

Life Chances Strategy 2020-2024

Introduction

In 2016, the Welfare Reform and Work Act repealed sections of the Child Poverty Act 2010 which placed a statutory duty on local authorities to set targets to tackle child poverty and re-named the Act as the Life Chances Act 2010. The 2016 and 2010 Acts focus on improving life chances to mitigate child poverty. It stresses the importance of tackling worklessness, improving educational attainment and supporting 'troubled' families as the most effective ways of addressing what is considered to be the root causes of poverty.

Barnet remains committed to tackling child poverty and our Life Chances Strategy 2020-24 explains how we will work to improve young lives and increase their opportunities to succeed. By improving life chances, we can have a profound effect on poverty and inequality enabling better outcomes for young people in the borough.

The previous approach was captured in the child poverty strategy set out in the Children and Young People's Plan 2016-20. It supported our family friendly vision which is focused on making Barnet the most family friendly borough in London and an even better place for all families to live.

Improvement has been made since then and the appendix to this strategy sets out some of the progress that has been made. Recently published figures highlight Barnet having fewer children living in poverty with 14.0% of children under the age of 16 living in low income families in 2016 compared to 24.9% in 2006. Education results have also improved and are among the best in the country. However, improving life chances remains an issue, with child poverty growing nationally affecting over 4 million children leading to damaging health as well as futures.

Children living in poverty are more likely to

- Have poor physical health
- Experience mental health problems
- Have low sense of well-being
- Underachieve at school
- Have employment difficulties in adult life
- Experience lower social mobility
- Experience social deprivation
- Feel unsafe
- Experience stigma and bullying at school
- Be disproportionately affected by anti-social and criminal activity

Research shows that impacts on child poverty are complex. Giving young people the chance to succeed needs to recognise this and requires action targeted at both the child themselves, and at their wider environment, including their family, and the community in which the child lives. All interventions must consider targeted communications campaigns as a primary tool for raising awareness and behaviour change.

This new life chances strategy restates Barnet's pledge to help young people flourish as part of the family friendly vision, through priorities and actions to build families and children's resilience to ensure better outcomes.

Life Chances and the UN Convention on the Rights of the Child (UNCRC)

We are committed to upholding children's rights within Barnet and over the next three years, the London Borough of Barnet, including all its delivery partners, will work with UNICEF to progressively achieve a number of core outcomes within the Children and Young People's Plan 2019-2023. The overarching ambition is for the borough to be recognised by UNICEF UK as a UNICEF Child Friendly Community in 2020.

There are several articles from the UNCRC which are relevant to improving life chances.

Article 3 (best interest of the child) The best interest of the child must be a top priority in all decisions and actions that affect children.

Article 6 (life, survival and development) Every child has the right to life. Governments must do all they can to ensure that children survive and develop to their full potential.

Article 12 (respect for the views of the child) Every child has the right to express their views, feelings and wishes in all matters affecting them, and to have their views considered and taken seriously.

Article 24 (health and health services) Every child has the right to the best possible health. Governments must provide good quality health care, clean water, nutritious food, and a clean environment and education on health and well-being so that children can stay healthy.

Article 26 (social security) Every child has the right to benefit from social security. Governments must provide social security, including financial support and other benefits.

Article 27 (adequate standard of living) Every child has the right to a standard of living that is good enough to meet their physical and social needs and support their development.

Life Chances needs assessment in Barnet

Life chances can be assessed in many ways. On an annual basis, HM Revenue & Customs (HMRC) produces statistics on the percentage of children in low income families (i.e. children aged under 16 years old living in families receiving out of work benefits or tax credits, where their reported income is less than 60% median income). On this measure of child poverty, 14.0% of children in Barnet under the age of 16 were living in low income families in 2016, which was significantly lower than both London (18.8%) and England (17.0%). Poverty rates are also higher for people living in families that include a disabled adult or child than they are for people living in families where no one is disabled.

The Welfare Reform and Work Act 2016 introduced a duty on Ministers to report annually on two 'life chances' indicators, relating to children in workless households and educational attainment. Data on these indicators is included in the assessment below.

Child poverty - London authorities

Within the local authorities in London, Barnet is ranked 25th on child poverty, using this measure (see Figure 1).

