**Reference:** TPP/0243/22

**Address:** Leecroft Road Adjacent To Hertswood Court Hillside Gardens Barnet EN5 4AU

Clarification to the conclusions of the committee report, to make the officer recommendation explicit.

## 6 CONCLUSION

The proposed tree works will have a minimal impact on the visual amenity value of the trees on Leecroft road because the proposed branches are not visible from Leecroft road as the branches grow out laterally towards and over Hertswood Court.

The trees are just visible from Wood Street and are part of the large group of trees, meaning that loss of these branches would have an insignificant impact on the conservation area and character of the local area. Therefore, the application is recommended for approval.

Since publication of the report 3 further comments in support were received. The number of supporting comments received now totals 148.

The supporting comments can be summarised as follows:

- The Tiferes Yisroel Community provides essential services in education, prayer, charity, welfare, and social activity.
- As neighbours to this community for more than ten years now, I can vouch for the fact that we have never had disturbance or other reason to complain, notwithstanding its close proximity to us.
- One of its many advantages is that many members of the community live within walking distance of the Beth Hamedrash, meaning minimal traffic concerns.
- The design of the building is superb and so very well thought through.
- The proposed rebuilt Beth Hamedrash together with the new residential block will do much to enhance the entire neighbourhood.
