

# **Jeanettes - 22/0650FUL**

Erection of a single storey building with rooms in the roofspace to provide 7no dwellings. Associated cycle, refuse and recycling space. Provision of off street parking and amenity space

## **S106 Obligation**

To secure occupation of the development to nursing staff at Belmont Farm Nursery or persons employed as teachers within the borough.

## **CONDITIONS**

### **1. Approved Plans**

The development hereby permitted shall be carried out in accordance with the following approved plans:

Location Plan - VR/JEAN/01/01-2  
Proposed Ground & First Floor Plans - 2511.01 Rev D  
Proposed Elevations - 2511.02 Rev A  
Proposed GIA - 2511.03  
Proposed Roof Plan Proposed Site Section - 2511.04 Rev B  
Proposed Bike Storage Proposed Site Plan - 2511.05 Rev B  
Tree Constraints Plan - JCTCP-OCT18  
Tree Retention and Protection Plan - JCTRP-NOV18  
Landscape Scheme - VR/JEAN/01/08  
Details of Bin and Dirty Storage - VR/JEAN/01/09

Reason: For the avoidance of doubt and in the interests of proper planning and so as to ensure that the development is carried out fully in accordance with the plans as assessed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy DPD (adopted September 2012) and Policy DM01 of the Local Plan Development Management Policies DPD (adopted September 2012).

### **2. Time Limit**

This development must be begun within three years from the date of this permission.

Reason: To comply with Section 51 of the Planning and Compulsory Purchase Act 2004.

### **3. Levels**

a) No development, shall take place other than any demolition works, until details of the levels of the building(s), road(s) and footpath(s) in relation to the adjoining land and highway(s) and any other changes proposed in the levels of the site have been submitted to and approved in writing by the Local Planning Authority.

b) The development shall thereafter be implemented in accordance with the details as approved under this condition and retained as such thereafter.

Reason: To ensure that the development is carried out at suitable levels in relation to the highway and adjoining land having regard to drainage, gradient of access, the safety and amenities of users of the site, the amenities of the area and the health of any trees or vegetation in accordance with policies CS NPPF, CS1, CS5 and CS7 of the Local Plan Core Strategy (adopted September 2012), Policies DM01, DM04 and DM17 of the Development Management Policies DPD.

#### 4. Materials

a) No development above ground floor slab level works shall take place until details of the materials to be used for the external surfaces of the building(s) and hard surfaced areas hereby approved have been submitted to and approved in writing by the Local Planning Authority.

b) The submission shall include details of all new brickwork (including proposed pointing), roof tiles, windows, doors, dormer windows, and the proposed colours of all external finishes.

c) The development shall thereafter be implemented in accordance with the materials as approved under this condition.

Reason: To safeguard the character and visual amenities of the site and wider area and to ensure that the building is constructed in accordance with Policies CS NPPF and CS1 of the Local Plan Core Strategy (adopted September 2012), Policy DM01 of the Development Management Policies DPD (adopted September 2012) and Policies D3, D4, D5 and D6 of the London Plan 2021.

#### 5. DCLMP

a) No development or site works shall take place on site until a 'Demolition and Construction Management and Logistics Plan' has been submitted to and approved in writing by the Local Planning Authority. The Demolition and Construction Management and Logistics Plan submitted shall include, but not be limited to, the following:

- i. details of the routing of construction vehicles to the site, hours of access, access and egress arrangements within the site and security procedures;
- ii. site preparation and construction stages of the development;
- iii. details of provisions for recycling of materials, the provision on site of a storage/delivery area for all plant, site huts, site facilities and materials;
- iv. details showing how all vehicles associated with the construction works are properly washed and cleaned to prevent the passage of mud and dirt onto the adjoining highway;
- v. the methods to be used and the measures to be undertaken to control the emission of dust, noise and vibration arising from construction works;
- vi. a suitable and efficient means of suppressing dust, including the adequate containment of stored or accumulated material so as to prevent it becoming airborne at any time and giving rise to nuisance;
- vii. noise mitigation measures for all plant and processors;
- viii. details of contractors compound and car parking arrangements;
- ix. details of interim car parking management arrangements for the duration of construction;
- x. details of a community liaison contact for the duration of all works associated with the development.