Figure 1: Percentage on children living in low income families, in London local authorities, London and England, under 16s, 2016

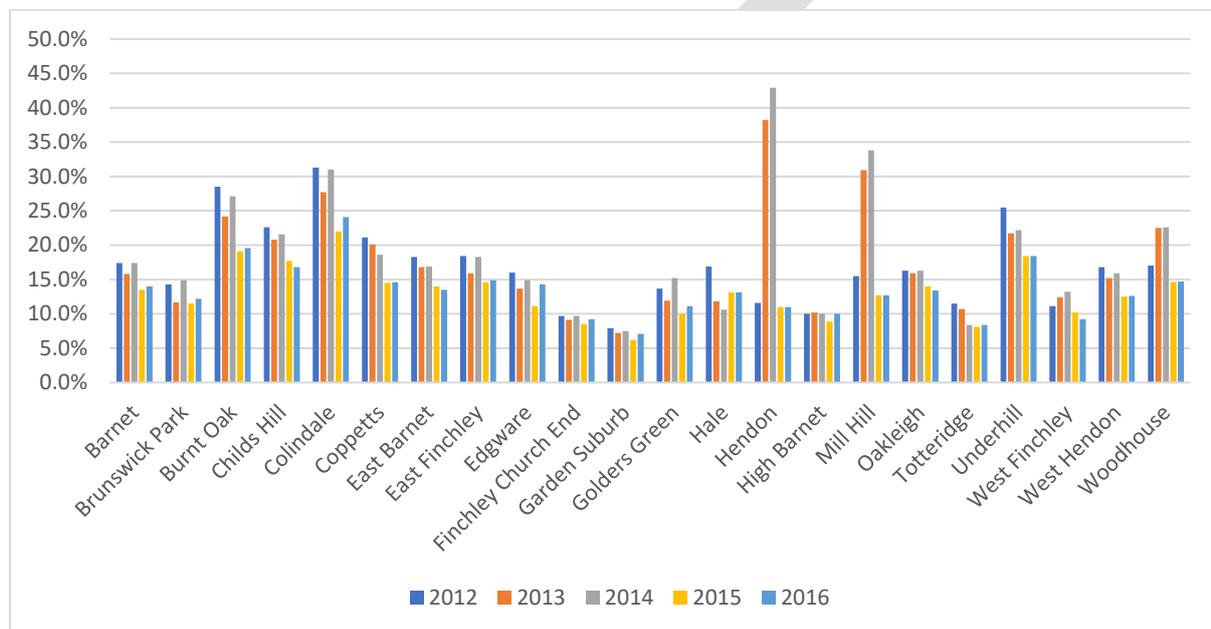

Area	Recent Trend	Neighbour Rank	Count	Value
England	↓	-	1,707,835	17.0

Barnet 2012-2016

An analysis of child poverty in Barnet prior to 2016 offers an insight into a consistently changing picture. Figure 2 reveals the previous 5 years highlighting variation within individual wards and across the borough, with the overall trend heading down.

