to contribute to that objective by setting standards, through the way it manages health and safety, to ensure the council remains exemplars in the community, continues to be a good employer and protects persons who may come into contact with its activities.

5.2 **Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

5.2.1 There are no additional financial implications as a result of the proposed decision. Health and safety management is part of business as usual and is managed within existing budgets.

5.3 **Social Value**

5.3.1 N/A

5.4 **Legal and Constitutional References**

5.4.1 The council has various legal duties held under the Management of Health and Safety at Work Regulations 1999, the [Health and Safety at Work, etc. Act 1974](#) and regulations made under it. Failure to comply with those duties may lead to prosecution for breach of statutory duty for the council as well as individual Members and officers. Negligence in relation to health and safety matters can also result in costly personal injury claims in the civil courts.

5.4.2 According to the Council's Constitution, Article 7 the terms of reference for the Constitution and General Purposes Committee includes to have responsibility for overseeing the Council's governance arrangements including Health and Safety Strategy and performance.

5.5 **Risk Management**

5.5.1 Failure to effectively manage health and safety risk increases the likelihood of injury and ill health to staff and others during council activities. Significant failure may lead to a catastrophic event that causes multiple injuries or fatalities to staff and the public. Failure to comply with statutory obligations increases the risk of prosecution. Any work practices that result in ill health or injury could result in legal action against the council, financial loss and negative publicity leading to reputational damage.

5.6 **Equalities and Diversity**

5.6.1 The council's Corporate Health and Safety Policy aims to ensure the protection of employees and anyone else who may come into contact with our activities and services. This includes people at particular risk, for example people with disabilities, pregnant women and vulnerable service users. The policy helps to enhance Barnet's reputation as a good place to work and live, and aims to protect employees and service users taking regard of age, disability, ethnicity, faith/belief, gender, and sexual orientation.

5.6.2 The policy also supports the council in meeting its statutory public sector equality duties and compliance with the range of employment (equality) regulations.

5.7 **Consultation and Engagement**

5.7.1 The Annual Health and Safety report will be presented and discussed at the Local Joint Consultation Committees (JCC's).

5.8 **Insight**