For major sites, the Statement shall be informed by the findings of the assessment of the air quality impacts of construction and demolition phases of the development.

b) The development shall thereafter be implemented in accordance with the measures detailed within the statement.

Reason: In the interests of highway safety, noise and good air quality in accordance with Policies DM04 and DM17 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted October 2016) and Policies SI 1, SI 7, D14 and T7 of the London Plan 2021.

#### 6. Parking as per plan

Prior to occupation of the development the proposed parking spaces within the parking area as shown in drawings no.2511.05 Rev.B submitted with the planning application and the access to the parking area from the public highway shall be provided and the access to the parking spaces shall be maintained at all time. The parking spaces shall be used only as agreed and not be used for any purpose other than the parking and turning of vehicles in connection with approved development.

Reason : To ensure that the free flow of traffic and highway and pedestrian safety on the adjoining highway is not prejudiced in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (Adopted) September 2012 and Policy DM17 of Development Management Policies (Adopted) September 2012.

#### 7. Cycle parking spaces

Prior to occupation of the development, cycle parking spaces shall be provided in accordance with London Plan cycle parking standards, as detailed on the approved plans (Proposed Bike Storage Proposed Site Plan - 2511.05 Rev B), and that area shall not thereafter be used for any purpose other than for the parking of cycles associated with the development.

Reason: In the interests of promoting cycling as a mode of transport in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (Adopted) September 2012 and Policy DM17 of Development Management Policies (Adopted) September 2012.

#### 8. Disabled parking spaces

Prior to occupation of the development disabled parking spaces shall be provided in accordance with the London Plan Parking Standards. Thereafter, the parking spaces shall be retained and only be used as agreed and not for any purpose other than parking and turning of vehicles for the disabled use in connection with approved development.

Reason:: To ensure and promote easier access for disabled persons to the approved building in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (Adopted) September 2012 and Policy DM17 of Development Management Policies (Adopted) September 2012.

#### 9. EVCP

Prior to occupation of the development full details of the electric vehicle charging points to be installed in the development shall have been submitted to and approved in writing by the Local Planning Authority. These details shall include provision for not less than 20% of the approved

residential parking spaces to be provided with active electric vehicle charging facilities and 20% passive electrical charging facility. The development shall be implemented in full accordance with the approved details prior to first occupation and thereafter be maintained as such.

Reason: To ensure that the development makes adequate provision for electric vehicle charging points to encourage the use of electric vehicles in accordance with policy T.6.1 of the London Plan.

#### 10. Refuse storage/collection arrangements

a) Before the permitted development is occupied, details of refuse storage and collection arrangements shall be submitted to and approved in writing by the Local Planning Authority.

b) The development thereafter shall only be operated in accordance with the approved refuse storage and collection arrangements.

Reason: In the interest of highway safety in accordance with London Borough of Barnet's Local Plan Policy CS9 of Core Strategy (Adopted) September 2012 and Policy DM17 of Development Management Policies (Adopted) September 2012

#### 11. Contaminated Land

##### Part 1

Before development commences other than for investigative work:

a) A desktop study (Preliminary Risk Assessment) shall be carried out which shall include the identification of previous uses, potential contaminants that might be expected, given those uses, and other relevant information. Using this information, a diagrammatical representation (Conceptual Model) for the site of all potential contaminant sources, pathways and receptors shall be produced. The desktop study (Preliminary Risk Assessment) and Conceptual Model shall be submitted to the Local Planning Authority. If the desktop study and Conceptual Model indicate no risk of harm, development shall not commence until approved in writing by the Local Planning Authority.

b) If the desktop study and Conceptual Model indicate any risk of harm, a site investigation shall be designed for the site using information obtained from the desktop study and Conceptual Model. This shall be submitted to, and approved in writing by, the Local Planning Authority prior to that investigation being carried out on site. The investigation must be comprehensive enough to enable:

- a risk assessment to be undertaken,
- refinement of the Conceptual Model, and
- the development of a Method Statement detailing the remediation requirements.

The risk assessment and refined Conceptual Model shall be submitted, along with the site investigation report, to the Local Planning Authority.

c) If the risk assessment and refined Conceptual Model indicate any risk of harm, a Method Statement detailing the remediation requirements, using the information obtained from the site investigation, and also detailing any post remedial monitoring shall be submitted to, and approved in writing by, the Local Planning Authority prior to that remediation being carried out on site.