Figure 2 – Barnet Child Poverty 2012–2016

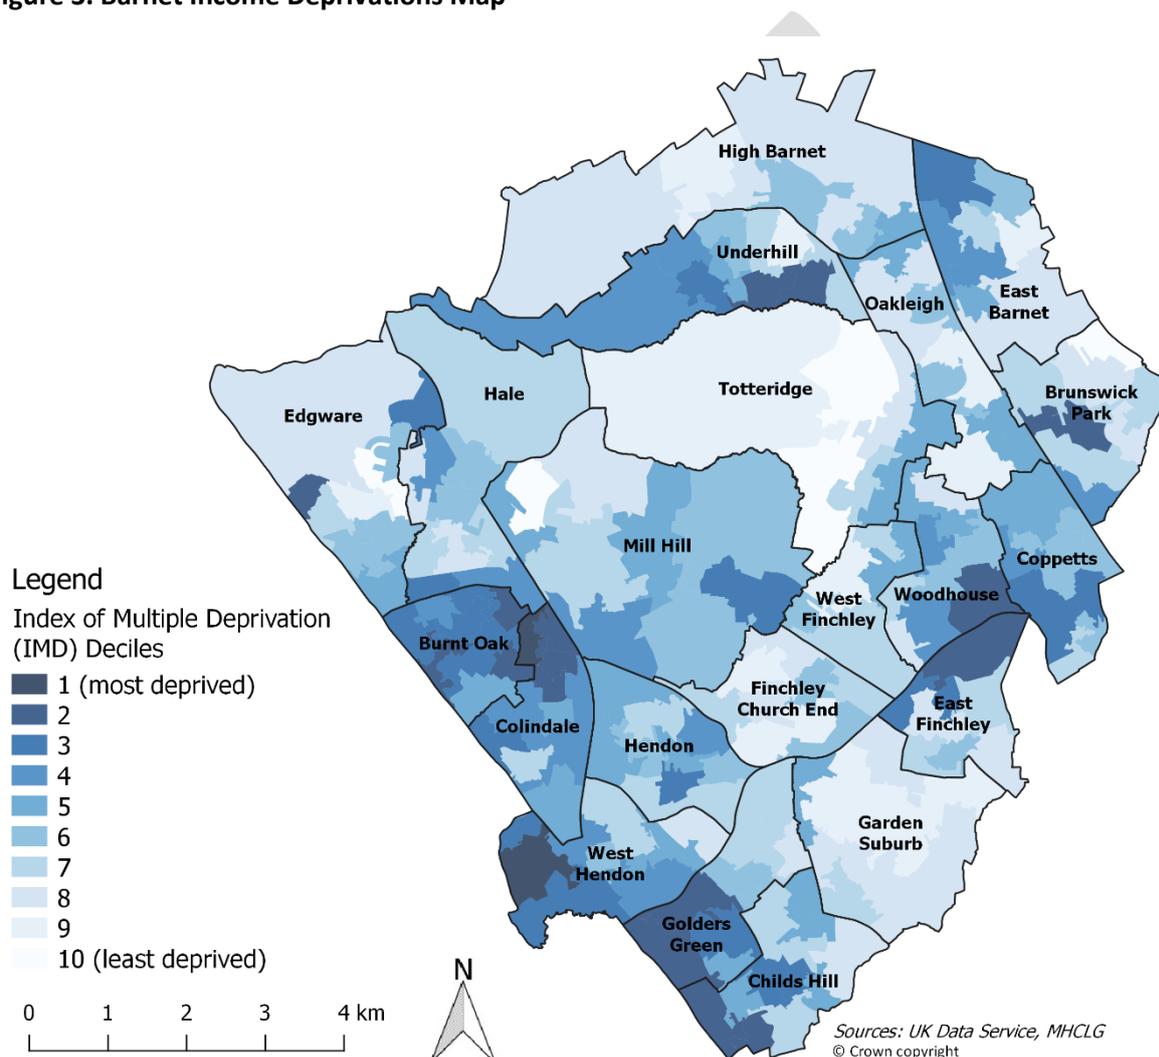

Source: Based on data from HMRC.

Child poverty - Barnet 2016

The latest research into child poverty shows Barnet has an Index of Multiple Deprivation (IMD, 2015) score of 17.8, making it one of the least deprived boroughs in London. However, even in this relatively prosperous borough, there are pockets of deprivation, many of which are concentrated in the west and south. (See Fig 3)

