Recommendations
<ol style="list-style-type: none"> The Health and Wellbeing Board to note the update of the Barnet Integrated Care Partnership.

1. WHY THIS REPORT IS NEEDED

- 1.1 The NHS Long Term Plan outlines that all organisations operating as a Sustainability and Transformation Partnership (STP) are to form Integrated Care Systems (ICS) by April 2021. Key priorities for ICS' will include promoting health and wellbeing, redesigning care services and ensuring financial sustainability.
- 1.2 The local ICS will cover North Central London (NCL), and an essential component of the ICS model is borough based commissioner and provider partnerships, known as Integrated Care Partnerships (ICPs). ICPs are alliances of local NHS providers, clinical commissioning groups, primary care networks, local authorities and other partners who share responsibility to deliver care.
- 1.3 Health and social care leaders across Barnet have been meeting since summer 2019 to develop the Barnet ICP. The Barnet ICP brings together the Barnet Borough (of NCL CCG); Barnet Council; Royal Free London NHS Foundation Trust; Central London Community Healthcare NHS Trust; Barnet, Enfield and Haringey Mental Health Trust and Barnet Federated GPs, with input from other key stakeholders such as the voluntary sector.
- 1.4 Progress to date includes developing collaborative system leadership, joint interim governance arrangements, high-level outcome domains and identifying areas to progress local integration. These areas are dementia and urgent and emergency care pathways, under an 'Ageing Well' model.
- 1.5 The Barnet ICP has been meeting to reflect on the pace and scale of change implemented, as a system, in response to the pandemic. The Barnet ICP has agreed a refreshed list of priorities.