##### Part 2

d) Where remediation of contamination on the site is required completion of the remediation detailed in the method statement shall be carried out and a report that provides verification that the required works have been carried out, shall be submitted to, and approved in writing by the Local Planning Authority before the development is occupied.

Reason: To ensure the development can be implemented and occupied with adequate regard for environmental and public safety in accordance with Policy CS NPPF of the Local Plan Core Strategy DPD (adopted September 2012), DM04 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted October 2016).

#### 12. Air Quality NRMM (Bespoke)

All Non-Road Mobile Machinery (NRMM) of net power of 37kW and up to and including 560kW used during the course of the demolition, site preparation and construction phases shall comply with the emission standards set out in chapter 7 of the GLA's supplementary planning guidance "Control of Dust and Emissions During Construction and Demolition" dated July 2014 (SPG), or subsequent guidance.

Unless it complies with the standards set out in the SPG, no NRMM shall be on site, at any time, whether in use or not, without the prior written consent of the local planning authority.

The developer shall keep an up to date list of all NRMM used during the demolition, site preparation and construction phases of the development on the online register at <https://nrmm.london/>

Reason: In the interest of good air quality in accordance with Policy DM04 of the Barnet Local Plan Development Management Policies (2012) and Policy SI1 of the London Plan 2021.

#### 13. Restrict noise from plant

The level of noise emitted from any installed plant (ASHP, air conditioning units) hereby approved shall be at least 5dB(A) below the background level, as measured from any point 1 metre outside the window of any room of a neighbouring residential property.

If the noise emitted has a distinguishable, discrete continuous note (whine, hiss, screech, hum) and/or distinct impulse (bangs, clicks, clatters, thumps), then it shall be at least 10dB(A) below the background level, as measured from any point 1 metre outside the window of any room of a neighbouring residential property.

Reason: To ensure that the proposed development does not prejudice the amenities of occupiers of neighbouring properties in accordance with Policies DM04 of the Development Management Policies DPD (adopted September 2012) and policy D.14 of the London Plan 2021.

#### 14. Ventilation/extraction plant – mitigation

a) No occupation of the development hereby approved shall take place until a report has been carried out by a competent acoustic consultant that assesses the likely noise impacts from the development of any installed ventilation/extraction plant (if appropriate), and mitigation measures for the development to reduce these noise impacts to acceptable levels, and has been submitted to and approved in writing by the Local Planning Authority.

The report shall include all calculations and baseline data, and be set out so that the Local Planning Authority can fully audit the report and critically analyse the content and recommendations.

b) The measures approved under this condition shall be implemented in their entirety prior to the commencement of the use/first occupation of the development and retained as such thereafter.

Reason: To ensure that the proposed development does not prejudice the amenities of occupiers of neighbouring properties in accordance with Policy DM04 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted April 2016) and Policies D13 and D14 of the London Plan 2021.

#### 15. Archaeological WSI

No demolition or development shall take place until a stage 1 written scheme of investigation (WSI) has been submitted to and approved by the local planning authority in writing. For land that is included within the WSI, no demolition or development shall take place other than in accordance with the agreed WSI, and the programme and methodology of site evaluation and the nomination of a competent person(s) or organisation to undertake the agreed works.

If heritage assets of archaeological interest are identified by stage 1 then for those parts of the site which have archaeological interest a stage 2 WSI shall be submitted to and approved by the local planning authority in writing. For land that is included within the stage 2 WSI, no demolition/development shall take place other than in accordance with the agreed stage 2 WSI which shall include:

A. The statement of significance and research objectives, the programme and methodology of site investigation and recording and the nomination of a competent person(s) or organisation to undertake the agreed works

B. Where appropriate, details of a programme for delivering related positive public benefits. Written schemes of investigation will need to be prepared and implemented by a suitably qualified professionally accredited archaeological practice in accordance with Historic England's Guidelines for Archaeological Projects in Greater London. This condition is exempt from deemed discharge under schedule 6 of The Town and Country Planning (Development Management Procedure) (England) Order 2015.

C. The programme for post-investigation assessment and subsequent analysis, publication & dissemination and deposition of resulting material. This part of the condition shall not be discharged until these elements have been fulfilled in accordance with the programme set out in the stage 2 WSI.