Figure 3. Barnet Income Deprivations Map

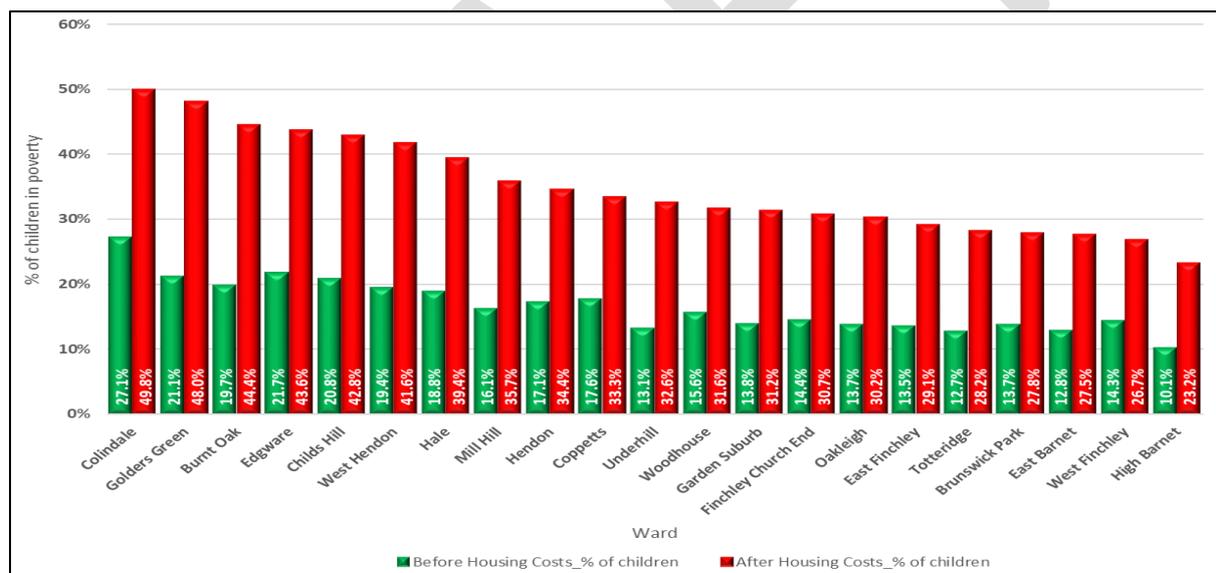

Between 2006 and 2009, the percentage of Barnet children aged under 16 living in low income families was significantly higher than the England average. In 2010, this proportion became similar to the national average and between 2011 and 2016 it was consistently significantly lower than the England average. In 2006, a quarter of Barnet children (24.9%) aged under 16 lived in low income families, but since then this percentage has shown an overall downward trend. By 2016, the

proportion of Barnet children living in poverty had fallen to 14.0%, which is significantly lower than the 2006 figure. Between 2006 and 2016, the percentage of children in poverty in Barnet was consistently significantly lower than the London average and the number of children in poverty had fallen from 15,985 to 10,000.

On an annual basis, the Centre for Research in Social Policy produces figures of child poverty for the End Child Poverty Coalition for each ward, local authority and parliamentary constituency in the UK. These estimated figures are based on HMRC data on children living in low income families and are adjusted based on the Labour Force Survey to reflect in-work poverty more accurately.

Figure 4 shows the percentage of children within Barnet wards living in poverty during 2017/18, before and after housing costs have been taken into consideration. The green bars in the chart show the percentage of children living in poverty before housing costs have been taken into consideration and the red bars, after housing costs have been included. For Barnet, during 2017/18, the highest proportion of children living in poverty (after housing costs are considered) was found in Colindale (50%) and the lowest in High Barnet (23%), during the same period.

Figure 4 - Percentage of children living in poverty for wards in Barnet, before and after housing costs, 2017/18

Source: End Child Poverty Coalition (2019) based on adjusted data from HMRC.

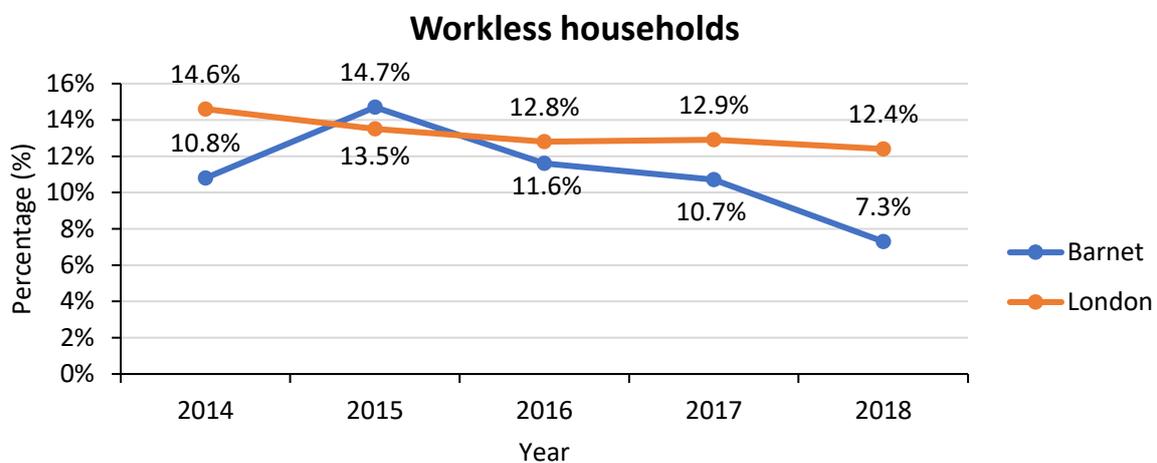

A number of food banks now operate in Barnet providing families experiencing poverty with essential support. These are run by independent organisations and accordingly have different referral processes. The lack of data on food bank usage and food aid usage was identified as a gap within the food security needs analysis completed June 2018. There is also a lack of clarity around food security data. A Public Health report identified key geographical areas at risk as well as population groups. These findings fed into the Food Security Action Plan (found here: <https://barnet.moderngov.co.uk/documents/s55446/Appendix%20%20Barnet%20Food%20Security%20Action%20Plan%202019.pdf>).

