Summary

The North Central London (NCL) Sustainability and Transformation Partnership (STP) has evolved to an Integrated Care System (ICS) following publication of the NHS Long Term Plan.

An important part of the NCL ICS is Integrated Care Partnerships (ICPs), which are borough-based alliances between health and social care organisations in each of the five boroughs.

Locally, system leaders have been meeting regularly to develop the Barnet ICP and establish governance arrangements, agree a vision based on the JSNA and key strategies such as the Health and Wellbeing Strategy, develop high-level outcomes, and identify areas to progress local integration.

This report provides an update on the progress of the Barnet ICP.

Recommendations

1. That the Health and Wellbeing Board note the update on the progress of the Barnet Integrated Care Partnership.

1. WHY THIS REPORT IS NEEDED

- 1.1 The NHS Long Term Plan outlines that all organisations operating as a Sustainability and Transformation Partnership (STP) are to form Integrated Care Systems (ICS) by April 2021. Key priorities for ICS' will include promoting health and wellbeing, redesigning care services and ensuring financial sustainability.
- 1.2 The local ICS will cover North Central London (NCL), and an essential component of the ICS model is borough based commissioner and provider partnerships, known as **Integrated Care Partnerships (ICPs)**. ICPs are alliances of local NHS providers, clinical commissioning groups, primary care networks, local authorities and other partners who share responsibility to deliver care.
- 1.3 Health and social care leaders across Barnet have re-established local ICP governance, following the first phase of the COVID-19 Pandemic. The Barnet ICP brings together North Central London (Barnet) Clinical Commissioning Group; Barnet Council; Royal Free London NHS Foundation Trust; Central London Community Healthcare NHS Trust; Barnet, Enfield and Haringey Mental Health Trust, Barnet Federated GPs, HealthWatch, Primary Care Networks and a representative from the voluntary sector.
- 1.4 Progress to date includes agreeing three workstreams:
 - Same day access and discharge workstream;
 - Integrated pathway workstream (Frailty and Long-Term Conditions);
 - Transforming clinical care in care homes

Appendix I provides summary of each workstream and progress thus far.

2. REASONS FOR RECOMMENDATIONS

- 2.1 It is important that the Health and Wellbeing Board is kept up to date with ICP development, to ensure local strategies and priorities align.

3. ALTERNATIVE OPTIONS CONSIDERED AND NOT RECOMMENDED

- 3.1 Not applicable

4. POST DECISION IMPLEMENTATION

- 4.1 The Health and Wellbeing Board will be kept up-to-date with Barnet ICP development at future meetings.

5. IMPLICATIONS OF DECISION

5.1 Corporate Priorities and Performance

- 5.1.1 Future work of the ICP will contribute to key priorities identified in the council's Corporate plan, Barnet 2024 which includes a priority of integrating health and

social care and providing support for those with mental health problems and complex needs.

5.1.2 The work of the Barnet ICP will also contribute to the Joint Health and Wellbeing Strategy, including continuing to emphasise prevention, making health and wellbeing a personal agenda, joining up services so residents have better experience and developing greater community capacity.

5.2 **Resources (Finance & Value for Money, Procurement, Staffing, IT, Property, Sustainability)**

5.2.1 Not applicable

5.3 **Social Value**

5.3.1 Not applicable

5.4 **Legal and Constitutional References**

5.4.1 Under the Council's Constitution, Article 7 the terms of reference of the Health and Wellbeing Board includes responsibilities towards integration of health and social care and to promote partnership work across all necessary areas.

5.5 **Risk Management**

5.5.1 Not applicable

5.6 **Equalities and Diversity**

The 2010 Equality Act outlines the provisions of the Public Sector Equalities Duty which requires Public Bodies **to have due regard** to the need to:

- eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Equality Act 2010
- advance equality of opportunity between people from different groups
- foster good relations between people from different groups

The broad purpose of this duty is to integrate considerations of equality into day business and keep them under review in decision making, the design of policies and the delivery of services

5.7 **Corporate Parenting**

5.7.1 The aim of the Barnet ICP is to improve health care provision for Barnet residents. The same day access workstream includes all urgent care and same day access services and is therefore relevant to children and young people, including looked after children and care leavers. The ICP is committed to improving health care for children and young people and it is envisaged that specific projects on children's health will form part of its work programme in the future.

5.8 **Consultation and Engagement**

5.8.1 Engagement has been ongoing with local health and social care leaders, including workshops, regular meetings as part of the interim governance arrangements and weekly ICP bulletins. An update on ICP progression was also provided at a Health and Wellbeing Board Strategy workshop, attended by Barnet councillors, Barnet Officers and Barnet Clinical Commissioning Group.

5.10 **Insight**

5.10.1 Not applicable

6. **BACKGROUND PAPERS**

6.1 None
