Summary

On the 6th October 2021 the update on the Community Safety Strategic Assessment 2020 and Community Safety Strategy report was presented to the Communities Leadership and Libraries Committee (CLLC).

The report asked:

1. That the Community Leadership and Libraries Committee note this update and comment on the key findings of the Community Safety Strategic Crime Needs Assessment.
2. That the Community Leadership and Libraries Committee note the next steps and the co-dependency for the revision of Barnet's Community Safety Strategy for 2022-2027 with the Mayors' Policing and Crime Plan (2017-2021) refresh.

Originally the new Community Safety Strategy had been proposed to be consecutive with the previous strategy however due to the impact of Covid19 the new 5 year strategy will now be for the period 2022-2027.