Recognising the potential health impacts of food insecurity on child poverty, Barnet Public Health is funding a part-time position within Young Barnet Foundation to set up holiday hunger programmes in the borough and are exploring ways to increasing the uptake of free schools meals and healthy start vouchers. Furthermore, ways are being explored for frontline council staff to record when referrals to food banks are made. This will enable future food security needs analysis to record food bank usage, referrals and demographics.

Workless Households

One of the 'life chances indicator' on which Ministers have to report as set out in the Welfare Reform and Work Act 2016 is on workless households. Figure 5 below shows that between 2015-18 the figure for Barnet decreased from 14.7% to 7.3% whereas the London figure decreased from 13.5% to 12.4%.

Figure 5- % of workless households 2014-18

Education attainment in Barnet - 2019

Educational achievement is known to affect life chances and is one of the two 'life chances indicators' that Minister have to report annually as set out in the Welfare Reform and Work Act 2016. The quality of Barnet's schools is a significant contributory factor to making the borough a popular and desirable place to live and supports our strategic drive to be the most family friendly borough in London. For a number of years, Barnet has been one of the top performing local authorities in the country for both the achievement of children and young people and the quality of schools. The intention is to be among the top 10% of local authorities in relation to the quality of its schools' provision, with a particular focus on closing the gap, and is a key part of the life chances strategy.

Good and outstanding schools

- The percentage of Good and Outstanding schools in Barnet is now 96.8% and is above National, Inner London and Outer London averages. The percentage of primary and secondary schools in Barnet rated Good or Outstanding is in the top 10% of the country. 100% of Secondary schools, Special schools, PRUs and Nursery schools are rated Good or better by Ofsted.

Primary

- In Key Stage 1 attainment at the expected standard is above the national average in all subjects and in the top 10% of LAs in reading, writing and mathematics, and above statistical neighbours and London averages.
- At Key Stage 2, Barnet is 7th in the country for the number of pupils reaching the expected standards in Reading, Writing and Maths combined.
- Attainment in Reading, Writing and Mathematics combined by disadvantaged KS2 pupils is now in the top 10% of LAs, with Barnet ranked 9th in the country. In 2016 the percentage of disadvantaged pupils reaching the expected standard in Reading Writing and Mathematics was 46%. In 2017, it had increased to 55%, and in 2019 the proportion of Disadvantaged pupils reaching the expected standard in Reading, Writing and Maths increased to 64%. The gap between disadvantaged pupils in Barnet and Other Pupils nationally is smaller than national, London and statistical neighbours and the progress made by disadvantaged pupils in Barnet between KS1 and KS2 exceeds national and statistical neighbour averages.

Secondary

- Barnet's Progress 8 in 2019 ranked Barnet the second best Local Authority in the country (out of 151 LAs) in 2019. These results gauge the progress made by students during their time at secondary school.
- The average 'Attainment 8' score in Barnet is 57.1 points, compared to the national average of 44.7 points, and an increase of 1.1 points in Barnet from the results in 2018. Barnet's Attainment 8 was the second best in the country (up from 5th in 2018).
- Barnet was in the top 5% nationally in both Progress 8 (4th) and Attainment 8 (5th) for disadvantaged pupils.
- In Progress 8 Barnet disadvantaged pupils are once again performing better than non-disadvantaged pupils nationally.
- At KS4 Barnet ranked in the top 10% of LAs for both Attainment and Progress 8 for pupils at SEN Support
- The Attainment 8 score was in the top 10% nationally for all groups other than 'All Black pupils' which was just outside the top 10% (17th up from 46th in 2018).

What young people in Barnet have told us

Young people's opinions are important and have helped shape our priorities within this strategy.

Barnet Youth Board members were involved in a workshop looking at tackling child poverty in London ahead of London Challenge Poverty Week in October 2019 organised by the 4 in 10 London's child poverty campaign network. During the workshop young people had the opportunity to amplify their voices by sharing their views on what poverty means to young people and what they feel should be improved. The workshop captured the young people through film-and was later launched at the London Challenge Poverty Week Summit. The film was seen by local decision makers and members of the wider public.

Young people shared their views of living in Barnet as part of the wider city of London.

