Date: ***14 April 2020***
Contact Details: ***Traffic and Development Section***
Tel. 0208 359 3555
parking.consultations@barnet.gov.uk

Dear Resident,

We have been made aware of concerns from local residents, as to the high levels of 'non-residential' parking taking place in Normandy Avenue. We are advised this this making it difficult to find available parking, despite paying for Controlled Parking Zone (CPZ) permits for use Monday to Friday between the hours of 2pm and 3pm.

In response to this, the Chipping Barnet Area Committee have agreed that this issue should be investigated and as such have decided that a consultation with residents should be carried out. Due to its close proximity, we have decided to include Bedford Avenue in the review.

We have taken into consideration the current COVID-19 outbreak, however feel it is appropriate for this consultation to continue as given the current situation, many of our residents are in fact at home and can therefore fully participate. Please rest assured that the delivery of this consultation adheres to all social distancing rules and government guidelines.

The views received from the community will help us understand whether or not the current parking controls meets its needs and will help decide if new parking controls or changes to existing ones would be appropriate for your area.

The enclosed drawing No. BC/001608-05 shows the extent of both the existing Normandy Avenue and Bedford Road 'D' zone along with the consultation area.

What you need to do

Please have your say by completing our online questionnaire at: engage.barnet.gov.uk

If you are unable to complete the questionnaire online and would like to request a paper copy, then please call the Traffic & Development Section on 02083593555 or email parking.consultations@barnet.gov.uk.

If you are completing a paper copy, send us your questionnaire using the prepaid envelope included. The closing date for the consultation is **Thursday 14 May 2020**. We are asking each household to complete only one questionnaire, so please ensure that the views given are representative of your household.

What happens next?

All the responses received will be analysed and the outcome will be used to help us determine what action needs to be taken in order to address areas of concern therefore it is very important that you take this opportunity to express your views.

If you have any further questions, please contact us at the email address or on the telephone number above. Details of the consultation are also available for viewing on the Engage Barnet site at engage.barnet.gov.uk.

I would like to take this opportunity to thank you for taking the time to read this letter especially in light of the current climate and look forward to receiving your completed questionnaire. Everyone consulted as part of this exercise will be notified via engage Barnet in due course of the outcome and our intended course of action.

Yours faithfully,

Design Team
Traffic and Development Section

Coronavirus (COVID-19)

For the latest updates on council services during the COVID-19 outbreak, as well as the support available to residents at this time, visit: www.barnet.gov.uk/covid19

Community Help Hub

Barnet Council has launched a Community Help Hub to support Barnet residents most in need of extra help during the COVID-19 outbreak, including those self-isolating.

The hub manages a network of local support, coordinating Barnet Together's established community groups and volunteers, as well as providing a non-medical urgent care helpline.

Those in need of urgent support can visit: engage.barnet@gov.uk/communityhelphub or call 0808 281 3210, 9am to 5pm Monday to Friday.