Reason: To safeguard the archaeological interest on this site, in accordance with policy DM06 of the Development Management Policies DPD (adopted September 2012), CS5 of London Borough of Barnet's Core Strategy (Adopted September 2012), policy HC1 of the London Plan (adopted 2021) and paras. 190 and 197 of the NPPF.

#### 16. Hard and soft landscaping

a) Notwithstanding the approved plans, full details of a scheme of hard and soft landscaping, including details of existing trees to be retained and size, species, planting heights, densities and

positions of any soft landscaping, shall be submitted to and agreed in writing by the Local Planning Authority prior to the occupation of the hereby approved development.

b) All work comprised in the approved scheme of landscaping shall be carried out before the end of the first planting and seeding season following occupation of any part of the buildings or completion of the development, whichever is sooner, or commencement of the use.

c) Any existing tree shown to be retained or trees or shrubs to be planted as part of the approved landscaping scheme which are removed, die, become severely damaged or diseased within five years of the completion of development shall be replaced with trees or shrubs of appropriate size and species in the next planting season.

Reason: To ensure a satisfactory appearance to the development in accordance with Policies CS5 and CS7 of the Local Plan Core Strategy DPD (adopted September 2012), Policy DM01 of the Development Management Policies DPD (adopted September 2012), the Sustainable Design and Construction SPD (adopted October 2016) and G.7 of the London Plan 2021.

#### 17. Tree protection measures

a) No site works or development (including any temporary enabling works, site clearance and demolition) shall take place until the tree protection measures as detailed in the approved Tree Constraints Plan - JCTCP-OCT18 have been provided on site.

b) No site works (including any temporary enabling works, site clearance and demolition) or development shall take place until the temporary tree protection shown on the tree protection plan approved under this condition has been erected around existing trees on site. This protection shall remain in position until after the development works are completed and no material or soil shall be stored within these fenced areas at any time. The development shall be implemented in accordance with the protection plan and method statement as approved under this condition.

Reason: To safeguard the health of existing trees which represent an important amenity feature in accordance with Policy DM01 of the Development Management Policies DPD (adopted September 2012), Policies CS5 and CS7 of the Local Plan Core Strategy DPD (adopted September 2012) and Policy D4 and G7 of the London Plan 2021.

#### 18. CEMP

No development (including Demolition, Ground Works, and Site Preparation Works) shall commence until a Construction Environmental Management Plan, setting out the construction and environmental management measures associated with that Development, has been submitted to and approved in writing by the Local Planning Authority (LPA). This is to ensure that any adverse effects are minimised during construction on species identified within the Adonis Ecology Report, Project Ref: 1588, dated 10th March 2022, and to demonstrate how these mitigations provide safeguarding for species and/or habitats.

The CEMP shall include:

- a) Site information
- b) Description of works, equipment and storage
- c) Programme of works
- d) Temporary hoarding and fencing
- e) Temporary works

Reason: To ensure the development makes a positive contribution to the protection, enhancement, creation and management of biodiversity and would not have a significant adverse affect on protected species in accordance with Policy DM16 of Barnet's Development Management Policies Document DPD (2012) and London Plan Policy G.6

#### 19. Lighting – Bats

a) No lighting shall be fixed on the external faces of the building hereby approved, or provided within the site, unless and until details of external lighting are submitted to and approved in writing by the Local Planning Authority beforehand.

Any lighting must be designed and used to minimise impacts on bats and their insect food. All exterior lighting should follow the guidance of the Bat Conservation Trust. Current (June 2014) advice is at <http://www.bats.org.uk/>.

b) The lighting shall be installed in accordance with the details approved before first occupation and retained as such thereafter.

Reason: To ensure the development makes a positive contribution to the protection, enhancement, creation and management of biodiversity and would not have a significant adverse effect on protected species in accordance with Policy DM16 of Barnet's Development Management Policies Document (DPD) 2012 and London Plan Policy G.6

#### 20. Ecological enhancements

Prior to occupation of the development hereby approved, the scheme of ecological enhancements to incorporate ecological net gain, as detailed in the Adonis Ecology Report, Project Ref: 1588, dated 10th March 2022 , shall be provided as part of the development.

The enhancements as provided shall be incorporated into the design, and managed after in perpetuity.