Young people stated:

- *“in a society like ours it’s not ok that, 40% of all children in London live in poverty”*
- *“in a society like ours it’s not ok that parents are not given enough money to survive on”*
- *“ it’s not right that councils don’t do enough to support the families living in their properties”*
- *“if young Londoners are being held back by poverty- it bothers us because everyone deserves to have an education and have aspirations they know they can achieve”*

What young people feel needs to be improved for children in Barnet:

- *Young carers: Young people not having extra caring responsibilities*
- *Education: Young people supported to stay in education*
- *Childcare: More childcare support for low income families*
- *Transport: travel can be expensive to get around the city and if out of work or needing to travel for work this can be a barrier*
- *Knife crime: Young people who live in poverty who need money are attracted to be involved with gangs or sell drugs. As a result, they are at risk so carry a knife to protect themselves*

Action Plan 2020-2024

A commitment to successful outcomes for children, young people and families in the borough is shared by all services across Barnet. With financial spending falling, there is a need for partners to focus on working together to improve young lives and increase opportunities, addressing the drivers of child poverty and building resilience to improve future outcomes.

To improve life chances and address child poverty and its contributing factors, there is no single response that will succeed on its own. Services need to work together on a whole family basis in order to improve outcomes and wellbeing for children living in poverty. All interventions must consider targeted communications campaigns as a primary tool for raising awareness and driving behaviour change. Evidence suggests that single agency responses are unlikely to affect the change a child and family requires to succeed and escape deep-rooted poverty.

Partners have agreed to retain the existing priorities but to enhance the associated actions to improve life chances for young people in the borough.

Priority 1: Strengthening families and early years

- Deliver more initiatives through Children’s Centres in the 0-19 Early Help hubs including access to training and employment opportunities
- Proactive publicising and enabling of increased access to 30-hours and Free Entitlement to Education (FEE2) offer
- Introduce termly parenting programmes to run across the borough with more 0-19 staff are being trained in specific parenting programmes such as Strengthening Families

- Increase use of 0-19 hubs as venues that distribute food bank vouchers and work with the Voluntary sector around the Holiday Hunger Scheme - including further work to define and target, without stigmatising, those suffering
- Expand the role of Health Visitors to support new parents including co-delivery of health promotion groups and workshops in targeted areas and introduction of antenatal and 6 – 8 week review contacts prioritizing vulnerable families
- Work with partners to increase uptake of childhood vaccinations in Barnet across all socioeconomic groups
- Improve access to healthy food in early years by increasing the number of families accessing the Healthy Start Scheme
- Continue to refine the comprehensive multiagency perinatal mental health pathway for Barnet, including 1:1 support for vulnerable parents
- Strengthening identification and referral to services for families in need

Priority 2: Developing resilience and improving education

- Seek to raise achievement of all pupils, with particular focus on those who are disadvantaged or vulnerable
- Work with schools to maximise the percentage that are good or outstanding
- Work with schools to identify young people at risk of NEET and to provide them with additional support to help ensure they progress to education, employment or training
- Challenge and support schools to make effective use of Pupil Premium funding for the benefit of pupils from low-income families
- Improve the attainment and progress of children in care
- Increase the number of special school and specialist school places for pupils with SEND, to ensure they are in the right educational environment to do well
- Champion the educational progress and attainment of pupils with SEND
- Work with the schools to promote a whole schools approach to supporting emotional resilience, good mental health, and a healthy lifestyle throughout the school community including
- Further expand the Resilient Schools Programme to 75% of schools in Barnet by 2021
- Further expansion of the Healthy Schools and Healthy Early Years programmes
- Work with schools and partners to deliver high quality health and healthy relationship education, including targeted sexual health, contraception, relationship educational support to vulnerable groups
- Work to improve the number of children and young people maintaining a healthy weight, included targeted work with schools with a high prevalence of excess weight among their pupils

- Work with partners to increase the number of children in Barnet who are free from dental decay
- Work with schools and young people to improve physical activity levels for all children and young people in Barnet including supporting primary schools to implement 20 mins of extra daily physical activity such as Mayor Golden Kilometre (MGK) or the daily shake up
- Implement a pilot training scheme to prepare care leavers for independent living

