### Forum Membership

Membership of the Neighbourhood Forum is open to all residents and to businesses operating in Mill Hill and Hale (NW7) together with other interested bodies, to be determined.

### Consultation

We have estimated that 40% of Hale ward households are contained within our designated area of NW7.

Our assumptions for growth in the designated area are taken from GLA projected figures - 130918.

We have already sent out a structured questionnaire to 10,000 households and received more than 750 responses such that we could best understand, the issues, ideas, needs and wants.

## Mill Hill Neighbourhood Forum

---

Events have been run at chosen venues across NW7 in an attempt to get further input and to help us develop our NDP

### The Neighbourhood Development Plan (NDP)

The plan is already well documented by the previous Forum but needs updating to include the content of both the new Barnet Local Plan and the soon to be published London Plan. It will of course be subject to independent scrutiny and finally a referendum. We are conscious that we have to manage expectations, and not promise what cannot necessarily be delivered. We recognise that we will not be able to please all of the people all of the time. There will need to be some compromises, but the overriding aim will be to improve NW7 for the benefit of all.

Through this process we believe that we will be able to signpost what developments are required and where such developments will be most appropriate, thus making it easier for developers to invest in meeting the needs of the community, safe in the knowledge that they will get a more immediate return on their investments.

The development of the NDP (now in its 4<sup>th</sup> draft) has taken longer than expected, due to changes in the committee; the fact that most had day jobs and accordingly could not devote much time to the key activities, and that we have had many other tasks to perform, including responding to planning applications and consultations, and managing our intervention projects. (see Document 1 for more detail on this aspect). Accordingly, the Neighbourhood Development Forum needs to be designated again, under our new committee and constitution for a further 5 years in order to get the NDP finished, through examination, and referendum and in order to ensure good progress on the delivery of priority projects going forward.

The primary focus of the new Forum will be to deliver the NDP, then to get it 'made' through the referendum process, and then to work with private and public bodies to drive through the projects we deem are essential for the future of NW7.

Finally, we believe the MHNF Committee and members will serve as a very useful independent Focus Group available to Council Officers and Developers for consultation on their thinking own thinking!