Reason: To ensure the development makes a positive contribution to the protection, enhancement, creation and management of biodiversity and would not have a significant adverse affect on protected species in accordance with Policy DM16 of Barnet's Development Management Policies Document DPD (2012) and London Plan Policy G.6

#### 21. Construction work hours

No construction work resulting from the planning permission shall be carried out on the premises at any time on Sundays, Bank or Public Holidays, before 8.00 am or after 1.00 pm on Saturdays, or before 8.00 am or after 6.00pm pm on other days.

Reason: To ensure that the proposed development does not prejudice the amenities of occupiers of adjoining residential properties in accordance with policy DM04 of the Development Management Policies DPD (adopted September 2012).

#### 22. Water consumption

Prior to the first occupation of the new dwellinghouses (Use Class C3) hereby approved they shall have been constructed to have 100% of the water supplied to them by the mains water infrastructure provided through a water meter or water meters and each new dwelling shall be constructed to include water saving and efficiency measures that comply with Regulation 36(2)(b) of Part G 2 of the Building Regulations to ensure that a maximum of 105 litres of water is consumed per person per day with a fittings based approach should be used to determine the water consumption of the proposed development. Each residential phase of the development shall be maintained as such in perpetuity thereafter.

Reason: To encourage the efficient use of water in accordance with policy CS13 of the Barnet Core Strategy (2012) and Policy SI5 of the London Plan 2021.

### 23. Part M4(2) of Schedule 1

Notwithstanding the details shown in the drawings submitted and otherwise hereby approved, prior to the first occupation of the new dwellinghouse(s) (Use Class C3) permitted under this consent they shall all have been constructed to meet and achieve all the relevant criteria of Part M4(2) of Schedule 1 to the Building Regulations 2010 (or the equivalent standard in such measure of accessibility and adaptability for house design which may replace that scheme in future). The development shall be maintained as such in perpetuity thereafter.

Reason: To ensure the development meets the needs of its future occupiers and to comply with the requirements of Policy D7 of the London Plan 2021.

### 24. Carbon dioxide emissions

Prior to the first occupation of the development hereby approved it shall be constructed incorporating carbon dioxide emission reduction measures which achieve an improvement of not less than 10% in carbon dioxide emissions when compared to a building constructed to comply with the minimum Target Emission Rate requirements of the 2010 Building Regulations. The development shall be maintained as such in perpetuity thereafter.

Reason: To ensure that the development is sustainable and minimises carbon dioxide emissions and to comply with the requirements of policies DM01 and DM02 of the Barnet Development Management Policies document (2012), Policy SI2 of the London Plan 2021.

### 25. Means of enclosure

a) The site shall not be brought into use or first occupied until details of the means of enclosure, including boundary treatments, have been submitted to and approved in writing by the Local Planning Authority.

b) The treatment of boundaries should be permeable to species such as hedgehogs (*Erinaceus europaeus*) and common toad (*Bufo bufo*), with the introduction of a minimum of 1no 13 x 13cm ground level access 'hedgehog hole' between the application site and each neighbouring piece of land to enable connections and prevent the fragmentation of habitat

c) The development shall be implemented in accordance with the details approved as part of this condition before first occupation or the use is commenced and retained as such thereafter.

Reason: To ensure that the proposed development does not prejudice the appearance of the locality and/or the amenities of occupiers of adjoining residential properties and to confine access to the permitted points in the interest of the flow of traffic and conditions of general safety on the adjoining highway in accordance with Policies DM01, DM03, DM16, DM17 of the Development Management Policies DPD (adopted September 2012), and Policies CS NPPF and CS1 of the Local Plan Core Strategy (adopted September 2012).

#### 26. Privacy screens

a) Before the development hereby permitted is first occupied, details of privacy screens, or means to secure the privacy of ground floor units from the communal garden area shall be submitted to and approved in writing by the Local Planning Authority.

b) The details approved under this condition shall be provided before first occupation and retained as such thereafter.

Reason: To ensure that the development does not prejudice the amenity of future occupiers or the character of the area in accordance with policies DM01 and DM02 of the Development Management Policies DPD (adopted September 2012), the Residential Design Guidance SPD (adopted October 2016) and the Sustainable Design and Construction SPD (adopted October 2016).

