

Opposition motion in the name of Cllr Rohit Grover: EV charge points - consultation and transparency

Council notes that:

On 26 June 2023 Cabinet approved the award of the contract for the supply, installation and future maintenance and operation of 793 non-lamp column electric vehicle charge points to Trojan Energy Ltd.

This Council resolves:

To ensure that prior to the installation of all lamp and non-lamp column electric vehicle charge points on residential streets:

1. residents of those streets are consulted.
2. the results of each consultation exercise are presented to the relevant ward councillors; and
3. the results of each consultation exercise are made public.
4. That residents will not face any extra costs to use EV points, such as buying a specific charging cable not already provided with their vehicle.

Under Council Procedure Rule 15.5 this motion is to stand referred to the Executive as an executive side function
