## ESTIMATE

### COPPETTS WOOD FOOTPATHS

- To supply labour and equipment to lightly cut back the vegetation to make way for the new paths to be installed.
- To supply labour and equipment to install wooden edging boards to determine the route of the new paths where needed, approx. 350m.
- To level the existing base and cover with 100mm of Mot Type 1 and compact.
- To supply and level 20mm of granite fines over the new path and compact.
- To level the ground through the existing wet areas of the paths and import larger hardcore for a base, compact and then install the new path.
- To install drainage pipes where needed to allow storm water to flow under the path to stop any erosion.
- To supply and install timber post and rail fencing to repair the missing section on the main ride.
- To clear the steps leading to the A406 from vegetation and install anti slip plates to the leading edge of the treads.
- To remove the redundant tall mesh fencing and replace with a new, 50m section of post and three rail fencing.
- To install a new section of post and rail fencing to the new entrance and barrier gate.

**FOR THE SUM OF £28,800.00 PLUS V.A.T.**