Priority 3: Delivering equal access to opportunities

- Supporting the uptake of free school meals and healthy start vouchers as part of Food Security Action Plan (FSAP)
- Seek opportunities to support at-risk children to access food 365 days a year to minimise the health impacts of chronic food insecurity
- Roll out and promote programmes for work experience, apprenticeships, training, volunteering, and paid employment including supported opportunities for people with SEND.
- Ensure regeneration projects promote community cohesion
- Improve access to advice and support for people in poverty by co-locating and better coordinating services – e.g. benefits and housing advice services, Jobcentre Plus and careers services

Priority 4: Targeting support

- Implementation of Homelessness and Rough Sleeper Strategy providing support to prevent young people becoming homeless and rough sleeping
- Prevent families from becoming homeless and reduce the number of families in temporary accommodation
- Increase focus on early intervention and homelessness prevention measures, such as tenancy sustainment, youth mediation and domestic abuse support services
- Implement new Mental Health Support Teams and voluntary sector projects within Barnet's west locality from January 2020 for children and young people with mild to moderate mental health needs
- Develop further targeted work to promote all prevention and Early Help services and expand access routes for our local services to enable more self-referral

- Carry out a review of debt collection processes across the council to ensure agencies are working together to maximise support for residents on low incomes, debt or impacted by changes to their benefit entitlements
- Ensure children in care and care leavers are appropriately prepared and supported to live independently
- Ensure care leavers are upskilled in budget cooking and have access to food education as identified in the Food Security Action Plan
- Introduce post diagnostic workshops for children with SEND, which help parent-carers of children with SEND are aware of their financial entitlements and rights, alongside understanding their child's diagnosis
- Increase the accommodation, employment, training and leisure opportunities for children, young people with special educational needs and disabilities and their families to make successful transitions to adulthood
- Collaborate with voluntary sector to set up Holiday Health programmes in the borough
- Targeted outreach for those most vulnerable to anti-social and criminal activity, educating them about avoiding and managing risks, and instilling confidence to address their fears and perceptions of threats
- Continue to provide council tax exemption to support care leavers living independently

APPENDIX

Progress since Barnet Child Poverty Action Plan 2016-2020

Since the last agreed action plan there has been significant progress against partners' key priorities and actions taken to combat child poverty in Barnet. The action plan focused on four key priorities and a series of actions to achieve these. Progress since the last plan was published is highlighted below.

Priority 1: Strengthening families and early years

- **Implement our vision of resilience based practice in social work** – Ofsted action plan set out the improvement journey for change and gave focus to transform services, especially social care, rapidly changing ratings from inadequate to good
- **Support families who are able to take up work, promoting employment support programs and schemes such as employment coaching** - children's centers worked with local partners such as Barnet and Southgate College to provide activities for parents of children 0-5 to access training opportunities and support to gain employment. In addition two employment advisors from DWP worked with the 0-19 Early Help Hubs and across Family Services to again support and enable adults in households where there are children and YP to access training and employment.
- **Expand childcare offer to families through increase to 30 hours of free childcare for 3 and 4-year-olds so that parents/carers can work** - the 30-hour offer is in place with more than 1100 families accessing this offer
- **Expand our free childcare offer to 2-year-olds for families on low incomes so that parents/ carers can work** - more providers are delivering the 2-year- old offer and at the end of the summer term 2019 there were 783 children accessing their free entitlement
- **Promote parenting classes in the borough to ensure families feel confident able to support the development of their children** - three Early Help hubs have been established across the borough providing parenting programmes along with 1-1 parenting support. Staff training is part of workforce development and hubs link to community partners delivering parenting programmes to ensure help is received quickly and to avoid duplication
- **Help families develop strong support networks in their communities** - the three 0-19 Early Help hubs have been in place for just a year with over 20 organisations working together developing teams around family plans. As of the 31st August 2019 the hubs were working with 399 families/637 children.
- **Make sure that children in the council's care are looked after in stable families** - the majority of looked after children are placed with carers who are committed to providing them with a stable family life. Ongoing foster care recruitment remains a priority to ensure

our looked after children are placed with the right families to provide them with a stable home life.

- **Continue to target specialist multi-agency support through our Families First initiative to Barnet's most vulnerable families** - Barnet's Family First programme has been very successful with over 80% of our target reached (1,821 claims of our 2,220 target) with expectation of 100% by the required date of 31st March 2020

Priority 2: Developing resilience and improving education

- **Ensure children have access to high quality education at good or outstanding schools** - the percentage of Good and Outstanding schools in Barnet is now 94.3% and above National, Inner London and Outer London averages. The percentage of primary and secondary schools in Barnet rated Good or Outstanding is in the top 10% of the country.

