

FINCHLEY & GOLDERS GREEN RESIDENTS' FORUM
Thursday 5 September 7PM

VENUE: Finchley Church End Library 318-320 Gateway House, Regent's Park Road, N3 2LN

Chairman: Councillor Jennifer Grocock
Vice Chairman: Councillor John Marshall

The council is consulting on its draft Growth Strategy. The strategy sets out the council's role and priorities for regeneration, development and business, employment and skills activity across the borough from 2019 to 2030. For further information on the consultation and to provide your views, please visit <https://engage.barnet.gov.uk/growth-strategy>

ISSUES TO BE CONSIDERED AT THE FORUM MEETING

	Issue Raised	Response from
1	<p>Petition: Petition for Barnet Council to CCTV and Restricted Parking Winnington Road Lead Petitioner: Vered Aaron Signatures: 52</p> <p>Late in the evening and throughout the night unknown vehicles, vans or cars, park on the streets and leave by the morning. These vehicles do not belong to anyone living in the area or close by. The residents of this streets constantly feel threatened. Potential thieves and burglars leisurely drive around our roads at night slowly scouting and our homes in order to plan their next attack.</p> <p>Criminals and gangs enter homes with knives and machetes. Do we need to wait for somebody to killed before this is taken seriously? If so, that will only be a question of time. It is imperative and the absolutely minimum response to the issues outlined above that we introduce CCTV to monitor and protect all the homes in the neighbourhood. Moreover, restricted parking rules should be introduced to stop the 'trolling' of our roads late at night.</p>	

	Issue Raised	Response from
	<p>I am sure that you will agree that the most important responsibility of a council is the protection and mental wellbeing of its constituents and these concerns should be placed ahead of all other topics.</p> <p>https://barnet.moderngov.co.uk/mgEPetitionDisplay.aspx?ID=81&RPID=647580685&HPID=647580685</p>	
2	<p>Submitted by: Jessica Howey (Secretary - Railway Terraces' Residents' Association) Issue: Cricklewood Railway Terraces road surface</p> <p>The roads in the Cricklewood Railway Terraces are in a terrible state and need to be completely resurfaced. There are potholes and dips in the road surface. This is dangerous as we do not have pavements that are wide enough to walk on or push a pram on, so our roads are shared between vehicles and pedestrians. The uneven surface in some sections of Johnston/Needham Terrace form large mounds which are especially dangerous for pedestrians after dark. There have been many attempts to patch the roads, all inadequate, and the surface soon breaks up again leading to even greater potholes and more unsightly patches.</p> <p>Given the many developments in Cricklewood which will impact negatively on the Terraces, we would like the resurfacing of our roads to be a positive action with a timetable for the work to be programmed into Barnet's budget for 2019/2020.</p>	
3	<p>Submitted by: Jordon Neville Issue: Speeding Castle Road</p> <p>Residents on Castle Road are concerned by the speed of motorists driving down the road, in many cases travelling at over 50 MPH. This is happening more frequently and I genuinely believe it is only a matter of time before a fatality occurs. Many residents have young children and are worries about their safety.</p> <p>We wish to request that the Council takes the following action: Speed bumps on Castle Road. Perhaps two at selected positions would quickly and cheaply solve the problem.</p>	

	Issue Raised	Response from
4	<p>Submitted by: Duncan Parsons Issue: Resident parking concerns, Eversleigh Road - Finchley Central</p> <p>Resident parking is already a major issue for many people in our area. Currently, there is no parking restriction on our road (Eversleigh Road) or neighbouring roads meaning we struggle to park near our house every day. The issue comes in part, as a result of commuters parking and then walking to Finchley Central (not to mention the littering), another major issue is work vans where we have businesses (resident or otherwise) parking their fleet of vehicles on the road. For context, one particular gardening company has over 5 vans often on the road (their employees drive in and park in the space as they take the van for the day), another lightening protection firm has around 4 vans. Equally, there is currently a large vehicle transporter which has been there for minimum 4 weeks without moving.</p> <p>In mine and many other residents opinion, this problem could be significantly reduced by certain parking measures that are already in force in neighbouring areas.</p> <p>The response I received from the Barnet Council initial on-line concerns system is below and I believe when reading between the lines it says the council is not planning to investigate this but they will keep a record of my concern. I do not believe this to be very constructive nor very reactionary and certainly won't help the various young and elderly residents who are currently being affected by the situation:</p> <p><i>'As it stands your road is primarily uncontrolled, and although there may be various demands for kerbside space from residents and other users of the area, motorists are able park anywhere within reason.</i></p> <p><i>In order to deter non-residents from parking in residential streets all day, whilst reserving kerbside space for residents, in many areas of the borough the Council has introduced Controlled Parking Zones (CPZs).</i></p> <p><i>Unfortunately, the council currently has no plans to investigate the possible introduction of a CPZ in your road/area as the investigation/consultation of such a scheme is not on our current programme of work.</i></p>	

	Issue Raised	Response from
	<p><i>However, your request will be held on file for assessment and prioritisation, which will take place later this year, where all unresolved CPZ requests will be assessed to determine whether or not a more detailed investigation will be included in future years' work programmes.'</i></p> <p>I then re-raised via Mike Freer more recently and have dropped the response from the Regional Enterprise Members Case Officer below:</p> <p><i>Your constituent's concerns about commuter-type parking taking place in Eversleigh Road has been noted. Please note that the usual process is that each request that the Council receives would be assessed and then prioritised and then progressed through Local Implementation Plan (LIP) funding. However it should be noted that for the 2019/20 period, and possibly future years, there is no LIP funding available to undertake such work.</i></p> <p><i>Officers will consider as the year progresses whether there is any available funding to progress such items. This request is on the list for future assessment. However if your constituent feels that this location requires immediate attention, then there is the option of your constituent arranging for the matter to be raised at the Finchley & Golders Green Residents Forum, which could in turn refer the matter up to the Finchley & Golders Green Area Committee, where funding to progress scheme investigation could be granted, if the Committee considers it appropriate to do so.</i></p> <p>Again, it's not very clear but it sounds like there is no budget. I appreciate things cost money in terms of administration, signage and resource to enforce but I'm sure a CPZ approach would generate revenue from penalties/resident permits that would cover any costs and it would have a really positive impact on the local residents.</p>	
5	<p>Submitted by: Julia Hines Issue: Brexit impact</p> <p>In light of Operation Yellowhammer, can you explain what steps the Council has taken to protect the borough in the event of a failure in Brexit negotiations by this Government and a No Deal Brexit - specifically, how have you partnered with local businesses and the voluntary sector e.g. foodbanks, social care providers, charities supporting young</p>	

	Issue Raised	Response from
	people etc and what money have you allocated to this?	
6	<p>Submitted by: Mr Levy Issue: Breaching noise regulations</p> <p>There is an increasing problem of vehicles apparently breaching noise regulations, especially fast/'sporty' cars but motorcycles and mopeds can also offend. Kensington and Chelsea announced fines for this in 2016 and have reportedly issued at least 148 such fines. Please will Barnet follow their example?</p>	

Contact: Salar Rida, Governance Service, Assurance Group, London Borough of Barnet, 2 Bristol Avenue, Colindale, London NW9 4EW
Tel: 020 8359 7113, Email: f&gg.residentsforum@barnet.gov.uk.

Future meeting dates:

Weds 8 January 2020, 7pm (venue TBC)

Issues must be submitted to the Governance Service (f&gg.residentsforum@barnet.gov.uk) by 10.00am on the 5th working day prior to the meeting.
