

Questions will be answered by the Chair in the meeting in order of receipt, alternating between residents. Residents will be able to ask one supplementary question per question answered.

Public Questions – Environment and Climate Change Committee, 6 th September 2022	
Agenda Item	Question or Comment
10 - Highways Infrastructure Asset Management Plan	<p>According to The Green Book, which states the licensing regulations for the application of pesticides and herbicides, glyphosate should be applied a maximum of once a year. I would like to ask, please remind me, how many times per year does Barnet Council squirt glyphosate on its highways infrastructure?</p> <p>What is the wider social impact?</p> <p>What is the environmental effect particularly on wildflowers?</p> <p>What is the cost to the council tax payer?</p> <p>Ben Samuel</p>
7 - Community skip service	<p>A monitor was recently spotted being dumped into the lake on Heyborne Park. Please could you consider adding to the list, monitors and TV sets.</p>

	<p>What about general rubbish like broken strimmers etc.?</p> <p>Ben Samuel</p>
13 – Sustainability Strategy Update	<p>Can the committee please provide an update on how reducing pesticide use will sit within the Sustainability Strategy roadmap to delivery, to support biodiversity in the borough at the earliest opportunity? Specifically, there is a free Pesticide-Free Towns workshop for London councillors being held by the Pesticide Action Network on Thursday 15 September – are any councillors or officers planning to attend?</p> <p>Wendy Alcock</p>
10 - Highways Infrastructure Asset Management Plan	<p>Appendix 2 - HIAMP CoP Recommendations Jun</p> <p>Can Ian Edsar or team explain why the full criteria of recommendation 12 in relation to rights of way of recognised land registry amenities was not taken into account in the stopping Up Notice on Little Strand, and give us an update on the progress of this order since no one withdrew the objections?</p> <p>Joan Roselie</p>