95.1% of Barnet pupils attend a Good or Outstanding school and is above National, Inner London and Outer London averages. The percentage of pupils attending a Good or Outstanding school is in the top 10% of the country.

Focus on closing the attainment gap at schools - At Key Stage 2 in 2019 the attainment of disadvantaged pupils (those eligible for free school meals at any point in the past 6 years and/or children looked after) is in the top 10% for Reading, Writing and Mathematics combined. In 2016 the percentage of disadvantaged pupils reaching the expected standard in Reading Writing and Mathematics was 46%. In 2019 this had increased to 64%.

The aim for schools in Barnet is to diminish the difference between disadvantaged pupils and their peers nationally (non-disadvantaged pupils) in terms of attainment. In 2017 this attainment gap in Barnet was 13 percentage points; in 2018 this gap reduced to 9 percentage points. The gap reduced further in 2019 to 7 percentage points.

At Key Stage 4 the gap between disadvantaged pupils in Barnet and Other Pupils (non-disadvantaged pupils) nationally at GCSE is diminishing and in the case of Progress 8 Barnet disadvantaged pupils are now performing better than non-disadvantaged pupils nationally.

- **Develop programmes to reduce the number of young people not in education, employment and support (NEETs)** - The percentage of young people aged 16 -17 who are not in education, employment or training (NEET) has remained low as a result of the work by the post-16 education and skills team and schools to identify young people at risk of NEET and to provide them with additional support to help ensure they progress to education, employment or training. The average percentage for December 2018 to February 2019 was 1.1% compared to a London average of 1.7% and a national average of 2.6%. Barnet was ranked the 5th best LA on this measure.
- **Link education funding more closely to need through pupil premium** - pupil premium funding is made available to schools from the DfE at a set rate for pupils entitled to free school meals. Schools are expected to use the funding to support pupils from deprived backgrounds. The Education and Skills service supports schools by offering to carry out Pupil Premium reviews.

Priority 3: Developing equal opportunities

- **Roll out and promote programmes for work experience, apprenticeships, training, volunteering, and paid employment** - through working in partnership with developers, colleges and others, support has been provided to help residents improve their skills and find employment. In 2018-19, 59 apprentices started on development sites across the borough, more than 30 residents were supported into jobs and work experience on site as were 19 volunteers. The council continues to organise regular Employability Group meetings to help ensure that agencies working across the borough are coordinating their activities and partnering to support those most in need.
- **Make sure regeneration projects promote community cohesion** - regeneration schemes have invested substantially in the promotion of community cohesion often through council led public consultation: for example on parks and open space masterplans close to regeneration schemes and through developer-led resident engagement on estate housing schemes keeping local people informed and inviting views on plans on phased transformation.

Since 2016 community engagement activities based on regeneration estates have successfully delivered employment, training and other outreach support services to local communities. Newly built schools, youth, play and health facilities have targeted children, young people and all age groups ensuring appropriate services are provided alongside infrastructure required to meet the needs of a growing population

- **Improve access to advice and support for people in poverty by co-locating and better coordinating services for example benefits and housing advice services, Jobcentre Plus and careers services currently provided by Burnt Oak Opportunity Support Team (BOOST)** - in 2018/19 BOOST advisers gave benefit advice to 836 people and helped 1,467 with universal credit claims.

The Skills Escalator project, which is aimed at low-income households and provides access to training and career advice to help those in work to increase their incomes. The new job retention project going live this autumn will help working people to sustain employment when going through a period of poor mental health. In 2018/19 BOOST had more than 11,000 visits and helped 227 people into work.

Priority 4: Targeting support

- **Ensure there is the right treatment and support available for those in crisis** - following consultation with YP and a review of local needs, we implemented the Barnet Integrated Clinical Service within the 0-19 Early Model and commissioned a wide range of early help mental health and family support services across school and community settings. This include counselling, psychotherapy and parenting support services as well as voluntary sector projects that support community and emotional resilience and target priority groups.
- **Review mental health support available for children and young people – intervening early to stop issues from escalating** - we continue to commission targeted support to young carers, as well as a family coaching service that provides practical and emotional support in the home to some of our most vulnerable families, including those affected by mental health, alcohol or substance misuse or domestic violence.

Barnet's Adolescent Crisis Team (ACT) was established in November 2019 to ensure timely specialist support and intervention for children and young people experiencing a mental health crisis.