#### **INFORMATIVES**

##### Approved/pre-app

In accordance with paragraphs 38-57 of the NPPF, the Local Planning Authority (LPA) takes a positive and proactive approach to development proposals, focused on solutions. The LPA has produced planning policies and written guidance to assist applicants when submitting applications. These are all available on the Council's website. A pre-application advice service is also offered and the Applicant engaged with this prior to the submissions of this application. The LPA has negotiated with the applicant/agent where necessary during the application process to ensure that the proposed development is in accordance with the Development Plan.

##### CIL Approval

The Community Infrastructure Levy (CIL) applies to all 'chargeable development'. This is defined as development of one or more additional units, and / or an increase to existing floor space of more than 100 sq m. Details of how the calculations work are provided in guidance documents on the Planning Portal at [www.planningportal.gov.uk/cil](http://www.planningportal.gov.uk/cil).

We believe that your development is liable for CIL. The Mayor of London adopted a CIL charge on 1st April 2012 setting a rate of £60 per sq m on all forms of development in Barnet except for education and health developments which are exempt from this charge. The London Borough of Barnet first adopted a CIL charge on 1st May 2013. A new Barnet CIL Charging Schedule applies from 1 April 2022 (<https://www.barnet.gov.uk/planning-and-building/planning/community-infrastructure-levy>) which applies a charge to all residential (including sui generis residential), hotel, retail and employment uses.

Please note that Indexation will be added in line with Regulation 40 of Community Infrastructure Levy.

Liability for CIL will be recorded to the register of Local Land Charges as a legal charge upon your site payable should you commence development. Receipts of the Mayoral CIL charge are collected by the London Borough of Barnet on behalf of the Mayor of London; receipts are passed across to Transport for London to support Crossrail, London's highest infrastructure priority.

You will be sent a 'Liability Notice' that provides full details of the charge and to whom it has been apportioned for payment. If you wish to identify named parties other than the applicant for this permission as the liable party for paying this levy, please submit to the Council an 'Assumption of Liability' notice, which is also available from the Planning Portal website.

The CIL becomes payable upon commencement of development. You are required to submit a 'Notice of Commencement' to the Council's CIL Team prior to commencing on site, and failure to provide such information at the due date will incur both surcharges and penalty interest. There are various other charges and surcharges that may apply if you fail to meet other statutory requirements relating to CIL, such requirements will all be set out in the Liability Notice you will receive. You may wish to seek professional planning advice to ensure that you comply fully with the requirements of CIL Regulations.

If you have a specific question or matter you need to discuss with the CIL team, or you fail to receive a 'Liability Notice' from the Council within 1 month of this grant of planning permission, please email us at: [cil@barnet.gov.uk](mailto:cil@barnet.gov.uk).

#### Planning Obligation

A Planning Obligation under Section 106 of the Town & Country Planning Act 1990 (as amended) relates to this permission.

#### Archaeological Investigation

The applicant is advised that written schemes of investigation will need to be prepared and implemented by a suitably qualified archaeological practice in accordance with Historic England Greater London Archaeology guidelines. They must be approved by the Local Planning Authority before any on-site development related activity occurs.

#### Highway Condition Survey

As a result of development and construction activities is a major cause of concern to the Council. Construction traffic is deemed to be "extraordinary traffic" for the purposes of Section 59 of the Highways Act 1980. During the course of the development, a far greater volume of construction traffic will be traversing the public highway and this considerably shortens the lifespan of the affected highway.

To minimise risks and damage to public highway, it is now a requirement as part of any new development to undertake a Highway Condition Survey of the surrounding public highway to the development to record the state of the highway prior to commencement of any development works. The condition of the public highway shall be recorded including a photographic survey prior to commencement of any works within the development. During the course of the development construction, the applicant will be held responsible for any consequential damage to the public highway due to site operations and these photographs will assist in establishing the basis of damage to the public highway.

A bond will be sought to cover potential damage resulting from the development which will be equivalent to the cost of highway works fronting the development. To arrange a joint highway condition survey, please contact the Highways Development Control / Network Management Team on 020 8359 3555 or by e-mail [highways.development@barnet.gov.uk](mailto:highways.development@barnet.gov.uk) or [nrswa@barnet.gov.uk](mailto:nrswa@barnet.gov.uk) at least 10 days prior to commencement of the development works.

Please note existing public highways shall not be used as sites for stock piling and storing plant, vehicles, materials or equipment without an appropriate licence. Any damage to the paved surfaces, verges, surface water drains or street furniture shall be made good as directed by the Authority. The Applicant shall be liable for the cost of reinstatement if damage has been caused to highways. On completion of the works, the highway shall be cleared of all surplus materials, washed and left in a clean and tidy condition.

#### Refuse collection point

Refuse collection point should be located at a ground floor level and within 10m of the refuse vehicle parking bay. Levelled access should be provided for the refuse collection personnel to collect the bins. The refuse collection personnel are not expected to push the bins on an inclined surface to safeguard their Health and Safety requirements. If the refuse vehicle is expected to travel over an unadopted road then the applicant will be expected to sign a Waiver of Liability and Indemnity Agreement indemnifying the Council. Alternatively, the dustbins will need to be brought to the edge of the refuse vehicle parking bay on day of collection. The applicant is advised that the Council's refuse collection department is consulted to agree a refuse collection arrangement.

#### Gates open inwards

Any gates must open inwards and not out onto the public highway for health and safety reasons.

#### Land Contamination

In complying with the contaminated land condition parts 1 and 2, reference should be made at all stages to appropriate current guidance and codes of practice. This would include:

- 1) The Environment Agency CLR & SR Guidance documents (including CLR11 'Model Procedures for the Management of Land Contamination');
- 2) National Planning Policy Framework (2012) / National Planning Practice Guidance (2014);
- 3) BS10175:2011 - Investigation of potentially contaminated sites - Code of Practice;
- 4) Guidance for the safe development of housing on land affected by contamination, (2008) by NHBC, the EA and CIEH;
- 5) CIRIA report C665 - Assessing risks posed by hazardous ground gases to buildings;
- 6) CIRIA report C733 - Asbestos in soil and made ground: a guide to understanding and managing risks.

#### Acoustic Consultant

Please note that in addition to the above, consultants should refer to the most relevant and up to date guidance and codes of practice if not already listed in the above list.

The applicant is advised to engage a qualified acoustic consultant to advise on the scheme, including the specifications of any materials, construction, fittings and equipment necessary to achieve satisfactory internal noise levels in this location.

In addition to the noise control measures and details, the scheme needs to clearly set out the target noise levels for the habitable rooms, including for bedrooms at night, and the levels that the sound insulation scheme would achieve.

The Council's Sustainable Design and Construction Supplementary Planning Document requires that dwellings are designed and built to insulate against external noise so that the internal noise level in rooms does not exceed 30dB(A) expressed as an Leq between the hours of 11.00pm and 7.00am, nor 35dB(A) expressed as an Leq between the hours of 7.00am and 11.00pm (Guidelines for Community Noise, WHO). This needs to be considered in the context of room ventilation requirements.

The details of acoustic consultants can be obtained from the following contacts: a) Institute of Acoustics and b) Association of Noise Consultants.

The assessment and report on the noise impacts of a development should use methods of measurement, calculation, prediction and assessment of noise levels and impacts that comply with the following standards, where appropriate:

- 1) BS 7445(2003) Pt 1, BS7445 (1991) Pts 2 & 3 - Description and measurement of environmental noise;
- 2) BS 4142:2014 - Method for rating industrial noise affecting mixed residential and industrial areas;
- 3) BS 8223: 2014 - Guidance on sound insulation and noise reduction for buildings: code of practice;
- 4) Department of Transport: Calculation of road traffic noise (1988);
- 5) Department of Transport: Calculation of railway noise (1995);
- 6) National Planning Policy Framework (2012)/ National Planning Policy Guidance (2014).

Please note that in addition to the above, consultants should refer to the most relevant and up to date guidance and codes of practice if not already listed in the above list.

### Construction Method Statement

The submitted Construction Method Statement shall include as a minimum details of:

- o Site hoarding
- o Wheel washing
- o Dust suppression methods and kit to be used
- o Site plan identifying location of site entrance, exit, wheel washing, hoarding, dust suppression, location of water supplies and location of nearest neighbouring receptors. Explain reasoning if not applicable.
- o Confirmation whether a mobile crusher will be used on site and if so, a copy of the permit and indented dates of operation.
